

Break Through

DATSUN GO+

DESIGNED TO DRAW ATTENTION

The Datsun GO+ is packed with all the best features from the Datsun GO, and we've also added a few eye-catching new ones. Its elongated body shape makes it ultra spacious, meaning you'll never have to choose between comfortable seating or a large boot. The design aesthetic is distinctive and modern, reinforced by a sleek, dynamic silhouette and strong shoulder line. The overall impression is one of standout style, letting you make a statement wherever you travel.

IDEAL FOR THE EXTENDED FAMILY

The Datsun GO+ has a cabin roomy enough to comfortably fit the whole family. Whether you're picnicking, road tripping or moving house, the Datsun GO+ has no problem making space for whatever you need.

1. Light your upward path with distinctive headlamps

The Datsun GO+ sports iconic headlamps to brilliantly mark your arrival. They're tough enough to handle whatever our country's roads can throw at you.

2. Imposing front fenders

The Datsun GO+ features bold fenders that add a subtle touch of class. The resulting silhouette gives the Datsun GO+ enough character to stand out amongst the regular, everyday drives.

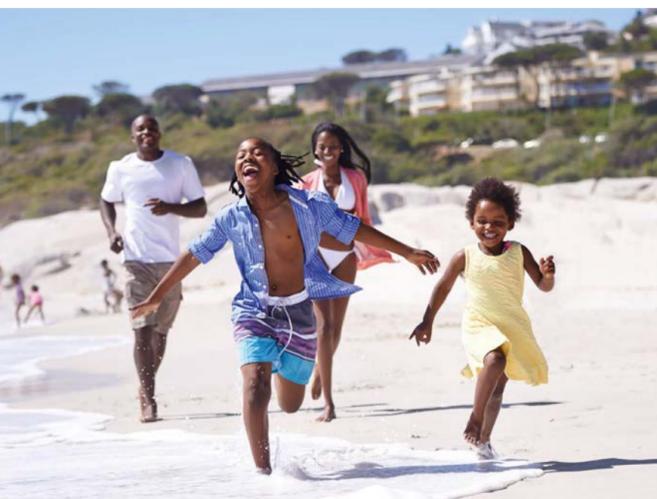

3. Dominant rear shoulders

The Datsun GO+ is made with real care, and it shows in the rear of the car. With its signature rear shoulders, the car stands apart from anything else in its class.

4. The stylish D-cut grille

Announce your arrival in style with the Datsun GO+'s trendy D-cut grille. It's designed with a beautiful honeycomb structure to make sure that you and your car get noticed.

**THE DATSUN GO+
SPACE FOR ANY
LIFESTYLE**

There's a lot going on in your life, and your car should help you make things happen.

As a car that's made to be as flexible as your needs, the Datsun GO+ offers a 5+2 seating option that also doubles up as extra space whenever you need it. Now you can go ahead and live your life your way: The Datsun GO+ will surely make itself fit.

**THE DATSUN GO+
IT KNOWS NO COMPROMISE**

Warning
Do not drive with the second row seat in tipped-up or fold-down position.

Never allow anyone to ride in the second row seat when the seat belts are taken off the seat.

Insert centre seat belt and all buckles through the gap between the cushion and the seat back, while ensuring seat back is in folded condition.

Be careful not to allow the second row seat to pinch or hit any part of your body or other people when operating the second row seat.

For more detail on safety, please refer to the Owner's Manual.

A LITTLE MORE OF EVERYTHING

Datsun GO+ makes the all-round, great car of your dreams a reality. With impressive acceleration and fuel efficiency, a spacious interior for family and friends, and plenty of room in the boot too, it's designed to suit any lifestyle.

1. One-size-fits-all

The Datsun GO+ comes with a flexible third row, ample headroom and spacious interiors. Yet it's compact enough to fit into tight parking spaces. It feels great to be able to stretch your legs without stretching your pocket.

2. Enough space for your ever-changing needs

The Datsun GO+ comes with 347ℓ of boot space when rear seats are folded.

3. Every seat feels like the best seat

Enjoy a sense of premium comfort wherever you sit: Every seat provides an exceptional amount of personal space.

4. Ergonomic seating that's got your back

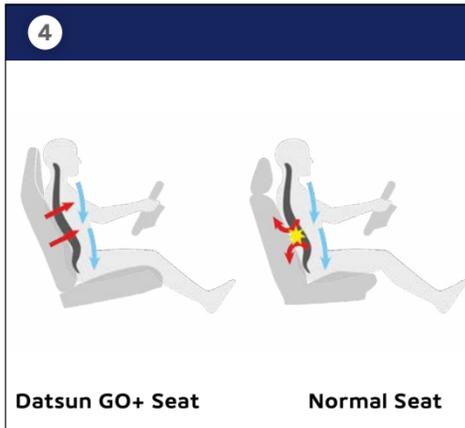

Be as refreshed when you step out of your car as when you stepped into it. The Datsun GO+ has spinal support seats that adjust to your posture. This reduces pressure, optimises circulation, and reduces fatigue from the pelvis all the way to the chest.

5. Surprisingly spacious

Everyone gets to stretch out in the Datsun GO+. Passengers sitting in front can enjoy extensive head and shoulder room, while those sitting in the back will feel like they're in a spacious sedan.

6. Connected front seats only increases the fun

The connected front seats of the Datsun GO+ allow room for a purse or bag, and make it easy to slide across and out the other side in tight parking situations.

MDS – The heart of your entertainment system

You can dock your smartphone in the Datsun GO+'s mobile docking station, which is connected to speakers in the two front doors. This makes you the DJ, and also gives you access to everything a smartphone offers.

Passenger-side storage

There are plenty of spacious areas in the cockpit to store your belongings.

Door pockets

Extra space in the door trim can hold bottles, keys and other small items.

A BEAUTIFUL, FUNCTIONAL INTERIOR

Inside the Datsun GO+, elegant simplicity and clean lines are key. The emphasis has been placed on thoughtful details that reflect quality. The dynamic dipping line of the dash is inspired by a bird's wing and is accented with just the right amount of silver finishings. The gear shift is placed on the instrument panel for easy reach.

It all adds to an interior you won't want to get out of.

Surrounded by air

In the Datsun GO+, even the air-conditioning vents are special. The circular outlets let you pinpoint exactly where you want the air to flow. You can even close them to force more air out of other vents. Also, the upper dash vents are perfectly placed to ventilate the rear seats, truly making the Datsun GO+ a cool car to drive.

Blue colour speedometer with white lettering

Provides enhanced legibility to give you peace of mind and complete control.

Leather-feel grain dashboard

Interior elements feature a leather-feel grain finish. It's as pleasing to the touch as it is to the eye.

OUTPERFORMS, EVEN WHEN NO ONE IS WATCHING

From bonnet to boot, the Datsun GO+ is packed with modern technologies. With its reliable 1.2ℓ engine, advanced suspension system and front ventilated disc brakes, the Datsun GO+ delivers impressive performance that promises to exhilarate. And, with features such as the intuitive windscreen-wiping system, and follow-me-home headlamps, your drive is as safe as it is fun.

Not a guzzler

Datsun GO+ gets an impressive 20.6kmpl – competitive in its segment, even though Datsun GO+ is bigger inside and out.

1

1. Space for power

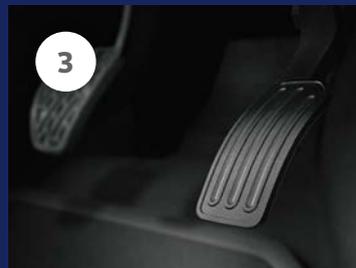

The largest-in-class 1.2ℓ engine, with perfect circle bore machining technology, delivers segment-leading power and torque. Combined with a counterbalance system, you'll enjoy minimal noise and reduced vibration for an exceptionally quiet ride. It's great performance that's also affordable.

2

2. Advanced suspension system for a smooth drive

The Datsun GO+ is engineered to respond quickly and take the bumps in its stride. The front suspension with a double-pivot front arm and high-response damper provide greater agility, all while quickly absorbing irregularities on the road. You'll be surprised at how in control of your drive you'll feel.

3

3. Effortlessly make your way ahead

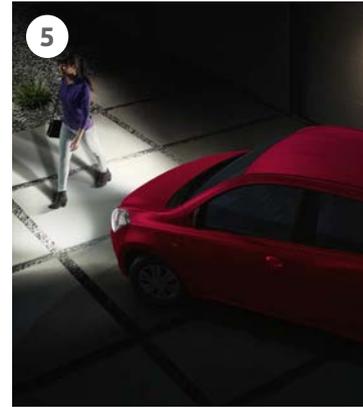

Step on the accelerator and notice how smoothly it responds; that's because it's controlled electronically – not by a cable – which also means less maintenance and lower emissions.

4

4. Stay safe with ventilated disk brakes

Should you need to bring your joyride to a sudden stop, the Datsun GO+ features 22mm front ventilated disc brakes, the largest in its class. This advanced system also increases longevity by reducing the brake fade from overheating.

5

5. Follow-me-home headlamps

The headlamps of the Datsun GO+ will safely guide you all the way to your doorstep. Just click the indicator once for 30 seconds of light, and up to four times for 120 seconds. Isn't it comforting to know your car is looking out for you?

6

6. A clear road ahead

Bad weather can compromise visibility and your safety. That's why the Datsun GO+'s wiper intuitively adjusts its speed to that of the car, to account for varying rainfall. Plus, it features a special mode where a final wipe clears away remaining droplets three seconds after the wiper motion stops.

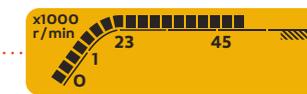

7

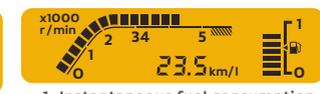

7. Know what your Datsun GO+ is up to

Calling it the Smart Meter is an understatement! It sports a digital tachometer, complete with a gear shift guide to help you conserve fuel through optimal gear changes. The drive computer displays fuel consumption, including the average and the distance to empty.

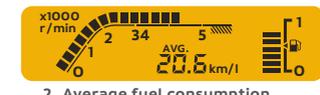

a. Digital Tachometer

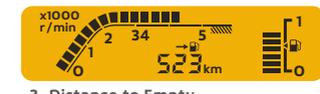

b. Drive Computer

1. Instantaneous fuel consumption

2. Average fuel consumption

3. Distance to Empty

8

8. Electric power steering keeps you in control

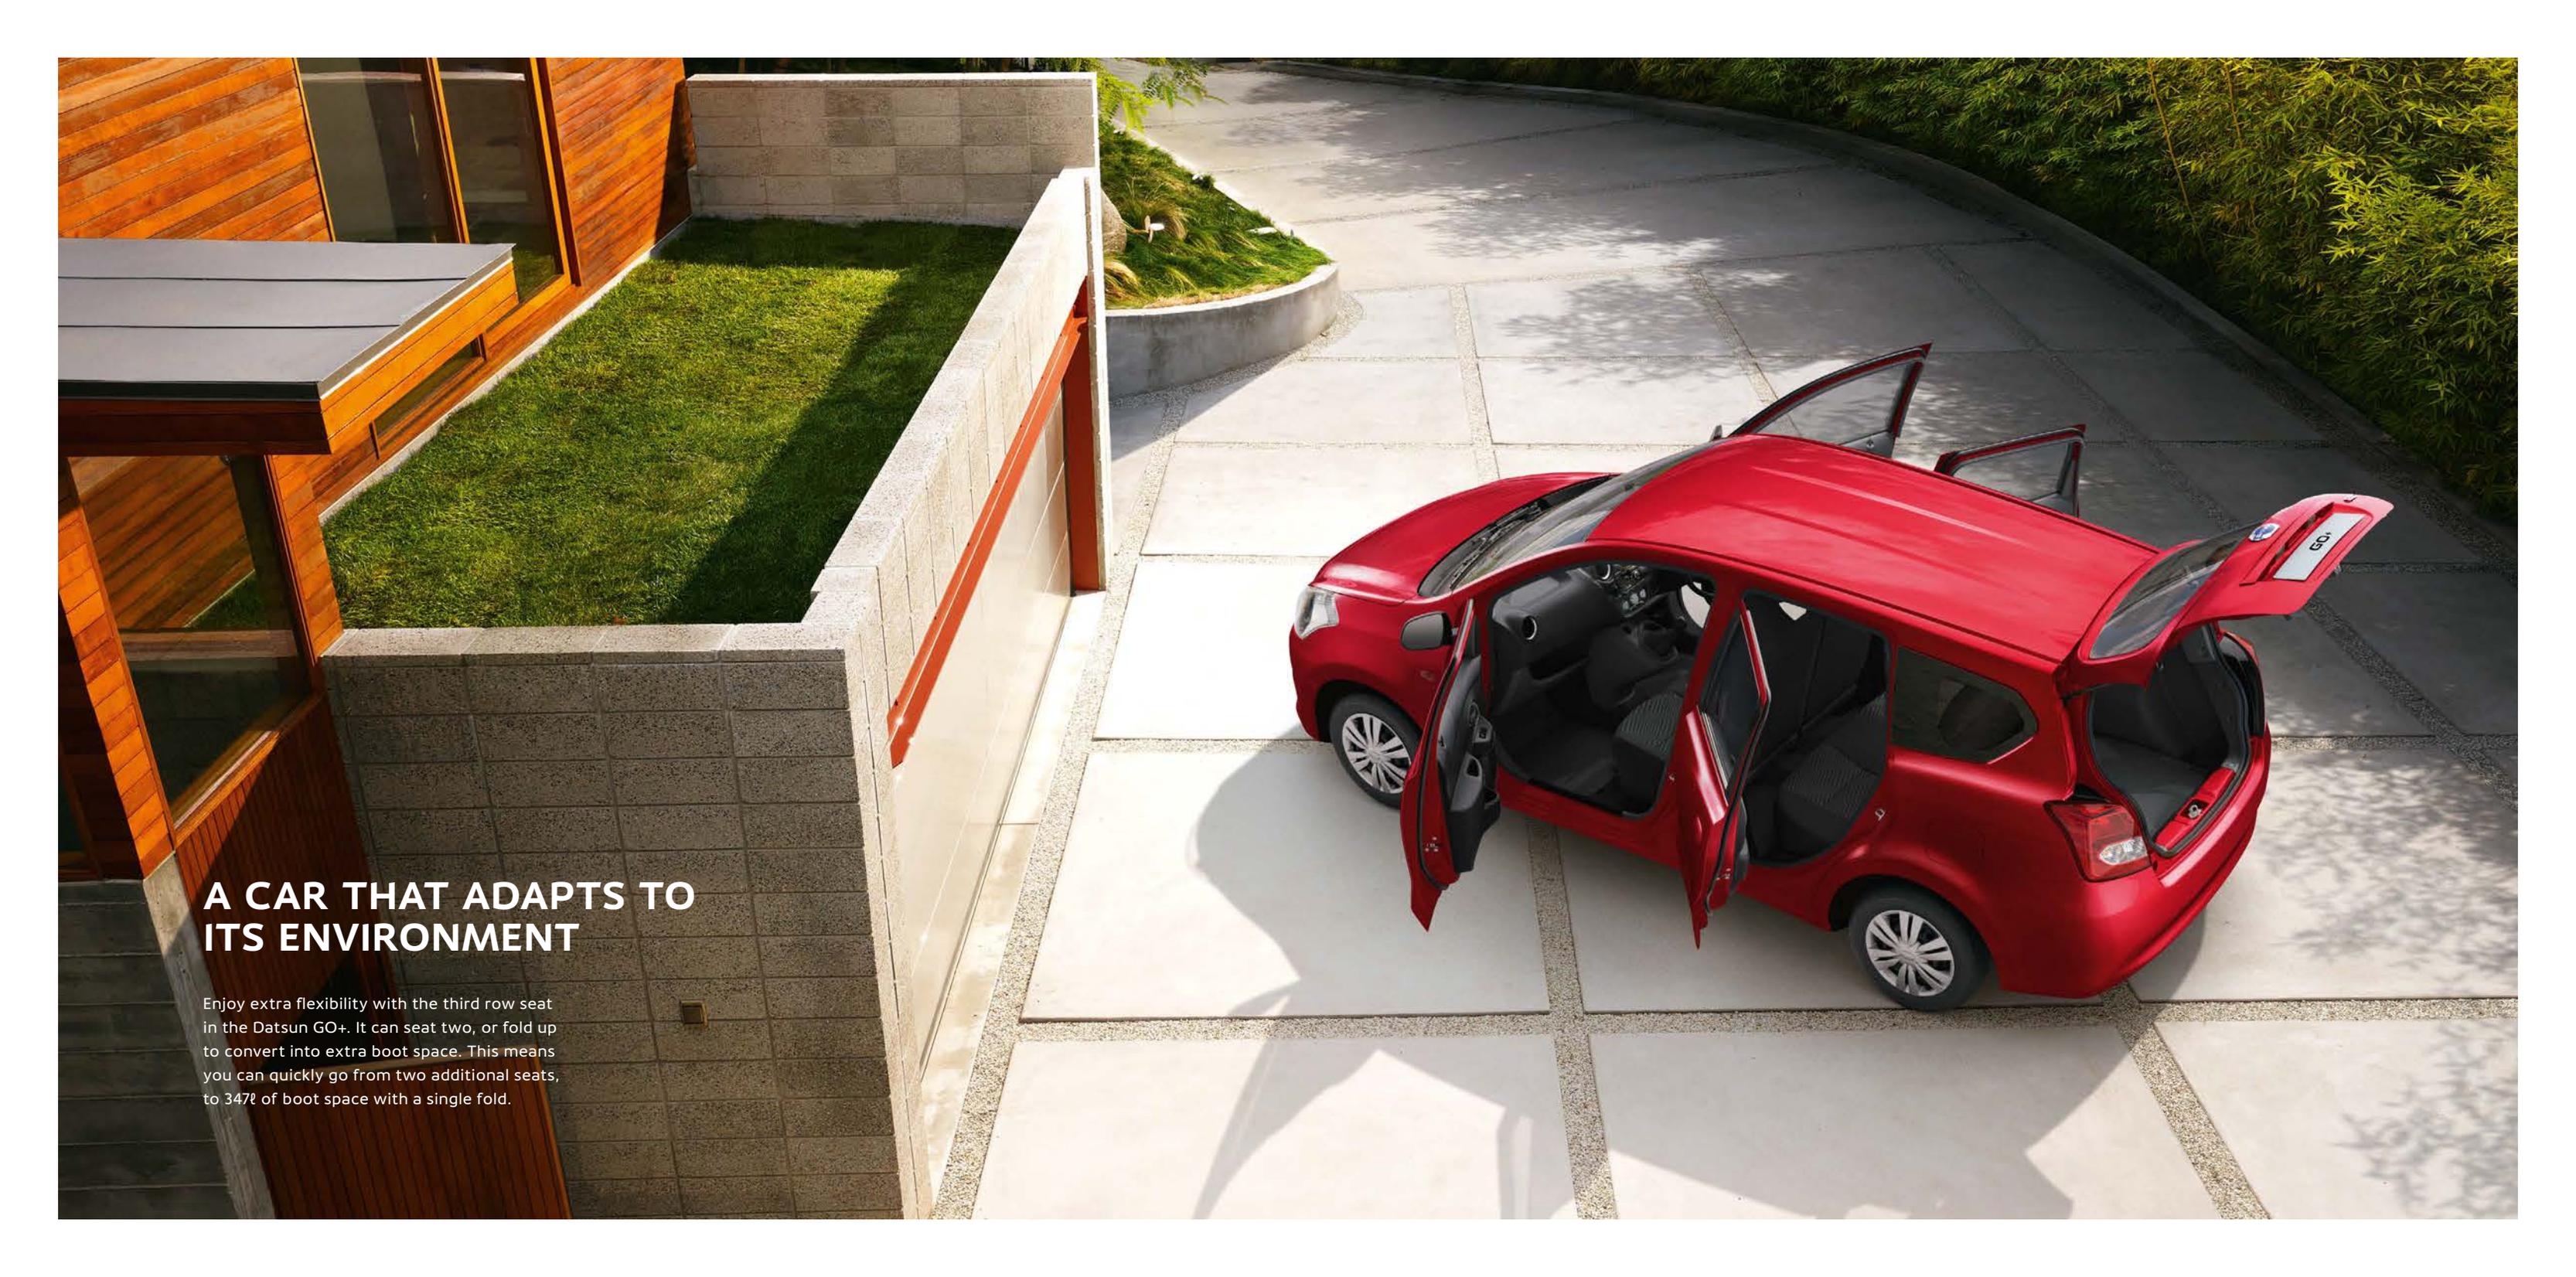

Everyone has their preference for how much steering assistance they prefer. In the Datsun GO+, you can adjust the level of power assist according to how fast you're driving. Get more assistance for easy cornering at lower speeds, or ease up for a smooth drive on the highway. In the Datsun GO+, control is always in your hands.

9

9. A quick turnaround

Although it features a longer wheelbase than other cars, the Datsun GO+ still has the best-in-class turning radius of 4.6m. It's perfect for making a quick turn on a narrow street.

A CAR THAT ADAPTS TO ITS ENVIRONMENT

Enjoy extra flexibility with the third row seat in the Datsun GO+. It can seat two, or fold up to convert into extra boot space. This means you can quickly go from two additional seats, to 347ℓ of boot space with a single fold.
