20 YOUR TYPE R

Evolution of an icon

Type R – a name inexorably linked with racing, quickly gained a legendary reputation when it was originally unleashed into the world.

Born from our unrelenting desire to redefine true sports performance and complete driving enjoyment, it has become a true icon.

Welcome to the next generation.

THE VISCERAL
2.0L VTEC TURBO

235KW ENGINE
MAXIMUM POWER

Civic Type R Timeline:

<p>// 01.</p> <p>1.6 136 kW</p>	<p>// 02.</p> <p>2.0 147 kW</p>	<p>// 03.</p> <p>2.0 148 kW</p>	<p>// 04.</p> <p>2.0 TURBO 228 kW</p>	<p>// 05.</p> <p>2.0 TURBO 228 kW</p>
<p>EK9 / 1997 - 2000</p>	<p>EP3 / 2001 - 2005</p>	<p>FN2 / 2007 - 2011</p>	<p>FK2 / 2015 - 2017</p>	<p>FK8 / 2017 - 2022</p>

High-performance pedigree

The new Type R is the fastest yet, powered by a potent 2 litre, VTEC turbo-charged engine that generates 235 kW and peak torque of 420Nm. Every component is refined and perfected to achieve maximum agility and performance.

It may be uncompromisingly powerful, but it's also unquestionably responsive, providing you with a driving experience you can truly feel, thanks to its precise 6-speed manual transmission and 4 selectable driving modes. These change the engine, steering and suspension set-ups to suit the driving experience you require: from Comfort, Sport, to track-focused +R and Individual, which allows you to customise your favourite settings.

**272KM/H
TOP SPEED***

The balance of **power**

A driving experience born from race-bred technology and honed on tracks around the world, the new Type R is engineered for a dynamic and perfectly balanced drive.

Handling is sharp and decisive, thanks to its ultra-low centre of gravity, sports suspension and stiffened body structure. These elements provide the driver with high-speed stability, agile direction changes and a unique feeling of involvement and exhilaration.

**DUAL-AXIS STRUT
FRONT SUSPENSION**

**RACING-INSPIRED
STIFFENED BODY SHELL**

Styled for speed

From its racing-inspired front air vents, which maximise engine and brake cooling, to its lightweight rear spoiler that boosts down-force at high speeds, there can be no doubting the new Type R's intent.

Its sleek and muscular body sits on dramatic, wide, low-profile tyres. Every part is measured and focused, specifically designed to optimise the vehicle's dynamics.

**19" ALLOYS

**HIGH-DOWNFORCE
REAR SPOILER**

Immersive cabin experience

Settle into the sculpted, figure-hugging racing seats and take in the harmonious, uncluttered interior. Everything has been designed to ensure you are totally immersed in the driving experience; controls are thoughtfully arranged, intuitively positioned and beautifully made.

You are surrounded by high levels of finish and exceptional attention to detail, from its distinctive honeycomb dashboard design and tactile gear knob to its sports pedals. The Type R's performance-focused cockpit is complemented by a large boot with up to 1,212 litres' capacity.

**RACING-STYLE
STEERING WHEEL**

**UNIQUE MODEL BUILD
NUMBER PLAQUE**

Enhance the experience

The ability to access data clearly and quickly is vital. That's why the new Type R's 10.2" digital multi-information display tells you precisely what you need to know, when you need to know it. A clever Honda LogR performance datalogger further enhances your driving experience by monitoring and recording on-track performance and providing in-depth analysis on the centrally mounted, 9" Honda HMI infotainment screen.

When you are not listening to the soundtrack of the engine, you can enjoy your own playlists thanks to the Android Auto™ and Apple CarPlay® smartphone integration with playback over a 12 speaker Bose® sound system. Naturally, wireless phone charging is fitted as standard and can accommodate the largest of devices.

**LogR PERFORMANCE
DATALOGGER**

**WIRELESS

Honda
SENSING

Safety at speed

Your safety and the safety of your passengers is always our priority, which is why the Type R is fitted with a host of passive and active safety features, including our latest Honda SENSING® system: a suite of advanced technologies that react to situations with lightning speed and offer intelligent support when required.

When you also consider that the Type R comes with a Rear-view Camera, Collision Mitigation Braking and a Lane Keeping Assist System, it's good to know that all these features are there for your safety and convenience.

**ROAD DEPARTURE
MITIGATION SYSTEM**

**ADAPTIVE
CRUISE CONTROL**

Little details, **big** difference

Even though the new Type R has been created for outright performance, it doesn't mean you have to compromise on the things that make every journey a little more comfortable. After all, we believe you can only fully enjoy the driving experience when you are feeling calm and composed. That's why we have included features like dual-zone air conditioning – little details that will make a big difference every day.

**STAINLESS STEEL
SPORTS PEDALS**

**TINTED PRIVACY

Indicated CO₂ and fuel consumption figures quoted are obtained when testing the vehicle in line with the compulsory requirements of SANS 20083 and therefore may not necessarily be achieved under day-to-day driving conditions. Actual fuel consumption figures may be influenced by a range of factors, including but not limited to vehicle maintenance, driving style and behaviour. Fuel consumption may be further affected by the environmental factors and conditions under which the vehicle is operated including altitude, road condition and traffic flow. The figures used in this guide should therefore be treated as indicative only.
