Honda Civic

# Full hybrid benefits

# Advanced power and **efficiency**

Born from over 25 years of advanced Honda hybrid technology, the Civic is the perfect blend of engine and electric power, offering both performance and efficiency, with no compromise to sheer driving pleasure.

And because Civic is a full hybrid, unlike a mild hybrid, it can run solely on electric power - with instant acceleration from a standstill, just like an electric vehicle.

**LOW CO<sub>2</sub> EMISSIONS\***  
102 G/KM

**HIGH ECONOMY\***  
4.5 (L/100KM)

# Hybrid Power

The Civic is self-charging; using a combination of two electric motors, a petrol engine and a regenerative braking system to top-up the EV battery on the go with no need to plug-in.

Honda's advanced e:HEV powertrain has three autonomous drive systems that deliver performance and economy:

- **Electric drive** for silent, instant power
- **Hybrid drive** for sporty responsiveness and long range potential
- **Engine drive** for sustained, higher speed cruising

**NO NEED TO PLUG IN**  
**SELF-CHARGING FULL HYBRID**

**POWERTRAIN WARRANTY**  
**5-YEAR/90,000 MILES**

# Performance

# Designed to be driven

Civic's sporty chassis gives you agile, sure handling and responsiveness. Its full hybrid powertrain, maximum torque of 315Nm and maximum power of 184PS\*, deliver the performance you need, when you need it.

Adjust your drive with 4 selectable modes to suit your driving style and mood.

- **Normal** balances power with efficiency
- **Sport** boosts acceleration and responsiveness
- **Econ** increases fuel efficiency
- **Individual** adjusts powertrain and steering settings to suit your preferences

**315NM**  
MAX ELECTRIC MOTOR TORQUE

**0-62 MPH**  
**7.8 SECONDS**

# Performance you can feel

The Civic's design focuses on both enjoyment and confidence behind the wheel, placing driver comfort and a high standard of quality at the forefront.

Vibrations from the road surface are smoothed out comprehensively, while the body-stabilising front seats and intuitive controls create a seamless connection between you, the car, and the road.

# Safety

Honda  
**SENSING**

# Keeping everyone safe

Cocooned in the safety of 11 airbags and our most advanced active and passive safety features as standard, the Civic is a safe place to be on the road.

With Honda **SENSING** as standard, the Civic is equipped with Adaptive Cruise Control, Lane Keeping Assist System and a host of other features that can warn you to the presence of people nearby, alert you to traffic crossing your path, and to blind spots before you start to overtake.

# Honda

## SENSING

Our safety system gives you all-round peace of mind. For a full list of safety features please refer to the specification pages on the Honda website.

- **Collision Mitigation Braking System**  
Applies brakes automatically if a frontal collision is imminent.
- **Road Departure Mitigation System**  
If your car begins to drift out of lane or the road, tactile and audible warnings are delivered, and automatic steering is applied to correct the car.
- **Cross Traffic Monitor**  
Reverse safely when your view is obstructed, with warnings of approaching cars and other moving objects.
- **Lane Keeping Assist System**  
Keeps you central in your lane with gentle automatic adjustments to the steering wheel.
- **Adaptive Cruise Control**  
Helps maintain a constant speed and a set safe distance from any car in front by assisting with accelerating and braking.
