1) All models are type approved to WLTP (Worldwide harmonised Light-duty vehicles Test Procedure) standards. WLTP is the official test regime for passenger cars and the emission figures will be used to calculate the vehicle tax on vehicles first registered from 1st April 2022 and from 6th April 2022 for company car Benefit-In-Kind purposes. The exact CO_2 figures of the vehicle will vary according to any options and packs specified.

2) Vehicles with a retail price over £40,000 (including paint, options, packs and delivery costs) when new, pay an additional £355 per year on top of the standard rate, for five years from the start of the second licence. This additional tax is not applicable for zero emission vehicles.

3) P11D value for Benefit-In-Kind purposes is the retail price plus delivery charge. BIK % is shown for the 2022/23 tax year.

4) All 'On The Road' prices quoted in this price list include Volvo standard national delivery charge, inclusive of number plates and VAT at £745 and vehicle tax as 1st April 2022 (as set by the government). This charge does not include any provision for fuel. The On The Road price also includes a £55 first registration fee (as set by the government – excludes Channel Islands and Isle of Man). Recommended retail prices quoted do not include these additions.

5) Figures shown reflect standard vehicle without options. The Volvo car configurator can display the estimated CO2 and vehicle range according to selected packs, options and wheels. Your retailer will be able to confirm the CO_2 and EAER values once the vehicle order has been confirmed by the factory for production.

*Preliminary data. P11D and OTR prices are calculated using CO2 figures and therefore subject to change once confirmed data is received. Please contact your retailer for latest information.

Figures are intended for comparability purposes and do not express or imply any guarantee of the fuel consumption of a particular car. The fuel consumption achievable under real world driving conditions and CO_2 produced will depend upon a number of factors including accessories fitted after registration, variations in driving style, weather conditions and vehicle load.
