

# TAKING A TEST DRIVE WITH JOHNSONS CARS

Johnsons Cars are pleased to be able to continue offering test drives, offering our customers a great buying experience. To allow us to do this safely, please read the below advice and guidance to understand our process and know what you need to bring on the day.

Vehicles will be sanitised before your test drive. This is a costly process, so we ask for a £1 contribution towards the cost of this process. To avoid contact, this will need to be paid by credit/debit card.

Test drives will be unaccompanied, meaning no sales person will be with you. This is to allow for social distancing. Because of this, extra security measures will be required as detailed below.

Please bring along the registration document for your current vehicle. You will be required to leave your car, car keys and registration document during your test drive for security and identification. We can also offer a part exchange valuation for your vehicle at the same time.

For extra security, we will require to see your driving licence, passport and another form of address identification such as a utility bill or council tax bill. If you're unsure what documents will qualify or you don't have one of these available, please get in touch prior to your appointment. **You must have held a full UK driving licence for at least 12 months.**

We will also take a photograph of you during your visit to keep a record of alongside your photo ID.

We will take photocopies of these for our record and all documentation will be double checked by management before the test drive can proceed. The original documents will be returned to you after your test drive.
