

FORTUNER

REIMAGINE THE LUXURY
OF FREEDOM

GO ANYWHERE REIMAGINE EVERYTHING

THERE ARE ONLY TWO THINGS YOU NEED TO TAKE YOUR OFF-GRID ADVENTURES FROM AWESOME TO OUT-OF-THIS-WORLD: THE ONES YOU LOVE AND THE NEW FORTUNER.

The off-road icon you know and adore, only now, more stylish than ever. This spacious SUV is reimagined, refreshed and ready for anything. Evolved to drive explorers with the luxury of freedom to see more, do more and enjoy more. Redesigned to look incredible on, off and beyond the road, the new Fortuner boasts a sleeker, catamaran-inspired shape, newly designed 18" alloy wheels, elevated interior detail, and next-gen advanced active safety upgrades*. Equipped with its legendary go-anywhere ability provided by a diff-lock* and four-wheel drive*, new and exciting adventures are well within reach.

*Available on selected models

YOUR CHOICE

YOUR ODYSSEY

Whether your destination is Tankwa Karoo or Timbuktu, there's a Fortuner for you. Choose between the 2.4 ℓ or the 2.8 ℓ model – both beyond capable to take you further than your wildest imagination.

GOING BEYOND

IS JUST THE BEGINNING

Reimagine the way you do road trips, because with the new Fortuner's impressive 4x4 capabilities, you'll have the confidence to take the family further than ever. From cross-continent trekking to cross-axle crawling manoeuvres, its powerful four-cylinder, 2.8l turbodiesel engine balances power delivery with drivability. The engine produces a prodigious 150 kW of power @ 3400 r/min and 500 Nm of torque @ 1600-2800 r/min. This ensures maximum tractability across a broad range of revs that's tailor-made for touring or towing. Exclusively available with the six-speed automatic paddle-shift transmission, 2.8l models are optimised with a balance shaft to reduce booming and vibrations under idling and accelerating.

Now you can get the best of both worlds with the 2.8l Fortuner 48V. Using the combination of a petrol engine and an electric motor, the Fortuner 48V lets you reimagine the way you drive. Enjoy an improved low speed drivability and downhill assist control (DAC) system, as well as improved braking and smoother acceleration, ensuring you an easy ride no matter the journey.

Then there's the 2.4l engine – available in either a six-speed manual or automatic transmission – that develops 110 kW of power @ 3400 r/min and 400 Nm of torque @ 1600-2000 r/min.

Both models have a high efficiency turbocharger and intercooler that delivers exceptional fuel economy under all driving conditions. More smoothness has been introduced with variable flow control power steering that enhances steering feel and delivers higher fuel efficiency than traditional power steering systems.

For added convenience and control, a push-button starts the engine. Also, complete handling dexterity and ride comfort is assured through the fitment of double wishbones for the front suspension and four-link-suspension at the rear.

Exclusive to the VX model is next-generation Adaptive Cruise Control (ACC) which uses a radar to scan the road ahead up to ten times per second. This allows for the Fortuner to match the speed of the vehicle in front of it and automatically maintain one of four pre-set distances. It will even slow down to a complete stop if necessary and accelerate again thereafter with no intervention needed from the driver.

In short – with the new Fortuner, you and the family can tackle new territories, and your bucket list, one adventure at a time.

MODEL SHOWN: 2.8 GD-6 4x4 VX AT

NEW FACE

TIMELESS ADVENTURES

Adventure-ready and radiant, the new Fortuner has been refined for travelling in style, with style.

The vehicle's modern, future-first elegance shines through with newly designed automatic-levelling LED headlamps across all models. The daytime running lights are mounted separately and lower on the front bumper for a more assertive appearance and better visibility to other road users. Exclusive to the 2.8ℓ model are the sequential LED turn signal indicators, a power-operated* luggage boot and rear fog lamps*.

At the rear, the bumpers on all models are colour-coded, and adorned by corner mouldings that provide a wider stance and follow-through on the front and side profile designs. LED-powered rear lights and

fog lamps provide optimal visibility and safety.

All models also come with newly styled 18" alloy wheels.

The pairing of the Fortuner's high-gloss black pillars and roof create a floating effect for maximum impact in the bush or on the boulevard. These are complemented by colour-coded, electrically retractable side mirrors with integrated indicator lights.

For ultimate exclusivity, 2.8ℓ models can be ordered in a special bi-tone Platinum White Pearl/Attitude Black.

**Available on selected models*

MODEL SHOWN: 2.8 GD-6 4x4 VX AT

The new Fortuner's interior personifies the luxury of freedom.

The leather seats are now trimmed in a stately black-and-maroon* colour combination. The driver and front passenger seats are heated* and electrically adjustable to provide you and your family with ultimate comfort and convenience.

As a generously proportioned seven-seater, practicality comes standard through access from the second to the third row of seats made easy with a one-touch mechanism*. ISOFIX child seat anchors on either side of the second row add to its functionality. Seats from the third row fold up and anchor vertically to allow for more stowage space in the load area of the vehicle, measured at a convenient 898 millimetres above ground for effortless loading and unloading.

All models are fitted with split front/rear air conditioning, which is automatically controlled in the 2.8ℓ models.

The driver command centre is brightly trimmed with a metallic coating and opulent satin finishes, while the metallic blue* dials are elegantly framed by satin-plated rings. The Multi-Information Display is a high-resolution

TFT unit with correspondingly simple, easy-to-read graphics. It provides key vehicle information such as digital speed readout, the selected driving mode (ECO or SPORT) and whether the electrically-operated luggage boot* is locked or not.

The Fortuner's high-tech highlights continue with the infotainment system. It comprises an 8" touch TFT screen unit and Bluetooth and USB connectivity that links up to 11* speakers. The screen also functions as the display monitor for the vehicle's reverse camera. In 2.8ℓ models, the electrochromatic rear-view mirror has an automatically adjusting anti-dazzle function.

The multimedia system is linkable to smart devices by Apple CarPlay and Android Auto. Both interfaces display the screen of the smartphone on the infotainment screen and link the phone's audio output to the vehicle's speakers.

Steering wheel mounted controls and Bluetooth phone pairing enable the driver to safely operate the infotainment system without moving their hands from the steering wheel or taking their eyes off the road.

FEEL FREE TO GO ANY- WHERE

TRUE FREEDOM IS KNOWING YOUR LOVED ONES ARE SAFE AND SECURE. THAT'S WHY IN THE NEW FORTUNER, PEACE OF MIND COMES STANDARD. GO FEARLESSLY WITH ADVANCED SECURITY TECHNOLOGY THAT INCLUDES SMART ENTRY, WIRELESS DOOR LOCKING, AN INTRUSION SENSOR, AN INDEPENDENTLY POWERED ALARM, IMMOBILISER AND ULTRASONIC GLASS BREAKING SENSOR. PLUS – AT CERTAIN SPEEDS, YOUR DOORS WILL AUTOMATICALLY LOCK UPON PULL-AWAY.

MODEL SHOWN: 2.8 GD-6 4x4 VX AT

Everyone in and around the new Fortuner have been carefully considered with driver, front passenger, curtain, driver-knee and front-side airbags, along with a comprehensive suite of state-of-the-art safety features (Toyota Safety Sense).

All models come standard with:

- Anti-Lock Braking System (ABS)
- Electronic Brake-force Distribution (EBD)
- Brake-Assist (BA)
- Vehicle Stability Control (VSC)
- Hill-Assist Control (HAC)
- and Trailer Sway Control (TSC)

There's also **Limited Slip Differential (LSD)** that provides the driver with more control and traction in wheel-spin situations and Front and Rear **Park Distance Control (PDC)** that guarantees effortless parking with six sonar sensors that constantly scan and alert the driver of nearby stationary objects.

Selected Fortuner models are further fitted with:

Downhill-Assist Control (DAC): prevents the wheels from locking on extreme descents and maintains a stall-free vehicle speed.

Active Traction Control (A-TRC): enables stability when driving off-road or in slippery conditions.

Pre-Crash System (PCS): mitigates potential collision by detecting proximity and warning the driver of oncoming vehicles or pedestrians.

Lane Keeping Assist (LKA): detects the edge of the road and visible lane markers to ensure the driver stays within the lane and alerts when lane deviation takes place.

TOYOTA ENVIRONMENTAL CHALLENGE 2050

At Toyota, creating technologically advanced vehicles isn't our only priority; we're committed to lowering our environmental impact throughout our entire production process. How? By setting ourselves six challenges that will see us reach a truly world-changing goal: a positive environmental impact by 2050.

ZERO CO₂

CHALLENGE 1

NEW VEHICLE ZERO CO₂ EMISSIONS CHALLENGE

By owning a Toyota you would be contributing to the reduction of vehicle CO₂ emissions by 90% in 2050 as opposed to 2010. You will help us promote the development of next-generation vehicles and further accelerate the spread of these vehicles.

ZERO CO₂

CHALLENGE 3

PLANT ZERO CO₂ EMISSIONS CHALLENGE

You uphold the two main pillars of our strategy to achieve zero CO₂ emissions at our plants which are:

1. Developing and introducing low-CO₂ technologies with ongoing kaizen.
2. Adopting renewable energy sources and utilising hydrogen energy.

CHALLENGE 5

CHALLENGE OF ESTABLISHING A RECYCLING-BASED SOCIETY AND SYSTEMS

You have contributed to our 40 years on the challenge of resource recycling. Going forward, by rolling out to the world the technology and systems evolved in Japan, we will all continue working on the challenge of establishing a recycling-based society.

THE TOYOTA FORTUNER RANGE HAS BEEN MANUFACTURED TO MINIMISE ITS CARBON FOOTPRINT.

Guided by the goals of the Toyota Environmental Challenge 2050, as little impact as possible is made on the environment during each step of the process. From design to manufacturing, to end-of-life recycling programmes, our planet always comes first. This is because the ultimate long-term goal for Toyota is to make all our vehicles as environmentally friendly as possible. With this in mind, the entire Fortuner range has been designed to have very low CO₂ emissions.

ZERO CO₂

CHALLENGE 2

LIFE CYCLE ZERO CO₂ EMISSIONS CHALLENGE

You are lending a helping hand to Toyota's efforts to reduce to zero not only CO₂ emissions produced in travelling and manufacturing, but all CO₂ emissions including the process of materials production, disposal and recycling of vehicles.

CHALLENGE 4

CHALLENGE OF MINIMISING AND OPTIMISING WATER USAGE

In automobile manufacturing, we use water in painting, forging and other processes. Therefore, even a small reduction of its impact on the water environments is important. We have two measures to achieve this, comprehensive reduction of the amount of water used and comprehensive purification of the water and returning it to the earth.

CHALLENGE 6

CHALLENGE OF ESTABLISHING A FUTURE SOCIETY IN HARMONY WITH NATURE

Here at Toyota we have engaged in planting trees at our plants and environmental conservation activities in our surrounding areas. To establish a society where humans and nature coexist in harmony, we are promoting several activities to connect regions, the world and the future.

The message is clear – Toyota Motor Corporation (TMC) wholeheartedly supports the Paris Agreement and accepts the challenge to achieve carbon neutrality by 2050. The Paris Agreement is a legally-binding international treaty on climate change and is aimed at reducing the emission of gases that contribute to global warming. While this treaty was only adopted in 2015, Toyota has been innovating and investing in technology to reduce emissions and achieve carbon neutrality for well over 30 years. Toyota has also led the way with more electrified vehicles on the road than any other automaker.

Toyota vehicles are known for their Quality, Durability and Reliability. Keeping your Toyota Genuine means no compromises in terms of safety, performance and resale value. The range of Genuine Products and Approved Services will ensure complete peace of mind throughout the ownership journey and beyond. For more information on how to Keep Your Toyota Genuine visit www.toyota.co.za/genuine

TOYOTA GENUINE PRODUCTS

For guaranteed fit and function, **Genuine Parts** are essential in maintaining the safety and reliability of your vehicle. They also comply with all safety, regulatory and environmental requirements, making it the obvious choice. The same exacting precision applies to **Toyota Accessories**, developed by engineers with extensive knowledge on vehicle integration – you can enhance the appeal and functionality of your Fortuner without compromising its safety features or warranty. Warranties are about peace of mind, and the **Genuine Unlimited Warranty** is designed to provide superior cover (up to 10 years, unlimited mileage) and a seamless claims process thanks to full integration with Toyota systems. The **Genuine Extended Service Plan** also enjoys exclusive approval by Toyota SA and provides flexible extension options up to 10 years or 300 000 km to suit your period of ownership. Paying today's rates for tomorrow's maintenance is a sensible way to protect the resale value of your Fortuner by means of a full service history.

TOYOTA APPROVED SERVICES

Specialised vehicle maintenance requires first-class facilities, advanced equipment and expert knowledge. **Toyota Quality Service and Value Service** not only promise accurate diagnosis and repair, but also a philosophy of building trust through a genuine concern for the needs of our customers. To complement the extensive network of Toyota dealers, we have a vast number of **Accredited Body and Paint Repairers**, selected on stringent criteria to ensure outstanding workmanship and customer service. You can maintain your vehicle's pristine condition without compromising its warranty thanks to the exclusive use of Genuine Parts by our Accredited Repairers. Offering 24-hour access to a full complement of assistance and recovery benefits, **Toyota Roadside Assistance** provides the peace of mind that competent support is only a phone call away.

TOYOTA GENUINE MEANS

✓ UNCOMPROMISED SAFETY ✓ GUARANTEED QUALITY ✓ PEACE OF MIND
