

# SELF-CHARGING HYBRID

UX 300h

At Lexus, we have a lot to be proud of. A leader in luxury car electrification for nearly 20 years. Over 2.5 million Lexus Self-Charging Hybrids<sup>1</sup> on the road across the globe. Cars that stand out for their sophistication, proven quality and award-winning reliability.

These are impressive facts, but for Lexus, performance is more than just numbers. And electrification is more than just batteries and motors.

It's the chance to define a new kind of driving pleasure, where each journey radiates confidence, control and comfort. With your Lexus responding instantly to your every move, you'll enjoy a luxury that is personal, a luxury rooted in the uniquely crafted connection between car and driver.

Just drive the UX 300h luxury SUV - equipped with smoother and more powerful Lexus Self-Charging Hybrid<sup>1</sup> technology - and you'll know what we mean.

This is Lexus Electrified<sup>2</sup>.

<sup>1</sup> Self-Charging Hybrid<sup>1</sup> combines a petrol engine and one or more electric motors.

Please read pages 18-19 for more information.

<sup>2</sup> Electrified<sup>2</sup> refers to a range of powertrains, some of which still use petrol next to electricity. Please read page 16-17 for more information.

FEEL EXHILARATED

# DRIVING THE SENSES

## AN ENERGY THAT DRIVES YOU ON

All around you are outstanding technical achievements, from the 5th generation Lexus Self-Charging Hybrid<sup>1</sup> to the ultra-rigid chassis, but at the wheel something special is unfolding. The quietness, the smooth linear acceleration and the precise agility around city streets are evoking an energy, a medley of confidence, control and exhilaration.

### BEAUTY MEETS FUNCTION

Lexus designers worked tirelessly to create a striking luxury compact SUV with an electrifyingly dynamic appeal. Their efforts are to be found even in the small details, like the unique rear LED combination light, whose stylish aerodynamic form contributes to handling and performance. This is where beauty meets function, and it's at the heart of the UX 300h.

Now available with head-turning Sonic Copper paintwork, the UX entices more than ever, its dynamic, lean look emphasised by sporty 18" alloys<sup>2</sup> and body-coloured wheel arch mouldings<sup>2</sup>. The distinctive F SPORT and F SPORT Design models can be specified in several extended bi-tone options, with a contrasting black roof and pillars, black roof rails, shark fin antenna and roof spoiler.

### LEXUS SELF-CHARGING HYBRID

More economical than conventional compact SUVs, the enhanced UX 300h Self-Charging Hybrid<sup>1</sup> stands out for its exceptional smoothness and near-silent driving. The UX 300h exhibits the unique Lexus Driving Signature that owes much to months of testing with the same Lexus 'Takumi' master driver who put the awe-inspiring LC coupé through its paces.

The result is an athleticism you do not expect of a compact SUV. And, of course, a celebration for the senses each time you take to the wheel.

<sup>1</sup> Self-Charging Hybrid<sup>1</sup> combines a petrol engine and one or more electric motors. Please read pages 18-19 for more information.

# ROOM WITH A VIEW

## LUXURY INSIDE THE UX 300h COMES IN MANY FORMS

Luxury inside the UX starts with the sense of space. Inspired by the traditional Japanese veranda, which blurs the boundary between inside and out, Lexus designers have created a seamless connection between the cabin and exterior. Evoking a feeling of roominess beyond the car's dimensions, the instrument panel appears to flow beyond the windscreen, giving the driver a reassuring feel for the UX's extremities.

### TAKUMI CRAFTSMANSHIP STEEPED IN JAPANESE CULTURE

Luxury extends to craftsmanship you can feel. In the reassuring sound of the door closing, perfected by acoustic engineers over endless hours. In the uncluttered cockpit, in a distinctly premium Ammonite Sand tone, that complements a mood of relaxed control. In the 'washi' texture of the instrument panel, recalling the paper sliding doors of traditional Japanese houses, the animal grain dash on the F SPORT<sup>1</sup> and the hand-stitched leather steering wheel<sup>1</sup>. And in the unique seat stitching which draws on centuries-old 'sashiko' quilting favoured in martial arts uniforms for its protective strength.

The work of our famed 'Takumi' artisans, each with an eye for build quality honed over more than 15 years, this is luxury with a personal feel, as if hand-crafted for you alone.

### DRIVER AND PASSENGER COMFORTS

Finally, there's the level of appointment, exemplified by the 13-speaker Mark Levinson<sup>®1</sup> Surround sound system, with controls built into the palm rest on the centre console. And by intelligent S-Flow climate control, which discharges minute nanoe<sup>TM1</sup> X particles, helping inhibit viruses and bacteria on the one hand, reducing odours other, and at the same time moisturising your hair and skin.

# REIMAGINING TECHNOLOGY

## CLASS-LEADING SAFETY AND CONNECTIVITY MAKE FOR SAFE, STRESS-FREE DRIVING

Whether in the bustling city or on the open road, the UX ensures an exceptionally relaxing drive. The latest-generation Lexus Safety System+ provides new levels of driver support, constantly monitoring the road ahead, alerting you of danger and taking action where required. Even when you reach your destination, other road users are cared for. When opening a door, Safe Exit Assist<sup>1</sup> warns you and your passengers about traffic approaching from behind.

### THE ENHANCED PRE-COLLISION SYSTEM DETECTS MORE THAN EVER BEFORE

Superb results in Euro NCAP safety ratings for 'vulnerable road user protection' are a tribute to the acclaimed Lexus Safety System+ (standard on every UX) and its Pre-Collision System which can even detect pedestrians and cyclists - night or day - as well as cars at intersections. Another key active safety feature is Rear Cross Traffic Alert<sup>1</sup>, which helps you reverse safely. Detecting obstacles around the car, and vehicles approaching from behind, it alerts you and even applies brake pressure if required. For added comfort in the city, Panoramic View Monitor<sup>1</sup> provides on-screen guides to help with manoeuvring in tight spots, showing the car as if seen from above.

### LEXUS PREMIUM NAVIGATION<sup>1</sup> AND LEXUS LINK

Take the stress out of exploring new cities with the faster, easier-to-use Lexus Link multimedia system. Featuring cloud navigation for constant updating, it also allows you to display your favourite smartphone apps on the extra-large 12.3" HD touchscreen<sup>1</sup>. Meanwhile, a super-sharp 12.3" digital instrument panel<sup>1</sup> and wide Head-Up Display<sup>1</sup> that projects information on your windscreen, add to the sense of spaciousness and control. On top of this, the latest Lexus Link connected services app makes life with the UX even more enjoyable. And the latest Lexus Link connected services app helps plan your journey.

This is 'Omotenashi', a Japanese philosophy centred around anticipating a guest's needs even before they do. The imaginative technology you find throughout the UX 300h is rooted in it.

Screens shown in this brochure are based upon the latest available information at the time of printing.

FEEL PIONEERING

# LEXUS ELECTRIFIED

In the 1990s, thirsty engines were the unchallenged norm for luxury cars. As the millennium turned, the world was waking up to global warming and the need to reduce emissions through electrification. A new drivetrain solution was required. And the first luxury carmaker to step up to the mark was Lexus.

With all key hybrid components developed and manufactured in-house, our electrified hybrids have proved themselves to be uniquely refined, exhilarating to drive and exceptionally strong.

Two decades on, with each electrified car we launch our dream at Lexus of zero-emission luxury travel edges ever closer to reality.

FEEL PROGRESSIVE

## A PIONEER AND LEADER IN LUXURY CAR ELECTRIFICATION

Since the launch of our first luxury sedan over 30 years ago, Lexus has become a synonym for exceptional design, quality and refinement. Perhaps most importantly, we're also a pioneer and leader in luxury car electrification. A company that never stops innovating and working to anticipate drivers' needs. It's this unique approach that resulted in the world's first luxury hybrid in 2005 - the RX 400h SUV.

## SELF-CHARGING HYBRID, PLUG-IN HYBRID OR ALL-ELECTRIC

Today, Lexus offers Self-Charging Hybrid<sup>1</sup>, Plug-in Hybrid, All-Electric models and the majority of premium hybrids on the road bear the Lexus badge. No other luxury carmaker can rival our experience in developing, building, servicing and recycling hybrids. Our Self-Charging Hybrids<sup>1</sup> do not require plugging in and are capable to drive some distance using no petrol when in Electric Vehicle (EV) mode.

Spearheading our new 'Lexus Electrified' vision, we introduced the first all-electric Lexus, the UX 300e. Marking the next chapter of electrification, the first Lexus Plug-in Hybrid, the NX 450h+, has extended our electrified line-up even further, along with the along with the RZ 450e, built on a dedicated electric vehicle platform.

## THE FUTURE IS 'LEXUS ELECTRIFIED'

Despite the tremendous success of our Lexus Self-Charging Hybrid<sup>1</sup> range, resting on our laurels is not an option. Which is why we developed the LF-30 'electrified' concept. Created to take electrified driving enjoyment to the next level, it takes an integrated approach to electrified powertrains, advanced posture control and electrification technologies. The LF-30's bold exterior and driver-centric cockpit embody everything that 'Lexus Electrified' stands for, whether it be in All-Electric, Plug-in Hybrid or Self-Charging Hybrid<sup>1</sup> form. Benefitting from over two decades of electrification experience, with its four in-wheel electric motors, steering-by-wire and Lexus Advanced Posture Control, it delivers a driving experience like no other.

<sup>1</sup> Self-Charging Hybrid<sup>1</sup> combines a petrol engine and one or more electric motors. Please read pages 18-19 for more information.

### ALL-ELECTRIC AT LOWER SPEEDS

When you start off and at lower speeds, the powerful front electric motor (and rear electric motor on All-Wheel Drive models) propels the UX 300h, with electric power supplied by a new lithium-ion battery. At this point you are enjoying near-silent 100% electric driving for a short distance.

### NEAR SILENT AT CRUISING SPEEDS

Lexus Self-Charging Hybrids are smooth and relaxing to drive. At higher speeds, the ultra-smooth petrol engine cuts in quietly and receives assistance from the electric motor(s) when required. With the engine running at optimal speed, surplus power can be used to charge the battery. Alongside low emissions and fuel consumption, this near perfect distribution of petrol and electric power also provides the extraordinary driving enjoyment which characterises the UX 300h.

## PIONEERED BY LEXUS

#### WHAT IS A LEXUS SELF-CHARGING HYBRID?

Combining the power of an ultra-smooth petrol engine with one or more advanced electric motors, Lexus Self-Charging Hybrids have always set the benchmark for electrification of luxury cars. For your convenience, Lexus hybrids charge themselves while you drive, slow down or brake, recovering excess energy from the petrol engine. This way, you can regularly drive in electric mode for some distances at lower speeds. You also never have to stop to charge, as the petrol engine always keeps the battery topped up and ready to go. Sit back and enjoy an amazing blend of power and control, content in the knowledge that your Lexus is more efficient and is producing considerably fewer emissions than any conventional engine.

#### WHY IS ELECTRIFICATION IMPORTANT?

In order to curb greenhouse gases, we believe that effective vehicle electrification is essential. Since the launch of the RX 400h, the world's first electrified<sup>1</sup> luxury car, Lexus has taken the initiative in developing and promoting the widespread use of Self-Charging Hybrids.

#### WHAT IS IT LIKE TO OWN A LEXUS HYBRID?

We work hard to ensure your Lexus Self-Charging Hybrid is a joy to drive and own. With over 500,000 Lexus hybrids on European roads today, all are built in a dedicated ultra-modern production plant in Japan to the exacting quality standards that consistently net Lexus hybrids reliability awards across the globe. Aside from the striking smoothness and refinement, you'll appreciate the substantially lower running costs - not just fuel, but reduced expenditure on brakes, tyres and other components, thanks to the regenerative braking and advanced power control systems.

### RAPID LINEAR ACCELERATION

Lexus Self-Charging Hybrids are fun to drive. When you accelerate hard, the power of the electric motor(s) instantaneously supplements the UX 300h's 2.0-litre petrol engine. Together they deliver a potent surge of torque, providing rapid linear acceleration precisely when you need it.

### REGENERATIVE BRAKING, NO PLUGGING IN

When decelerating, coasting, or when you come to rest, the petrol engine often turns off silently. On braking, or when you take your foot off the accelerator, regenerative braking harnesses your car's kinetic energy (this is wasted in conventional cars). The UX 300h converts this into electrical energy for storage in the hybrid battery, together with power generated whilst driving at higher speeds, which means it never needs plugging in.

<sup>1</sup> 'Electrified' refers to a range of powertrains, some of which still use petrol next to electricity. Please read page 16-17 for more information.

Images are for illustration purposes only.

MODEL

## THE UX 300h

The UX 300h's new Lexus Self-Charging Hybrid<sup>1</sup> technology combines a super-efficient 2.0-litre petrol engine with high-output electric motor(s) increasing system power to 199 DIN hp. The UX 300h boasts excellent fuel economy and EV driving for some distances at lower speeds, yet with no range issues as the petrol engine takes over when required. Acceleration is now even faster and smoother, thanks to a newly developed lithium-ion battery which is lighter yet more powerful.

### NEW HYBRID TRANSAXLE

This new hybrid transmission connects the petrol engine to an electric motor/generator and boasts over 25% less internal friction than previous Lexus systems, achieving excellent fuel consumption, quietness and driving performance. The Sequential Shiftmatic delivers responsive engine braking force in six steps with a shift feel similar to a manual transmission. The weight of the transaxle case has been reduced by 20%.

### NEW LITHIUM-ION BATTERY

A newly developed lithium-ion battery cell features a more compact and lightweight design, yet 15% higher output compared to the previous nickel-metal hydride battery. Excellent acceleration performance and fuel economy is the result. Its location below the UX 300h's rear seat allows flexible space, while also contributing to the vehicle's low centre of gravity.

### ENHANCED E-FOUR PERFORMANCE<sup>2</sup>

The improved E-FOUR system with 30 kW electric rear motor improves roadholding and performance in tough conditions. For more control, a new shift-by-wire mechanism offers pleasant and quick operation. Inside are many new details too: the shift lever, for example, fitting snugly in your palm, has been crafted to give clear 'click' feedback for ON/OFF operation.

<sup>1</sup> Self-Charging Hybrid<sup>1</sup> combines a petrol engine and one or more electric motors. Please read pages 18-19 for more information.

GRADES

URBAN

- 17" alloy wheels, silver, 5-wide-spoke design, 215/60 R17 tyres
- Headlights, single LED with Automatic High Beam (AHB)
- Lexus Link Connect - 8" touchscreen display
- Lexus Link Cloud-based Navigation<sup>1</sup>
- Drive Mode Select, Eco / Normal / Sport
- 7" digital speedometer
- Fabric upholstery
- Dashboard, 'washi' Japanese paper
- Electronic climate control with nanoe™ X technology
- Rear-view mirror, electro chromatic (auto-dimming)

**Accessories:**

- Essential Protection Pack
- Protection+ Pack
- Design Pack - Black/Chrome
- Rear Parking Sensors
- Style Pack
- 18" Alloy Wheels
- Illuminated Scuff Plates

GRADES

PREMIUM (in addition to URBAN)

- 17" alloy wheels, black, 5-wide-spoke design, 215/60 R17 tyres
- Front fog lights, LED
- Silver roof rails
- Body-coloured roof drip moulding
- Rain sensing windscreen wipers
- Intelligent parking assist sensors, front and rear
- Heated steering wheel
- Heated front seats

**Accessories:**

- Essential Protection Pack
- Protection+ Pack
- Design Pack - Black/Chrome
- Rear Parking Sensors
- Style Pack
- 18" Alloy Wheels
- Illuminated Scuff Plates

F SPORT Design (in addition to PREMIUM)

- 18" alloy wheels, F SPORT, 225/50 RF18 tyres
- F-mesh signature grille with Jet Black bumper and grille garnish
- F SPORT front and rear bumpers
- Cornering lights, LED
- F SPORT Design badge, front wings
- Privacy glass
- Blind Spot Monitor with Rear Cross Traffic Alert
- Tahara trim
- Wireless charger

**Accessories:**

- Essential Protection Pack
- Protection+ Pack
- Design Pack - Black/Chrome
- Style Pack
- 18" Alloy Wheels
- Illuminated Scuff Plates

PREMIUM PLUS (in addition to PREMIUM)

- 18" alloy wheels, machined, 5-wide-spoke design, 225/50 R18 tyres
- Lexus Link Pro - 12.3" touchscreen display
- Puddle lights
- Leather upholstery
- Illuminated front centre console
- Smart entry
- 12.3" digital speedometer
- 8-way electrically adjustable front seats with 2-way power lumbar support for driver

**Accessories:**

- Essential Protection Pack
- Protection+ Pack
- Design Pack - Black/Chrome
- Rear Parking Sensors
- Style Pack
- 18" Alloy Wheels
- Illuminated Scuff Plates

<sup>1</sup> Lexus Link Connect is included for the first 4 years of ownership, and renewable thereafter on a subscription basis.

**TAKUMI (in addition to PREMIUM PLUS)**

- 18" alloy wheels, machined finish, 5-wide spoke design,
- 225/50 RF18 tyres
- Body-coloured moulding, wheel arches
- Headlights, triple LED with Adaptive High-beam System (AHS)
- Head-Up Display (HUD)
- 13-speaker Mark Levinson® Premium Surround Sound System
- Sunroof
- Ventilated front seats
- 360° panoramic view monitor
- Tailgate electric lift and close with hands-free opening function

**Options:**

- AWD

**Accessories:**

- Essential Protection Pack
- Protection+ Pack
- Design Pack - Black/Chrome
- Style Pack
- 18" Alloy Wheels
- Illuminated Scuff Plates

**F SPORT DESIGN TECH (in addition to F SPORT DESIGN)**

- Lexus Link Pro - 12.3" touchscreen display
- 2.3" digital speedometer
- Tailgate electric lift and close with hands-free opening function
- Electrically adjustable steering wheel

**F SPORT (in addition to PREMIUM)**

- 18" alloy wheels, F SPORT, 225/50 R18 tyres
- Body-coloured moulding, wheel arches
- Adaptive Variable Suspension (AVS)
- Drive Mode Select, Eco / Normal / Custom / Sport S / Sport S+
- Rear performance damper
- F SPORT exclusive digital speedometer, high-definition display
- Active Sound Control (ASC)
- F SPORT smooth leather upholstery
- 8-way electrically adjustable front seats with 2-way power lumbar support for driver
- 3-spoke, perforated leather-trimmed steering wheel

**Options:**

- AWD
- Bi-Tone paint

**Accessories:**

- Essential Protection Pack
- Protection+ Pack
- Design Pack - Black/Chrome
- Style Pack
- 18" Alloy Wheels
- Illuminated Scuff Plates

**F SPORT TAKUMI (in addition to F SPORT)**

- Headlights, triple LED with Adaptive High-beam System (AHS)
- Head-Up Display (HUD)
- 13-speaker Mark Levinson® Premium Surround Sound System
- Sunroof
- Ventilated front seats
- 360° panoramic view monitor

**Options:**

- AWD
- Bi-Tone paint

**01. 17" AERO VENTILATING WHEELS<sup>1</sup>**

Finished in black or metallic silver, these aero ventilating wheels feature flaps on each side of the spokes and are a world first for Lexus. The flap shape is based on the 'Gurney Flap', which is installed on the rear wing of Formula 1 race cars to regulate the airflow and create vortices that increase downforce. This innovative wheel design enables more confident driving by providing stable braking performance, increasing cooling efficiency, and reducing turbulence along the sides of the car.

**02. 18" ALLOY WHEELS<sup>1</sup>**

These two-tone wheels combine a machined finish with a black metallic coating to give a sporty and luxurious look.

**03. CORNERING LIGHTS<sup>1</sup>**

The UX's LED cornering lights provide extra illumination in the area close to the car when turning left or right.

**04. BI-LED HEADLIGHTS<sup>1</sup>**

Featuring a single-projector bi-beam LED unit and L-shaped Daytime Running Lights, these headlights create a resolute expression.

**05. TRIPLE LED HEADLIGHTS<sup>1</sup>**

These headlights feature compact triple-projector LED units and L-shaped Daytime Running Lights that display a Lexus signature arrowhead. Additionally, multi-weather lights help maintain a safe field of view in foggy driving conditions.

**06. DAYTIME RUNNING LIGHTS**

Arrowhead-shaped Daytime Running Lights are installed above the headlights. They display the Lexus L-shaped signature motif that creates a sense of continuation with the vehicle's exterior, while vertical illumination lines lend an impression of depth, creating a unique illumination design.

**07. AERO STABILISING REAR LIGHT**

The rear combination light on the UX 300h has an advanced design that is not only eye-catching but also aerodynamically efficient. Fins are integrated into the light to reduce air pressure changes by about 16%, contributing to excellent rear stability during cornering as well as in side winds. For a distinctive look, a continuous single line of light is formed by 120 LEDs, tapering gently towards the centre and measuring just 3 mm at the narrowest point.

**08. SUNROOF & ROOF RAILS<sup>1</sup>**

An electric, tilt and slide, glass sunroof adds a feeling of freedom, spaciousness and light to the UX cabin. Roof rails made from solid aluminium create an appealing shape that runs smoothly and seamlessly along the UX roofline.

<sup>1</sup> Available on selected grades.

01

02

03

04

05

06

07

### 01. DRIVER-FOCUSED COCKPIT

To create a sense of seamless continuity, for the UX 300h our designers sought to eliminate the traditional boundary between the exterior and interior. The effect gives the driver an excellent field of vision with a clear sense of the car's dimensions. The UX also features a 'seat-in-control' concept that focuses major controls around the driver's side of the cabin and now offers increased space for your mobile phone.

### 02. S-FLOW CLIMATE CONTROL / CLIMATE CONCIERGE<sup>1</sup>

S-Flow climate control intelligently manages the interior climate in your UX according to ambient conditions, ensuring excellent comfort and fuel economy. It can, for example, detect if seats are occupied, and regulate the climate accordingly. Climate Concierge also discharges minute nanoE™ X particles, helping inhibit viruses and bacteria on one hand, reducing odours on the other and at the same time moisturising your hair and skin.

### 03. HEATED AND VENTILATED SEATS<sup>1</sup>

Front seat heaters are available on the UX. On hot days, taking cold air directly from the air conditioner, the unit helps cool the occupants quickly.

### 04. STEERING WHEEL

Offering an amazing level of luxury for this class of vehicle, the 3-spoke steering wheel on the UX was adopted from the LS flagship sedan. For extra driving comfort, the grip profile was crafted and perfected by recording the pressure on the palms of our 'Takumi' master driver. Wrapped in genuine leather, it is available with heating for colder mornings, while integrated switches control audio, telephone, multi-information display, Dynamic Radar Cruise Control and Lane Tracing Assist.

### 05. TAKUMI CRAFTSMANSHIP/ NEW LEATHER-FREE OPTION<sup>1</sup>

The leather upholstery available on the UX is inspired by 'sashiko', a traditional Japanese quilting technique used in the making of martial arts uniforms. The quilted leather is decorated with perforation patterns that form mathematical curves and gradations in perfect alignment, enhancing the appearance of the seats. A leather-free interior is now available with a perforated Tahara option in White Ash, Black and Hazel<sup>1</sup>.

### 06. FRONT SEAT ADJUSTMENT / LUMBAR SUPPORT<sup>1</sup>

With up to eight seat adjustments, UX 300h allows an ergonomic driving position that helps reduce fatigue. For superb comfort on long journeys, lumbar support adjustment is available on selected grades.

### 07. 'WASHI' INTERIOR TRIM

While the instrument panel is always black, the UX 300h is the first Lexus model to offer cabin trim inspired by the grain of a paper, known as 'washi', which is used in traditional Japanese sliding doors. The F SPORT trim uses an attractive animal skin texture.

<sup>1</sup> Available on selected grades.

Click right for more

**01. ADVANCED AERODYNAMICS**

The UX boasts excellent aerodynamics including a near-flush underbody, which not only contributes to good fuel economy, but also reduces wind noise and turbulence. Other aerodynamic breakthroughs include a one-piece rear light with integrated fins to keep the rear of the car stable when turning and driving in crosswinds. Additionally, the UX wheel arch mouldings have flat sides and a stepped top section which generates airflow to reduce roll and keep the car stable when cornering, changing lanes or being driven in a straight line.

**02. ENHANCED HIGH-RIGIDITY PLATFORM**

The UX features a platform which is the foundation for the car's excellent dynamic performance. Its development focused on giving the UX nimble and instant response to the driver's inputs, while communicating a sense of stability and safety. The platform allows for an increase in rigidity, including a high-tensile and ring structure around the rear door and tailgate openings. Highly rigid adhesives and laser screw welding have been used in key locations, greatly enhancing overall stiffness.

**03. LOW CENTRE OF GRAVITY**

Thanks to the platform, the UX 300h has the lowest centre of gravity of any vehicle in its class. This characteristic, central to the car's dynamic performance, is complemented by weight-saving measures in the body construction, including lightweight aluminium for the side doors, wings and bonnet, as well as a resin material for the tailgate.

**04. SUSPENSION**

MacPherson strut front suspension and a double wishbone arrangement at the rear have been improved to promote ride comfort and sharp response. Special attention has been paid to shock absorber performance and the quality of the damper oil, oil seals and friction control.

**05. ELECTRIC POWER STEERING**

An Electric Power Steering system with a more compact and rigid column assist has been adopted for the UX 300h, with a larger diameter column shaft. This supports handling with crisp, immediate response to driver inputs, and enhanced steering feel.

**06. DRIVE MODE SELECT**

The Drive Mode Select switch has been placed beside the meter hood bezel so that it can be operated without requiring a significant deviation from your line of sight or change in your driving position. Eco, Normal and Sport modes are standard on all models, with the UX 300h F SPORT model offering five modes: Eco, Normal, Custom, Sport S and Sport S+.

01

02

03

04

05

**01. LEXUS PREMIUM SOUND SYSTEM<sup>1</sup>**

The UX is available with either a 6- or 10-speaker Lexus Premium Sound System. Creating the sensation of a live stage right in front of the listener, sound is efficiently delivered both directly from the speakers and reflected off the glass. To provide clear and vibrant vocal reproduction with minimal distortion, the speaker diaphragms are made from a resin containing bamboo charcoal and opal plant fibres, which enhances their recyclability.

**02. MARK LEVINSON<sup>®</sup> AUDIO<sup>1</sup>**

Delivering 915 watts of power, the UX's 13-speaker Mark Levinson<sup>®</sup> Premium Surround Sound system produces world-class sound. The ideal design was pursued for every electrical component in the system to deliver a total harmonic distortion (THD, an indicator of signal distortion) of 0.1% or less. The system includes a 150 W / 4 Ω x 12-channel (8 channels used) Class D amplifier. This unit's ample power allows it to drive large speakers accurately, creating clear, powerful sound. Based on an optimal layout, QLS (Quantum Logic Surround) uses acoustic processing technology to enable the system to faithfully reproduce the sound in complete accordance with the composer's intentions.

**03. NEW 12.3" DIGITAL INSTRUMENTS<sup>1</sup>**

The UX's driver-centric cockpit is enhanced further with a new, 12.3" fully digital instrument display. The layout and prominence of the meters and information change according to the drive mode selected and can also be customised.

**04. HEAD-UP DISPLAY<sup>1</sup>**

Vehicle data is projected in colour directly onto the windscreen. The Head-Up Display, measuring 260 mm x 97.5 mm, lets you check data such as navigation commands, audio settings or safety features, without taking your eyes off the road ahead.

**05. EMERGENCY RESPONSE SYSTEM - eCALL**

For your safety, eCall provides both manual and automatic emergency call functionality. Following a collision with airbag deployment, emergency services are automatically contacted and receive the vehicle's exact location and identification. You can also reach emergency services by pressing the emergency call button at any time.

Screens shown in this brochure are based upon the latest available information at the time of printing.

<sup>1</sup> Available on selected grades.

**01. LEXUS LINK MULTIMEDIA**

Faster and easier to use, with improved resolution on both the 8" (Lexus Link Connect with cloud navigation) and large 12.3" touchscreens<sup>1</sup> (Lexus Link Pro with embedded navigation), Lexus Link Multimedia uses cloud navigation to regularly update your maps and traffic data. With many mapping options like 'Point Of Interest search', the latest maps can be updated using 'Over-The-Air' technology. To enhance your navigation experience, online services such as online traffic, parking search, petrol station search, weather forecast, and Google Search are available.

**02. EXTRA LARGE 12.3" TOUCHSCREEN<sup>1</sup>**

Perfectly positioned for seamless interaction while you drive, this 12.3" High Definition touchscreen is one of the largest available in this category of car and allows you to access information like navigation, audio and climate control.

**03. LEXUS LINK+ - CONNECTED SERVICES<sup>2</sup>**

Welcome to the app, a world of connectivity created to complement our unique 'Omotenashi' service experience. Its smart and bespoke features help you schedule a service or even improve your driving style. Transform your time with the UX, using services like:

- Driving Analytics: Tracks your journeys, driving style and lets you record business trips
- Hybrid Coaching: Helps you drive your UX 300h more efficiently
- Find my Car: Locates and guides you back to your Lexus
- Service and Maintenance: Lets you manage the service and maintenance of your UX
- Warning Lights: Explains the meaning of each warning light and any action you should take
- Car Status: Notifies you if you've left the car windows open. You can also check if your car is locked

**04. LEXUS LINK SMART SERVICES**

The Lexus Link Smart Services pack is free for the first 4 years of ownership, and thereafter on a subscription basis. It includes pioneering features such as:

- Cloud-based navigation & Voice Assistant
- Road Events & Real-time Traffic information
- On- and off-street parking availability
- Remote Control: Remotely defrost your windscreen or lock and unlock your UX, from the comfort of your home

**05. SMARTPHONE INTEGRATION**

With wireless Apple CarPlay and wireless Android Auto™, the UX allows you to easily display and access some of your smartphone's apps on the screen.

**06. WIRELESS CHARGER<sup>1</sup>**

A larger wireless charger to the front of the centre console enables a portable device or smartphone to be charged by simply placing it on the charging pad, eliminating the need to connect a charging cable.

Apple CarPlay is a trademark of Apple Inc. Screens shown in this brochure are based upon the latest available information at the time of printing.

<sup>1</sup> Available on selected grades. <sup>2</sup> Depending on where you live, certain features may not be available. Please consult your local Lexus retailer for help and information.

**01. THE LATEST GENERATION LEXUS SAFETY SYSTEM +**

The UX 300h benefits from the advanced active safety and driver assistance systems featured in the latest generation of Lexus Safety System +, with upgraded and additional functions offering increased accident risk detection. These include a Driver Monitor to check drivers for signs of fatigue or distraction and Proactive Driving Assist with steering assist, which uses the front camera to determine the angle of a bend, adjusting the steering force when approaching a turn.

**02. PRE-COLLISION SYSTEM**

Alongside detecting motorcycles during daytime, the enhanced Lexus Pre-Collision System allows more potential collisions to be avoided, such as at left/right turns, and cut-in traffic. It can also recognise collision risks with oncoming traffic or crossing pedestrians when making a turn at a junction. The ability to avoid impacts is increased by Emergency Steering Assist.

**03. DYNAMIC RADAR CRUISE CONTROL**

This system uses a millimetre-wave radar sensor and camera to detect the vehicle in front and maintain an appropriate distance. If the vehicle in front comes to a halt, the UX 300h will stop too. When the vehicle moves off again, you will too. It quickly recognises traffic cutting in front and, in conjunction with Lane Tracing Assist, follows a more natural line through bends.

**04. EMERGENCY STEERING ASSIST**

Should you try to avoid a pedestrian close to or in your driving path when a collision is imminent, Emergency Steering Assist will support your steering movements to enhance the car's stability and prevent accidental lane departure.

**05. LANE TRACING ASSIST**

Advanced Lane Tracing Assist helps keep the UX 300h in the centre of the lane, uses 'natural lane trace' functionality and also provides assistance when driving around bends.

**06. PROACTIVE DRIVING ASSIST WITH ACTIVE STEERING ASSIST**

Equipped with our latest Obstacle Anticipation Assist system, the UX 300h's pioneering new Proactive Driving Assist with Active Driving Assist technology monitors road users and objects ahead, and proactively controls brakes and steering to keep a safe distance from them. Additionally, Deceleration Assist helps you when releasing the accelerator before a bend or preceding vehicle, allowing for smoother and safer deceleration. The system also detects curves ahead and adjusts the steering assist force to facilitate safe and precise steering.

**07. ROAD SIGN ASSIST**

Road Sign Assist (RSA) recognises traffic signs and provides information to the driver via the multi-information display. When linked to Dynamic Radar Cruise Control, the car's speed can be adjusted according to the speed limit recognised by RSA.

**08. AUTOMATIC HIGH BEAM<sup>1</sup>**

Automatic High Beam (AHB) detects oncoming vehicles at night and automatically dips the high beam headlights, reducing the danger of accidentally dazzling other drivers and allowing you concentrate on the road ahead.

**09. ADAPTIVE HIGH-BEAM SYSTEM<sup>1</sup>**

The optional Adaptive High-beam System (AHS) helps prevent the UX 300h from dazzling other road users. AHS uses a camera sensor on top of the windscreen to detect light from vehicles in front and automatically optimises the headlamp light distribution so as not to directly illuminate preceding or oncoming vehicles. Eleven independent LED chips in the headlights are enabled/disabled for precise control of the illuminated and non-illuminated areas.

Under no circumstances should Lexus Safety System + be used to replace your driving skills at the wheel. Please read the instructions very carefully before operating the system and remember the driver is always responsible for safety. Details of specifications and equipment are subject to change to suit local conditions and requirements. Please enquire at your local Lexus Authorised Retailer.

<sup>1</sup> Available on selected grades.

**01. AIRBAGS**

Extending its safety performance even further, the UX has a comprehensive shield of 8 airbags as standard. These include driver and front passenger airbags and knee airbags, front side airbags and curtain airbags covering all side windows.

**02. REAR CROSS TRAFFIC ALERT AND BRAKING<sup>1</sup>**

The Rear Cross Traffic Alert function operates when the car is reversing. It detects obstacles around the car, and vehicles approaching the area behind the car. When necessary, the system alerts you with a buzzer and a visual display in the centre display and relevant door mirrors. If required, it can apply Drive Force Control and Brake Control to avoid a collision.

**03. TYRE PRESSURE WARNING SYSTEM**

Receiving data from a sensor installed in each tyre, the multi-information display shows tyre pressure data and warns accordingly should pressure drop in one of them. The system can reduce the risk of a puncture, while helping to improve fuel economy and tyre life.

**04. PARKING SUPPORT ALERT<sup>1</sup>**

Giving great confidence when parking at close quarters, Parking Support Alert warns of an impending collision using clearance sonar, Rear Cross Traffic Alert and a display from the rear camera.

**05. LEXUS PARKING ASSIST / PANORAMIC VIEW MONITOR<sup>1</sup>**

The Lexus Parking Assist monitor<sup>2</sup> helps you reverse into parking spaces. On the central display it shows a video image of the space into which you are reversing, and overlays guidelines to facilitate you steering the car. For easier driving in confined spaces, the Panoramic View Monitor provides a near-360° view around the entire car. It also creates a virtual 3D picture of your UX, with on-screen guides to assist close-quarter manoeuvring in the city.

**06. BLIND SPOT MONITOR<sup>1</sup>**

Radar devices mounted in the rear bumper detect vehicles in adjacent lanes that are not visible in the door mirrors. If the driver is indicating to change lane and a vehicle enters the blind spot, a warning signal appears in the relevant door mirror.

**07. SAFE EXIT ASSIST<sup>1</sup>**

The exclusive Safe Exit Assist gives a warning to prevent occupants (front and rear) from opening their door in the event of traffic such as cars or cyclists approaching from the rear.

Screens shown in this brochure are based upon the latest available information at the time of printing.

<sup>1</sup> Available on selected grades.

<sup>2</sup> People and obstacles that show in the monitor differ from the actual position and distance. Do not rely completely on the monitor and, for safety, make sure you check around the vehicle with your own eyes when driving.

**01. F SPORT GRILLE**

The exclusive F SPORT signature grille and front bumper styling set the UX F SPORT and UX F SPORT Takumi models apart from the rest of the UX range. Finished in jet black, the grille's complex mesh is inspired by that of the LS F SPORT and required months of intensive computer modelling to design.

**02. F SPORT REAR STYLING**

In addition to an exclusive rear bumper, a centre moulding and rear reflector bezel featuring jet black plating underline the distinctive F SPORT and F SPORT Takumi look.

**03. 18" F SPORT ALLOY WHEELS**

Inspired by those on the LC coupé and LS flagship sedan, UX F SPORT and F SPORT Takumi models are fitted with exclusive 18" 5-twin-spoke high-rigidity alloy wheels with a dark metallic coating.

**04. EXTENDED BI-TONE PAINTWORK**

Available for F SPORT and F SPORT Takumi models only, choose between Sonic Copper, Sonic Titanium and Sapphire Blue paintwork with a black roof, black pillars and black roof rails is available as an option.

**05. ADAPTIVE VARIABLE SUSPENSION**

For an even higher level of dynamic performance, F SPORT and F SPORT Takumi features an Adaptive Variable Suspension, similar to that found in the LC coupé. This has adjustable dampers at each wheel with 650 levels of damping force to provide ultimate control on any road surface.

**06. F SPORT SEATS**

Enjoy figure-hugging F SPORT leather seats similar to those on the LC sports coupé, with 8-way adjustment and lumbar support. All stitching on the seats, steering wheel, instrument panel and gearshift is overseen by our 'Takumi' master craftspeople.

**07. F SPORT STEERING WHEEL**

Featuring the F SPORT logo, the UX F SPORT's steering wheel conveys a special kind of connectedness to the driver. Paddle shifters allow swift and precise gear changes without taking your hands off the wheel. Finished in perforated leather, the F SPORT gearshift design matches the steering wheel to create an exciting sports ambiance.

**08. F SPORT SCUFF PLATES & SPORTS PEDALS**

Providing enhanced protection, the durable F SPORT scuff plates are finished with a brushed aluminium look and are inscribed with the Lexus logo. Machined aluminium sports pedals offer excellent grip characteristics and reflect the motorsport design heritage of the UX 300h F SPORT and F SPORT Takumi.

**09. SPORT S+ MODE**

Sport S+ mode on the UX F SPORT and F SPORT Takumi adjusts suspension, steering and throttle response, making for a sportier driving experience.

F SPORT styling is only available for F SPORT grades only.  
Screens shown in this brochure are based upon the latest available information at the time of printing.

<sup>1</sup> Available on selected grades.

**01. STYLE PACK**

- Front, rear and side underruns

**02. 18" ALLOY WHEELS**

**03. ILLUMINATED SCUFF PLATES**

- The illuminated scuff plates guard the paintwork, with extra styling detail to complement your vee.

**04. ESSENTIAL PROTECTION PACK<sup>1</sup>**

- Boot Liner: Tailored to fit the boot of your car and provide protection against dirt and spills, the Boot Liner features a special anti-slip surface pattern to help stop luggage moving.
- Rubber floor mats: Protective black textile car floor mats, shaped for a perfect fit.
- Front & Rear Mudguards

**05. PROTECTION+ PACK<sup>1</sup>**

- Boot Liner: Tailored to fit the boot of your car and provide protection against dirt and spills, the Boot Liner features a special anti-slip surface

pattern to help stop luggage moving.

- Rubber floor mats: Protective black textile car floor mats, shaped for a perfect fit.
- Front & Rear Mudguards: Shaped to fit the wheel arches of your vehicle. They help maintain your car's good looks by protecting against excessive dirt, mud spray and flying stone chips.
- Rear Bumper Protection Film: Providing durable, long-lasting protection against everyday damage to the rear bumper. Highly transparent, protective films, virtually invisible when applied to a vehicle's paintwork.

**06. DESIGN PACK<sup>1</sup>**

- Black/Chrome Side Sills and Boot Trim: Contoured to integrate smoothly with the side of your car and boot, Side Sills create an elegant and powerful appearance.

**07. REAR PARKING SENSORS<sup>1</sup>**

<sup>1</sup> Combined engine and electric motor.  
<sup>2</sup> The fuel consumption and CO<sub>2</sub> values are measured in a controlled environment on a representative production model, in accordance with the requirements of the new WLTP European Regulation EC 2017/1151 and its applicable amendments. For each individual vehicle configuration, the final fuel consumption and CO<sub>2</sub> values may be calculated based on the ordered optional equipment. The fuel consumption and CO<sub>2</sub> values of your vehicle may vary from those measured or calculated values, as driving behaviour as well as other factors (such as road conditions, traffic, vehicle condition, tyre pressure, load, number of passengers, etc.) have an influence on a car's fuel consumption and CO<sub>2</sub> emissions. For more information regarding the new WLTP test method, please visit: [www.lexus.eu/wltp#nedc](http://www.lexus.eu/wltp#nedc)  
<sup>3</sup> Luggage volumes shown are in-house measured values. All figures quoted include the maximum under floor storage area in the luggage compartment. The available storage area may differ with 10-, 13-speaker audio systems or spare tyres equipped.  
<sup>4</sup> Towing package is standard, but not available together with the optional hands-free tailgate opening function. The towing package does not include a tow-bar or other towing equipment as standard.

Specifications shown in this brochure are based upon the latest available information at the time of printing. Further technical data, including any updates, can be found at [www.lexus.eu](http://www.lexus.eu).

TECHNICAL DATA

<sup>1</sup> Figure quoted is for UX 300h models specified with 18" alloy wheels. When specified with 17" alloy wheels, both the front and rear track figures are 1560.  
<sup>2</sup> Figure quoted is for UX 300h models equipped with optional sunroof. Figure for F SPORT is 889. For models with standard roof, the figure is 947 or 929 on F SPORT.  
<sup>3</sup> Figure quoted is for UX 300h models equipped with optional sunroof. Equivalent figure with standard roof is 923.  
<sup>4</sup> Figure quoted is for UX 300h models equipped with 8- or 13-speaker audio systems. When specified with 6-speaker audio system, the figure is 1328.

Please note: the dimensions illustrated above are measured in millimetres.

# BE OUR GUEST

## HOW WE TREAT OUR CUSTOMERS IS GUIDED BY AN ANCIENT JAPANESE PHILOSOPHY OF HOSPITALITY.

Translated from the Japanese as 'hospitality and polite service', Omotenashi is about much more than excellence of service; it is an ancient concept centred around anticipating the needs of another, even before they arise. Omotenashi influences how we design and engineer our cars at Lexus, and equally how we treat you, the Lexus owner. Not just at the point of sale but over the life of your car. We want you to feel valued in every interaction you have with us. To feel more than a customer. Whether as a private or fleet driver, you'll experience Omotenashi each time you visit our showrooms. In the warm reception on hand from friendly staff intent on welcoming you. In the inviting atmosphere and impressive facilities of the lounge, where you can enjoy refreshments, catch up on news, enjoy high-speed Internet or carry on with your work. And in the knowledge that our Lexus technicians are working with precision and efficiency to get you back on the road with minimum interruption to your day.

### ADDITIONAL BENEFITS

#### 3 YEARS' FREE LEXUS ROADSIDE ASSISTANCE

Whatever the situation, when you're driving your Lexus, we're just one call away with expert support at the roadside 24 hours a day, everyday of the year. Free for three years from initial purchase of a new vehicle, 24 hours a day, 365 days a year assistance anywhere in the UK.

#### Home Start

One in four breakdowns happen at the home address. Home Start allows you to enjoy all the benefits of Lexus Roadside Assistance from your home address.

#### Personal Assistance

Lexus Roadside Assistance is designed to look after you - not just your vehicle. So even if you are a passenger in someone else's car you can still receive Lexus Roadside Assistance.

#### Roadside Assistance

Replacement vehicle

A replacement vehicle will be provided free of charge (excluding petrol and other consumables) for up to three days, provided we have taken your vehicle to a Lexus Centre for repairs following a breakdown.

#### Hotel accommodation

If a replacement vehicle is unavailable, we will arrange a hotel for you and your family for up to £150 per person to a maximum of £500, for one night

#### Onward travel

If a replacement vehicle is unavailable and you would like to make your own travel arrangements following a breakdown, we will reimburse the cost of this up to £150 per person, to a maximum of £500.

#### European travel

If you travel across Europe your Roadside Assistance will travel with you, whether you are driving your Lexus or another car.

#### Medical assistance

If the driver of the car is certified ill, we will take you and your passengers to any single destination in the UK.

#### Lost or broken keys

If you lose or break your keys, Lexus Roadside Assistance will arrange for recovery of your vehicle to a local Lexus Centre. You will be responsible, however, for the cost of replacement keys.

### WARRANTIES

#### THREE-YEAR COMPREHENSIVE WARRANTY

Any defect that is attributable to a manufacturing or an assembly defect under normal use is covered by your warranty. This provision applies for a period of three years or 60,000 miles, whichever comes first, with no mileage limit for the first year. In the event of a breakdown immobilising your Lexus, the cost of recovering it to the nearest Lexus Centre is also covered if that breakdown is the result of a warrantable defect.

#### GET UP TO 10 YEARS/100,000 MILES LEXUS WARRANTY<sup>1</sup>

Every new Lexus comes with a 3-year manufacturer's warranty followed by a 12 months / 10,000 miles additional warranty, with every qualifying service.

#### THREE-YEAR SURFACE RUST AND PAINTWORK WARRANTY

The warranty offers three years of cover for surface rust and paint defects appearing on any of the painted body panels due to a fault in material or workmanship. There is no mileage restriction on this.

#### 12-YEAR CORROSION PERFORMANCE WARRANTY

A 12-year unlimited mileage warranty covers the vehicle against rust perforation through any sheet metal body panel (subject to certain exclusions specified in the warranty booklet) occurring as a result of a manufacturing or assembly defect in the vehicle. The warranty booklet supplied with each new vehicle gives full details. This warranty is also transferable to subsequent owners.

#### EV WARRANTY

The warranty covers any defect that is attributable to a manufacturing or assembly fault under normal use for a period of 5 years or 60,000 miles, whichever comes first, with no mileage limitation for the first year for the following EV main system components:

#### The EV Motor

The EV system inverter and converter Full EV Battery degradation below 70% of initial capacity will be covered for a period of 8 years or 100,000 miles, whichever comes first, with no mileage limitation for the first year.

#### SERVICE PLANS

Service plans are a flexible way of managing the cost of servicing your Lexus. With a service plan you can ensure that your vehicle is maintained to the standards you would expect from Lexus-trained technicians fitting the highest quality Lexus parts<sup>2</sup>. The Approved Pre-Owned service package can be tailored to your needs. Please contact your local Lexus Centre for a quote.

<sup>1</sup> Terms and conditions apply. For full details, please ask your official Lexus Centre, or visit [www.lexus.co.uk/owners/warranty/lexus-warranty](http://www.lexus.co.uk/owners/warranty/lexus-warranty) <sup>2</sup> The service plans exclude cambelt/timing chain changes.

## DISCOVER MORE ONLINE

Find out more about the UX online. Take time to explore which equipment grade best suits your lifestyle and learn about our world-class service and finance offerings. If you're interested in how the UX feels to drive, you can book a test drive with your local Lexus Retailer.
