INTRODUCTION

Whether you're looking for something small, sporty, or spacious Nissan's Motability range offers you plenty of options.

In this brochure you'll discover the prices for a wide choice of reliable, well-equipped, surprisingly affordable vehicles – with a range of models available through Nissan's Motability Programme.

The price tables will help you decide which vehicles suit your finances. Simply select the model and transmission type that takes your interest and move along the table to the right. From here, you'll be able to see if an advance payment is required as well as how much of your DLA, PIP, AFIP, WPMS Allowance your choice of car will use each month.

Whatever your lifestyle and budget, let us help you get behind the wheel of a brand new Nissan.

For more information, please get in touch with your Nissan Motability Specialist at a local Nissan Dealership: www.nissan.co.uk/dealer-locator

Good Condition Bonus

If you return your car in good condition, you could be eligible to receive the Good Condition Bonus from Motability Operations. The amount you receive depends on the length of the agreement: it's currently £600 for a three-year lease and £900 for a five-year lease.

To check the eligibility criteria for the Good Condition Bonus or for any further information on this topic, please refer to the Motability website [here](#)

NISSAN JUKE

The Nissan Juke redefines compact crossovers, its dynamic design and sporty styling make a powerful statement wherever it goes. The Juke is packed with Intelligent driving technologies designed to help you move through life with more confidence, more excitement and more connection with the world around you.

Key Features available from N-Connecta Grade:

- Intelligent Lane Intervention
- 8" Touchscreen Entertainment System with Navigation and Apple CarPlay® & Android Auto®*
- Front/Rear Parking Sensors and Rear View Camera

*Apple CarPlay® is a registered trademark of Apple Inc. Android is a trademark of Google LLC. HOW FAR CAN I GO

GO THE DISTANCE WITH NISSAN LEAF

LEAF

UP TO

168 MILES¹

FOR CITY DRIVING

NISSAN LEAF - AT HOME IN THE CITY

With up to 150PS² of 100% electric power, plus e-Pedal and ProPILOT³ technologies

Nissan LEAF is ideal for everyday commutes and trips around town.

¹Range figures are obtained from laboratory testing in accordance with EU legislation and are intended for comparison between the different types of vehicles. The information does not refer to a particular individual vehicle and does not constitute part of the offer. Figures shown are for comparability purposes; only compare figures with vehicles tested to the same technical procedures. The electric range shown achieved using the new (WLTP) test procedure. Figures obtained after the battery was fully charged. Actual real world driving results may vary depending on factors such as the starting charge of the battery, accessories fitted after registration, weather conditions, driving styles and vehicle load.

²Figures quoted for 39 kWh (LEAF) batteries. Indicated charging time based on starting charge of 20% and use of a CHAdeMO (50kW) rapid charger. Time may vary depending on charging conditions including charger type and condition, battery temperature and ambient temperature at point of use. The Nissan LEAF is designed to support the majority of journeys in daily life and is equipped with charging safeguards to protect the battery during repeated rapid charging sessions in a short period of time. The time taken for successive rapid charging can take longer if the battery temperature activates the battery safeguarding technology.

³ProPILOT is standard on Tekna and optional from N-Connecta grades. You should not rely solely on driver convenience features. Some features may not work in all conditions and circumstances. Speed and other limitations apply. ProPILOT is an Advanced Driver Assistance technology but cannot prevent collisions. ProPILOT is intended for "Eyes on/ Hands On" for motorways only (road separated by Barriers). It is the driver's responsibility to stay alert, drive safely and be able to take control of the vehicle at any time. For terms and conditions relating to Nissan technologies, please [click here](#).

EASY CHARGING, HOWEVER SUITS YOU BEST

There are several ways to charge your Nissan LEAF. At home or on the go? A wide network of public charging stations also offer Type 2, while an increasing number offer 50 kW CHAdeMO capability.

Nissan LEAF Savings and Benefits [here](#)

HOW DO YOU CHARGE THE NISSAN LEAF?

With a large choice of charging modes from a domestic plug to public chargers, Nissan LEAF adapts to your life, your rhythm and the way you drive.

CHARGE VIA A DOMESTIC SOCKET The Nissan LEAF comes standard with a 6 metre type 2 Charging cable, you can upgrade to the EVSE 3-Pin Charging cable at an additional cost of £295 Inc. VAT. You can plug your car into the most convenient domestic socket for easy top up overnight.

MOTABILITY OPERATIONS OFFER A FREE CHARGING SOLUTION FOR LEAF DRIVERS When placing your application with your dealer, say yes to be contacted by a charger supplier. You'll then be contacted by the supplier directly who will arrange the provision of a charging solution.

For more information on the Motability Operations offer of a charging solution (Terms & Conditions may apply) Please Click [here](#)

CHARGE ON THE GO

PUBLIC CHARGING STATIONS

There's an ever growing network of public charging stations where you can top up your Nissan LEAF on the go. They are along major roads, in petrol stations and in several "public buildings". Just plot your itinerary on the map and choose the most convenient one for the journey.

LEAF FAVOURITE CHARGING STATIONS

As of 2019, over 160.000 charging points exist across Europe including almost 10.000 QC with CHAdeMO protocol. Today, one new Quick Charger opens every day in Europe*.

*European Alternative Fuels Observatory

EXTEND YOUR RANGE

Nissan LEAF offers you two driving modes designed to extend your range and make the most of the all-electric driving experience.

B MODE: RECOVER BRAKING ENERGY

Serious about maxing out your range? Activate B Mode. It delivers more regenerative braking, which charges the battery without compromising on driving power.

ECO MODE

Choose ECO Mode to limit engine output and save energy. It slightly increases regenerative braking to boost your range, too. To get the most mileage out of your Nissan LEAF, use B mode and ECO mode at the same time.

NISSAN ARIYA

Experience a force of wonder: Enter the new era of 100% electric coupé crossover performance, design, and capability – and now being offered for Motability customers.

The new Nissan ARIYA uses breakthrough Nissan technologies to help you with the more demanding parts of the drive so you can arrive feeling more at ease. Driver assist technologies can help to give you different levels of control.*

The ARIYA 63kWh Advance offers up to 250 miles** from every charge of its 63kWh usable capacity battery. With technology that plugs into your senses, chances are, you've never experienced something quite like the ARIYA.

Key features available on the Advance grade:

- **130kW DC CCS Charging Rate**
- **Automatic Dual Zone Climate Control**
- **19" Alloy Wheels with Aero Covers**
- **ProPILOT with Navi-Link***
- **12.3" TFT Screen with 12.3" Navigation Screen**
- **360° Around View Monitor with Moving Object Detection***

*It is your responsibility to stay alert, drive safely and be in control of the vehicle at all times. Driver assist features have speed and other limitations and should not be solely relied on. For more information, please refer to the owner's manual or visit www.nissan.co.uk/techterms.
**WLTP Figures shown are for comparability purposes. Actual real world driving results may vary depending on factors including the starting charge of the battery, accessories fitted after registration, weather conditions, driving styles and vehicle load.

DLA = Disability Living Allowance

PIP = Personal Independence Payment

AFIP = Armed Forces Independence Payment

WPMS = War Pensioners Mobility Supplement

T/A = Total Allowance

START WITH THE PERFECT FIT

ARIYA

63kWh ADVANCE

The first choice for commuters with a family that crave weekend adventure with less need for regular long journeys. Coupe-Crossover style with front wheel drive, 160kW/217PS and 300Nm torque, 100mph top speed and delivering up to 250 miles range*.

*Figures stated above relate to 63kWh Advance Model - WLTP figures shown are for comparability purposes. Actual real world driving results may vary depending on factors including the starting charge of the battery, accessories fitted after registration, weather conditions, driving styles and vehicle load.

CHARGE AHEAD

Keep the energy high and the expectations higher. Explore up to 250 miles* on a single charge. It's possible to charge your Nissan ARIYA with a variety of different methods. Whilst you're on the go, there is a wide network of public charging stations that offer Type 2 AC charging, or you can utilise ARIYA's 130kW DC CCS Charging Rate to charge your battery from 10% to 80% in just 30 minutes**.

22KW CHARGER OPTION

The 22kW AC Charger option on the Nissan ARIYA unlocks faster AC charging via its type 2 socket versus the standard 7.4kW AC charger found on the 63kWh Advance. This faster charger can cut the time of a full charge from circa 11hrs to 4hrs - almost three times quicker. However, to enable this faster charging rate, a 22kW charger requires a 3-phase energy supply.

For public charging, 22kW-capable AC charging stations are growing at a rapid rate, and are becoming more widespread. Buying the 22kW cost option onboard AC charger would unlock this faster charging potential in the public charging network.

For domestic use however, very few residential properties have 3-phase supply. To get 22kW charging at a home residence, significant investment would be required in installation. If a property does not have this 3-phase supply, then regardless of whether an ARIYA is fitted with the 22kW onboard charger cost option, it will only charge at a maximum of 7.4kW rate.

MOTABILITY OPERATIONS OFFER A FREE CHARGING SOLUTION FOR ARIYA DRIVERS

When placing your application with your dealer, say yes to be contacted by a charger supplier. You'll then be contacted by the supplier directly who will arrange the provision of a charging solution.

For more information on the Motability Operations offer of a charging solution (Terms & Conditions may apply) Please Click [here](#)

*WLTP figures shown are for comparability purposes. Actual real world driving results may vary depending on factors including the starting charge of the battery, accessories fitted after registration, weather conditions, driving styles and vehicle load.

**Information is indicative of the ARIYA 63kWh Advance. Indicated rapid charging time requires use of a CCS rapid charger (Up to 130kW) and may vary depending on factors including charging conditions, battery, and ambient temperature at point of use and if the battery safeguarding technology is activated. Visit nissan.co.uk to find out more.

CHARGE ON THE GO

PUBLIC CHARGING STATIONS

There's an ever growing network of public charging stations where you can top up your Nissan ARIYA on the go. They are along major roads, in petrol stations and in several "public buildings". Just plot your itinerary on the map and choose the most convenient one for the journey.

CHARGE AHEAD

As of May 2022, there are over 52,000 charging connectors across the United Kingdom, including over 6,000 rapid chargers delivering over 25kW.

*Information sourced from zap-map.com, May 2022

ELECTRIFY YOUR DRIVE

E-PEDAL STEP

Utilise the one pedal driving experience with Nissan's e-Pedal Step*. Standard on the 63kWh Advance, e-Pedal Step allows you to accelerate and brake, simply with accelerator. Once you try it, you won't want to go back!

NISSAN INTELLIGENT MOBILITY

As the halo for the NIM platform, the ARIYA comes equipped with a suite of safety features designed to work to try to keep you as safe as can be. From the Intelligent Around View Monitor to Intelligent Blind Spot Intervention, you can see how the car can help to ease your journeys.*

*It is your responsibility to stay alert, drive safely and be in control of the vehicle at all times. E-Pedal Step may require driver intervention in aggressive braking scenarios. Driver assist features have speed and other limitations and should not be solely relied on. For more information, please refer to the owner's manual or visit www.nissan.co.uk/techterms.

FURTHER INFORMATION

The Nissan Motability Programme developed in association with the registered charity Motability helps you move through life with more confidence.

Terms & Conditions:

Nissan reserves the right to amend or withdraw offers at any time without prior notice, including in the case of any events or circumstances beyond Nissan's reasonable control.

1) Advance Payment offer valid for Motability applications from 1st July 2022 to 30th September 2022 at participating dealers and subject to vehicle availability.

2) Advance Payment varies according to model grade. For more information on full range Advance Payment, please refer to the Nissan Motability Price List (Prices effective from 1st July 2022 to 30th September 2022).

3) Motability vehicles available at a fixed weekly cost for the duration of your 3 year lease agreement. Where your weekly cost is less than your Motability total allowance, the difference will be paid directly to you by the Department for Work and Pensions (DWP) or Veterans UK depending on which allowance you receive.

4) Motability customers agree to pay all or part of the Motability Allowance (DLA, PIP, AFIP or WPMS) depending upon the vehicle chosen for the duration of the 3 year lease agreement.

For further information and details on the full range, please email your local Nissan Motability Accredited Dealer.

Images and descriptions shown are for guidance purposes. In some instances photos are of non-UK specification vehicles and do not represent a specific model, grade or offer. The features shown may not be available or may not be available as standard or only as option.
