The All-New
KONA Hybrid

KONA HYBRID

The all-new KONA Hybrid is here.

The newest member of the KONA family uses electric power to help you go farther on a litre of petrol – because nobody said that lowering emissions had to be boring. Thanks to its innovative hybrid powertrain, the all-new KONA Hybrid combines head-turning good looks with exceptional fuel efficiency. All without you having to charge a battery or change your driving habits.

MICHELIN

We charged-up the good looks.

Confident and unique, the all-new KONA Hybrid features the award-winning design that has made the KONA such a success. Naturally, you can also mix and match the all-new KONA Hybrid to express your personal style. It's also available with an eye-catching two-tone roof – which means you can combine 10 exterior colours with 2 roof options to create different combinations.

Meet the future of efficiency. Hybrid awaits.

Full-parallel hybrid drive system

Taking excellent fuel efficiency to the next level, the all-new KONA Hybrid is equipped with both a petrol engine and an electric motor: a so-called full-parallel hybrid drive system. They work together with the support of a powerful lithium-ion polymer battery to deliver excellent fuel economy and cut down on emissions. Depending on the driving situation, the hybrid drive system switches seamlessly between the conventional engine and the electric motor – sometimes utilizing both at the same time. Together, they deliver outstanding power performance with a combined output of 141 PS and 265 Nm of torque. And as part of the regenerative braking system, the electric motor also helps slow the car, charging the battery so you don't have to.

Paddle shifters

Feel like taking control? In Sport Mode, you can use the steering-wheel-mounted shift paddles to shift gears manually for more thrills.

Six-speed Dual Clutch Transmission

The innovative six-speed Dual Clutch Transmission (DCT) gives you a more natural and sporty shift feel for a truly engaging driving experience. It delivers better acceleration with instant engine feedback, combining the fuel efficiency and responsiveness of a manual transmission with the convenience of an automatic. The Electronic Parking Brake button is located next to the shifter.

Inside the all-new KONA Hybrid

The all-new KONA Hybrid also features an exclusive interior colour pack as standard equipment. Stylish white accents on the air vent surroundings and gear shift bezel are contrasted by glossy black accents on the door handles, steering wheel spoke, and air vent bezels. The seats also feature white contrast stitching for even more style. There's also a new digital information cluster available, conveniently located next to the speedometer. The 3.5" screen shows you important driver information such as the status of active safety features, remaining fuel range and fuel consumption, navigation instructions and outside temperature. The hybrid gauge shows you battery charge and discharge status and the battery state of charge.

Specifications

Engine	
Type	Kappa 1.6 Atkinson GDI
Displacement (cc)	1580
Max. Power (kW/rpm)	77.2 / 5,700
Max. Torque (Nm/rpm)	147 / 4,000

Electric Motor	
Type	Permanent Magnet Synchronous Motor (PMSM)
Max. Power (kW)	32
Max. Torque (Nm)	170
Battery power output (kW)	42

Fuel Consumption / Emissions (WLTP)	
Fuel consumption range (l/100km combined)	5.4
CO_2 range (g/km)	122

18'' Alloy wheel

Exterior

18" Alloy Wheels
Body Garnish - Painted Anthracite
Bumpers - Body Coloured
Door Mirrors - Body Coloured
Exterior Door Handles - Body Coloured
Radiator Grille - Black with Chrome Surround
Rear Spoiler with Integrated LED Brake Light
Roof Rails
Skid Plate Rear - Silver
