ALLOY WHEELS

CHOICES, CHOICES.

Some decisions are rewardingly difficult.

Do you make a statement with matt black? Stand out with platinum metallic? Or keep it strictly professional? Whatever your style, there will be an alloy wheel to match.

Prices shown are per wheel fitted. Tyres sold at additional cost.

ALLOY WHEELS

When it comes to checking the quality of our alloy wheels, we unapologetically put them through their paces. First they have to prove their resistance to corrosion, climatic influences and driving strain. Then the layer of heat-resistant paint is tested over and over for strength and durability.

The intelligent design of these child seats allows your child to be seated both in the back of the car, but also on the front passenger's seat where you can keep a closer eye on them. The seats also cleverly adapt to the ever-changing size of your children, making them a great long-term investment.

All our child seats comply with European safety regulations (EHK 44.04) and have been rigorously tested. Their high quality and safety is further highlighted by their excellent results in the Euro NCAP impact test, together with successful non-combustibility testing, harmful substance ratings and cover quality.
