CUPRA COLLECTION

CUPRA

We are much more than a car brand.
We were born in a garage from the passion
of a few believers who sought to reinvent
the principles of the automotive world.
We don't travel roads, we live them.
We don't settle for merely driving, we seek
emotions. And when the car stops, the
philosophy continues. We represent a way
of understanding life. Will you join our tribe?

Welcome to the CUPRA Collection.

CUPRA COLLECTION

LICENSES

We dare to go further. We seek out creators that love what they do, that are capable of reinventing, of imagining a more contemporary concept of their products and we propose a challenge we can share. The starting point is the same as ours: to always interpret sophistication from a modern perspective.

COLLABORATIONS

We join forces with those that share our vision, with those brands that have chosen to innovate through their materials and design, with those that pour their passion into every item, just as we do: modern day artisans. That's why you can find our logo on their most exclusive product lines.

COLLECTION

Our CUPRA tribe is special. That's why our own collection of fashion and accessories had to be special, as well. We have remastered even the most basic aspects, carefully choosing the materials and design of each article so that everything, absolutely everything, has that special touch of distinction.

MIKAKUS FOR CUPRA

Also born in Barcelona, both our brands share the DNA of a city that inspires design from its very streets. Created precisely to walk those streets, this joint collection of sneakers conveys modernity and comfort. Minimalism, a contemporary design and a slim, aerodynamic silhouette: pure CUPRA's character for those whose natural habitat is asphalt.

MARSET FOR CUPRA

What would a CUPRA lamp be like? The answer could only come from bringing together the minds of our designers and those of the creators of the Marset lamps, capable of illuminating the world with a unique and sustainable light. And from this union, CHISPA was born: the style of our CUPRA Garage applied to lighting.

TRAKATAN FOR CUPRA

Each leather article, every accessory by Trakatran is unique because only in the things that are handmade can the most absolute exclusiveness be found. Craftsmanship and sophistication are brought to life in a small workshop in Italy where it all began as a dream. A story too similar to our own for destiny not to have ultimately crossed our paths.

FABIKE FOR CUPRA

Using only the highest quality materials like carbon fiber, titanium and high-end aluminum, the challenge was to create a unique bicycle, not only in its style, but also in its ability to transfer the essence of racing to urban life use. The result can be seen by merely looking at it ... because sportiness stands out in any vehicle.

Rest of markets, will receive the order from SEAT. For stock availability information, please contact directly to *pmorato@mikakus.com*

MATERIAL

Leather, neoprene, fabric, polyurethane transfer film, high frequency.

CARE INSTRUCTIONS

Better safe than sorry, that's why we recommend using a waterproofing spray to help keep your MIKAKUS cleaner longer. But if they DO get dirty and you want them to look new again, the first thing to do is to check what they're made of. If they're made of a material such as mesh, canvas or synthetic leather, you can put them right into the washing machine. If, on the other hand, if they have real leather, suede or nubuck leather, it's important NOT to put them into the washing machine to keep them from getting spoiled. In that case we recommend treating each material separately, for example, leather can be cleaned with a damp cloth but nubuck and suede must be cleaned with a brush.

DETAILED PRODUCT DESCRIPTION

The new Mikakus™ x CUPRA Paddock redefines the concepts of design and sophistication. With a modern knit upper, these slip-on sneakers have a chunky light EVA sole that provides maximum comfort thanks to its cushioning effect. They include laced support, a branded insole, and a logoed back tongue, and are designed with premium finishes, including metal eyelets and leather details.

MIKAKUS FOR CUPRA - GARAGE

We place our contemporary vision of sportiness at your feet. Intended for urban life, the Garage shoes will provide you with comfort and style wherever you go. With a rounded toe, a top quality leather upper and a vulcanized relief gradient inspired by the upholstery of the CUPRA, these exclusive shoes are handmade in Europe. There are models for both men and women, available in petrol blue and white.

Take a step further in your sneaker collection with the Mikakus™ x CUPRA Garage.

MARSET FOR CUPRA - CHISPA LAMP

With a look that is reminiscent of an antique garage lamp, Chispa is the symbol of the fusion between two worlds: cars and design. **Or we might say art, since it has been selected for the MoMA store in New York.** This small, portable lamp will accompany you wherever you go, providing a warm and pleasant light. It is lightweight and has three brightness settings, making it ideal for indoor or outdoor use. It can also be hung using an accessory.

BLACK

Chispa lamp is at supplier's warehouse.
Delivery time is 1 week after you place the orders in the system.

MATERIAL

Coloured polycarbonate base and structure,with white opal polyethylene diffuser.

CARE INSTRUCTIONS

This luminaire has been designed to be used in operating temperatures between 0° and 45°C. If luminaire is used in other ambient temperatures, the life of the battery may be reduced and not work properly. Don't leave this product under direct sunlight. To clean the luminaire use soft damp cloth, with soap or neutral detergent. Do not use alcohol or other solvents.

DETAILED PRODUCT DESCRIPTION

Chispa (Spark), designed by Joan Gaspar, is waterproof certified, with IP44 accreditation. Its design evokes a garage lamp, but a high quality one, lighter and eminently useful, with three settings for illumination. It is sophisticated and conveys a warm light, decidedly designed to serve as an accompaniment. Its structure is protected by a grate that revolves the light source, a touch rendering it truly original. It also comes with an accessory that allows one to hang it.

When turned on, the light itself illuminates the lamp, mitigating its color. Available in orange, blue, green and in a special black version with copper details, designed in collaboration with the automotive brand CUPRA. Chispa evokes creativity and ingenuity, the spark of light and combustion.

CUPRA COLLECTION COLLABORATIONS

We work together with brands that break away from conventional thought and take style and design to another dimension. We project the CUPRA philosophy beyond the steering wheel, choosing only the most exclusive products made from the highest quality materials that adapt to your lifestyle.
