

Way of Life!

Ciaz

Suzuki's "Way of Life" is the heart of our brand - every Suzuki vehicle, motorcycle and outboard motor is built to create excitement so customers can enjoy everyday life.

Standard and optional equipment available may vary for individual markets. Please enquire at your dealers, as specifications and illustrations may refer to models not available in your region. SUZUKI MOTOR CORPORATION reserves the right to change, without notice, prices, colours, materials, equipment, specifications and models, and also to discontinue models.

All photographs in this catalogue were taken with relevant permission. Images of the vehicles without number plates on public roads are composite photos. Vehicles are shown at a private off-road site.

CIAZ BROCHURE (SMT)
99999-B1Y01-002 1604

Driven to excel

There are those among us who believe that good enough isn't enough. They have a strong desire to do things differently.

The new Ciaz is made for those who are driven to excel.

Inspired by the ever-evolving expectations of sedan buyers, the Ciaz is developed as an "Authentic Sedan" which combines a roomy comfortable cabin and a great driving performance with excellent fuel efficiency. All of these come with a stylish design that will inspire pride of ownership.

Sporty and elegant style

The Ciaz blends sportiness with an impression of elegance. Its stylish design elements add a touch of sophistication, and its lean yet expansive body creates an air of exclusivity.

Halogen projector headlamps

Two-part rear combination lamps

Chrome front grille

Chrome boot lid ornament (GLX)

Chrome door beltline ornaments and door handles (GLX)

16-inch alloy wheels (GLX)

15-inch steel wheels with full wheel cap (GL)

Interior designed for a pleasant journey

The interior of the Ciaz introduces a new dimension in sportiness and elegance that reflects the exterior design. The high-quality instrument panel and upholstery, a wide range of advanced feature and amenity enhance travelling comfort and convenience.

Remote control key

keyless push start system (GLX)

Meter cluster with information display

Manual air conditioner (GL)

Standard grade CD audio system (GL)

Automatic dimming day/night rearview mirror with rearview monitor (GLX)

Rear parking sensors (GLX)

Automatic air conditioner (GLX)

High grade CD audio system (GLX)

Ample space, outstanding comfort

Creating a spacious and relaxing feel, the ergonomically designed cabin and seats of the Ciaz provide excellent comfort in both the front and the rear. With ample legroom, headroom and shoulder room, the seats indulge both the driver and the passengers in an experience of exceptional comfort. And thanks to its enhanced rigidity and tuned suspension, noise and vibrations are reduced, making its cabin quiet and comfortable for the occupants. Heading for rear seat amenities: Enhanced ease and convenience for rear seat passengers.

Rear air conditioner vents and 12V accessory socket

Intelligently designed utility spaces

The Ciaz offers a variety of utility spaces which are intelligently placed keeping both the driver and all passengers in mind.

Driver's side pocket

Front centre armrest with console box

Centre-lower box with lid and light

The Centre-lower box provides storage with anti-skidding mat, 12V accessory, USB and AUX sockets and cupholders for two 600 ml plastic bottles.

Front seatback pockets

Rear centre armrest with cupholders

The rear armrest provides cupholders for two 600 ml plastic bottles.

Rear door pockets

Rear door pockets can hold a 1,000 ml plastic bottle and an A5 size document.

Front door pockets

Front door pockets can hold a 1,000 ml plastic bottle and an A4 size document.

Big capacity boot space

The boot of the Ciaz with high capacity 495L provides enough luggage space to pack for an extended holiday. Also, its large opening makes it very easy to load and unload luggage.

Dynamic performance blends with enhanced efficiency.

The refined K14B engine combined with aerodynamic styling and lightweight body create an ideal blend of dynamism and efficiency to deliver driving pleasure. The suspension is tuned to optimise response and assured handling while providing superior ride comfort. The combination of the suspension and rigid body provides a perfect fit that enhances driving stability and NVH (Noise, Vibration and Harshness) performance.

Refined K14B VVT petrol engine

The refined K14B VVT engine incorporates new cylinder heads and piston crowns. Also, with friction reduction in each engine component, it delivers great dynamic performance with excellent fuel efficiency.

Engine spec

Maximum output 68/6,000 kW/rpm
Maximum torque 130/4,000 N·m/rpm

4-Speed automatic transmission and 5-Speed manual transmission

The gear ratio of both 4-speed automatic and 5-speed manual transmissions is optimised for the best balance of performance and efficiency. The shift mechanism promotes smooth and precise shift feeling.

Rigid and lightweight body

The use of high-tensile steel for the body structure provides excellent strength, at the same time helps to reduce overall body weight.

Suspension

Designed exclusively for the Ciaz, the suspension provides assured handling together with superior ride comfort. It reduces harshness and absorbs shock while driving on bumpy roads.

Safety goes along.

The body of the Ciaz is built on the TECT (Total Effective Control Technology) body concept that offers enhanced protection to the occupants. The CAE technologies and effective use of high-tensile steel make the body light yet stronger. Plus safety equipment like dual front airbags, front seatbelts with pretensioners and force limiters along with ABS (Anti-lock Brake System) further add to the safety of the passengers.

TECT (Total Effective Control Technology) body

The benefits of structural analysis with CAE technologies are complemented by effective use of high-tensile steel for major parts to make the body light and outstanding crashworthy.

Dual front airbags

As a supplemental restraint system to the seatbelts, the airbags contribute to mitigating the collision force inflicted on the head and chest.

ABS with EBD (Electric Brake force Distribution) function

In an emergency braking situation, ABS keeps tyres from locking up and stability to evasive manoeuvres. In addition, EBD helps maintain control by sending the optimum amount of force to the front and rear wheels.
