QUALITY

The long road to perfection.

Mercedes-Benz light-alloy wheels not only boost your vehicle's looks, they also offer the ultimate in safety.

All wheels are precision-tailored to your vehicle in terms of load profile and dimensions. Before your light-alloy wheels are allowed to accompany you safely on your travels, they are subjected to an extensive development and testing programme. Each wheel design has to pass a variety of endurance tests, based on exacting Mercedes-Benz guidelines, all of which exceed statutory requirements. These include special test routines which simulate real challenges on the road and material tests in cutting-edge x-ray facilities.

High-shine wheels undergo additional tests such as exposure to highly corrosive salt spray or a 28-day variable climate programme. Only once all of the tests have been passed may the wheels be included in the range of genuine Mercedes-Benz light-alloy wheels. Add an individual touch to your vehicle with a tested and approved genuine Mercedes-Benz light-alloy wheel and head for the open road.

Choose your favourite wheels online. Our Accessories Configurator shows you at a click of the mouse how the various Mercedes-Benz light-alloy wheels will look on your vehicle. Visit our website at www.mercedes-benz-accessories.com

01	AIR-BALANCE package flacon	30
02	Illuminated door sill panel	31

The perfect environment appeals to all of the senses. Here's the ideal starting point.

01 AIR-BALANCE package

The interior of the vehicle can be fragranced individually to suit your tastes with the aid of the AIR-BALANCE package (optional extra Code P21). There are four high-quality fragrances to choose from, designed to suit your personal preferences and mood. The intensity of the fragrance can be adjusted in three stages. The quality of the air can also be enhanced by ionising the oxygen and filtering the outside air.

Flacon, DOWNTOWN MOOD

Fragrance family: floriental, musk, fruity

Transparent, flowery combination of jasmine and lilac, with warm undertones of musk, ambergris and a cashmere note. Top notes include magnolia and rosewood for freshness, peach for softness and an intriguing metallic effect. A soft, sensual, atmospheric perfume with sex appeal.

Flacon, NIGHTLIFE MOOD

Fragrance family: woody, oriental, ambered

NIGHTLIFE MOOD is enriched with complementary wood notes that give the scent body. Cool spices such as cardamom and pink pepper give a freshness to the top notes. A trace of a certain aldehyde accord adds a subtle cognac effect. In the base notes the wood tones combine with frankincense, ambergris and vanilla to create a soft, silky elegance.

Flacon, FREESIDE MOOD

Fragrance family: citrus, flowery, tea

Citrus elements combine with tea at the heart of this perfume, which is rounded off elegantly with flowery top notes. The base notes include hints of cedar, patchouli and ambergris. Overall: very rounded and harmonious.

Flacon, SPORTS MOOD

Fragrance family: green, flowery, citrus

This perfume is based on a harmony of lime tree blossom and fresh, light-green leaves. The lime tree blossom at the heart of this perfume is surrounded by light, flowery tones such as magnolia, gardenia and violet. The green top notes take their freshness and lightness from aspects of grapefruit and watermelon, while the base notes have a mossy nuance.

Empty flacon | not pictured

Would you like to use your own choice of fragrance? The empty flacon for the AIR-BALANCE package is the perfect solution.

02 Illuminated door sill panels

A distinctive, eye-catching accessory, whether in daylight or at night, with lettering illuminated in brilliant white.

Inside your vehicle you can check the quality of Mercedes-Benz floor mats for yourself. They are precision-tailored to the dimensions of the footwell, clip-fastened to the floor of the vehicle to prevent slipping and absolutely dimensionally stable, thanks to their special layered format. 05 Rear-mounted bicycle rack for trailer coupling, folding
 Easy-to use, lockable rear-mounted bicycle rack, designed to provide secure transport for 2 or 3 cycles. Rack is easy to attach to trailer coupling, and cycles are equally easy to fit to rack. Maximum payload of up to 30 kg per rail, making rack suitable for most ebikes. An ingenious roller mechanism means that the boot/load compartment can still be opened. The rack is easy to fold for space-saving stowage in the boot/load compartment, at your holiday accommodation or at home.

06 Trailer coupling

Semi-automatic folding trailer coupling, specially for Mercedes-Benz vehicles. High corrosion protection. Maximum drawbar load 75 kg.

01 Snap-in module for load compartment

Partition your load compartment to suit your requirements and prevent the contents from sliding around. The brackets can be freely positioned along the outer edges of the load compartment floor. The system's telescopic frame provides a secure hold.

Product is available for the Estate only. Factory-fitted pre-installation (Code 942) is not required.

02 03

02 Shallow boot tub

Made from impact-resistant, non-slip polypropylene. Suitable for transporting foodstuffs. Structured surface holds separately available stowage crate in place.

04

03 Stowage crate

A secure hold for items which are prone to tip over or slide around, e.g. shopping bags. Adjustable partitioning elements allow crate to be divided into max. four sections. Optimum functionality only in conjunction with shallow boot tub.

05

05 Reversible mat

The reversible mat has a high-quality velour side and a non-slip side. It helps keep the original floor of the boot or load compartment clean. Available in black.

06

06 Concertina load sill protector

Protects the rear of the vehicle from scratches when you're loading up – and prevents dirt from the vehicle from getting onto your clothes. Practical design – can be secured to shallow boot tub or reversible mat.

Concertina bags | not pictured

A practical addition to the EASY-PACK load-securing kit (Code 942): these folding, removable bags in robust, washable nylon fabric offer a secure hold for your shopping. Simply insert the supplied brackets into the load system strips in either side of the load compartment floor, slot the bags into place, open them up – and they're ready to use!

Product is available for the Estate only. With the extension kit for the snap-in module for the load compartment (A204 860 0051) in place, concertina bags can be fitted without pre-installation of the load-securing rails (optional extra Code 942).

04 Deep boot tub

Deep edge all round. Made from flexible, impact-resistant HD-PE plastic. Suitable for transporting foodstuffs.

07 "EASY-PACK" boot box

A practical option for storing objects in the boot. When it is not in use, the box can be folded up at the touch of a button and slid beneath the parcel shelf to save space.

08 Luggage net for floor of boot/load compartment

Prevents lightweight objects from sliding around during your journey. Net is in pocket format.

09 Tie-down strap

Even heavy objects can be secured in place easily using this strap.

10 Luggage-securing feature

Ingenious solution to the problem of luggage sliding around in the boot. Attaches securely around the object in question thanks to Velcro fastening.

Product is available for the Saloon only.

11 Shopping crate

Anthracite. Collapsible.

12 Fluorescent jacket, compact

Optimum safety in every situation: this fluorescent yellow jacket with reflective stripes makes you more visible to others. Now rolled for compact stowage and supplied in an individual fabric bag. Suitable for the stowage compartments in the vehicle doors.

13 Coolbox

Not only cools but warms too. Cools to up to 20°C below ambient temperature – to max. -2°C. Can be switched to warming function. Robust, highly insulated hard case with fabric cover, outside pockets and padded shoulder strap. Capacity 24 litres. Can be connected to 12 V socket in vehicle or to 230 V power source via separately available rectifier.

14 Rectifier

Allows the coolbox to be connected to a 230 V socket at home.

15 Vehicle tool kit

Everything you need to change a wheel – from the wheel wrench to a pair of gloves. All handily stored in a compact bag.

16 Charger with trickle charge function

New life for your vehicle's battery: checks, charges and revives your battery – even if it's totally flat. Tailored to your vehicle's complex electronic systems. Available in 3.6 A and 25 A version for all types of lead-acid battery. Also available in 5 A version for all types of lead-acid or lithium battery.
