## THE COMPACT SUV WITH AN OUTSIZE PEDIGREE

Individual, innovative, versatile, capable, the ASX is the smart and efficient compact SUV that will fit your life like a glove.

Quietly and without fanfare it has become the vehicle of choice amongst real people who have real families to ferry around in the real world. It comes with edgy styling, a nimble drive, excellent safety features, loads of kit and plenty of room to swallow even the lankiest of families whole.

It is a car that will accommodate your needs and reflect your values. And it comes from the company with an enviable reputation for innovation; the clever niche car company who, over the years, has set the benchmarks in plug-in hybrid motoring with the Outlander PHEV, four-wheel drive technology with Shoguns and Evolutions, and spacious interiors with a whole host of multi-purpose and sport utility vehicles.

This is the cool compact SUV with plenty of class and exceptional breeding.

"What a cracking car!

If you are after a practical car with a bit of style have a look at the ASX; you may be presently surprised." Smiffy 008, Wigan

# A PERFECT FIT FOR YOUR LIFESTYLE

The ASX Juro is practical yet fun, fleet yet frugal.

Its 1.6 litre petrol engine is a free-revving power plant which is a joy to wind up; and it gives good economy thanks to effective fuel-saving technologies like the high-efficiency alternator and low-friction tyres. This is matched by well-weighted electric steering and a super-sorted chassis, whose forgiving nature soaks up the lumps and bumps with ease, making it safe and well judged for British roads.

It is easy to park with a reversing camera. And easy to live with, thanks in part to Mitsubishi's ETACS system which controls all those small but significant details that make a good car great. Little things like headlights which stay on for a pre-programmable duration to light your way home; a highly intelligent wash/wipe system which seems to think for itself; and large side mirrors which automatically retract when you lock the doors.

What's more, the ASX goes about its business quietly, thanks to clever noise and vibration isolation. And, since it's a Mitsubishi, you can expect it to continue to do so, day after day after day – a fact backed by the most recent What Car? Reliability Survey.

"The ride is fantastic: it's supple yet very stable, soaking up awful road surfaces as well as stupidly large speed humps really well.

Handling again is a revelation for this type of car, body roll is kept to a minimum and front end grip is very good, only progressing to very manageable understeer when pressed too hard." SD'C, Merseyside

## JUST THE RIGHT STYLE

Sophisticatedly monochromatic, employing a contrasting use of textures and materials for real visual impact; ergonomically designed and generous with equipment, this car exhibits considerable style.

And with the ASX Juro pampering is clearly the name of the game. True, you may well expect climate control air conditioning, remote audio controls, electric windows and heated door mirrors. You may even presume to get cruise control, a reversing camera, Bluetooth® hands-free 'phone connection with music streaming, privacy glass and a generous touch of leather on the gearshift knob and steering wheel. But heated front seats, Grand Luxe® seat trim, a Smartphone Link Display Audio with high definition touch-screen, and automatic lights and rain sensors really are the mark of luxury in a compact SUV.

"Paint finish and detail quality is superb, this car is the best kept secret!" MRH, Oldham

## JUST THE RIGHT SUBSTANCE

Decades of experience in designing multi-purpose, seven-seater vehicles, and as one of the very first manufacturers to introduce increased height into compact cars, Mitsubishi are experts in maximising the use of space. The ASX's sharp styling and short overhangs mean that it shoehorns a generous wheelbase into a compact footprint, giving you the very best of both worlds – loads of elbow, leg and head-room inside a vehicle which is just the right size for tackling our overcrowded urban roads.

Its tall profile provides an elevated view of the road and allows even the gangliest youths plenty of room in the back, making the average hatchback seem uncomfortably snug by comparison. Indeed, it's always easy to get comfortable here: the steering wheel adjusts for both rake and reach and the seats are properly supportive, with a raised hip point which makes entry and exit easier and long journeys more comfortable.

#### AND THE RIGHT USE OF SPACE

The ASX Juro has a capacious 393 litre boot, with wide opening tailgate and low floor for easy access, as well as a useful underfloor tray. A 60:40 split rear bench seat and an easy-fold to flat facility provide the versatility to match ever-changing needs.

"I love it! And if its reliability is as good as my previous three Mitsubishi's, I will be more than satisfied." Michael, Minehead

## A RIGID APPROACH TO SAFETY

Benefitting from the lessons learned in many of Mitsubishi's larger vehicles, the ASX enjoys a highly rigid body structure which results in improved driving dynamics, greater comfort and, vitally, increased safety.

Using Mitsubishi's proprietary RISE (Reinforced Impact Safety Evolution) system to integrate and interconnect the structural elements, it provides a dramatic advance in multidirectional impact safety performance, dispersing energy loads during front, side and rear crashes and controlling distortion. These elements include a reinforced girdle body construction, the increased use of high-tensile steel (which also aids in the reduction of weight) and numerous crush box and energy absorbing structures; even the brake pedal features a push prevention system designed to reduce injuries to the driver's legs.

Active safety features include stability and traction controls, a tyre pressure monitoring system, daytime running lights, and extremely clever brakes. Indeed, clever features are a real hallmark of this car – even ensuring that the braking action always takes precedence should you inadvertently press the brake and accelerator pedals simultaneously.

#### SAFETY IN THE BAG

The ASX is a clever car. Take the brakes, for example: anti-lock of course, complete with Electronic Brakeforce Distribution which automatically adjusts the brake effort to individual wheels to accommodate the location of weight. Then there is Brake Assist, providing power assistance to boost braking in an emergency situation, an Emergency Stop signal System, which automatically flashes the hazard warning lights at double speed to warn vehicles around you in such a situation, and Hill Start Assist (HSA), which maintains the braking force on a hill for about two seconds until the accelerator is applied.

All models feature seven airbags, including dual front, side and driver's knee airbags to provide increased safety in the front, whilst curtain airbags provide protection in the event of a side collision. These work in conjunction with specially designed seats and headrests which allow the occupants' bodies to sink into the seats more quickly, thus providing extra support to the head and back and so aiding in the reduction of whiplash.

# MITSUBISHI AFTERSALES CARE

With a new Mitsubishi, you not only get a safe and reliable vehicle that is a real pleasure to drive, you also become part of the Mitsubishi family. And as our nearest and dearest, we want you to feel protected should you ever encounter a problem – that's why we have me&my, which encompasses a wide range of benefits:

- A comprehensive **five-year, 62,500-mile warranty** (please ask your Authorised Mitsubishi Dealer for full details)
- The **Mitsubishi Assistance Package (MAP)**, which provides the reassurance of roadside or home breakdown assistance for the first three years following registration. It includes vehicle recovery following a breakdown or accident, help if your vehicle is stolen or vandalised, and even if you should accidentally fill up with the wrong fuel. 24/7 cover extends to over 30 countries throughout Europe. So wherever you are and whatever you're doing, if the unexpected does happen help is always at hand
- In the unfortunate event of an accident we have **Mitsubishi First** – our customer support service for all Mitsubishi drivers. No matter which insurer you use, Mitsubishi First smooths your progress through an insurance claim, handling everything on your behalf – and all at absolutely no cost to you

And once you're part of the family... it's service with a smile.

A **Mitsubishi Service Plan**, purchased at the same time as your vehicle, covers the first three scheduled services for a modest sum. It can be included in your vehicle's finance and transferred to a new owner if you sell.

Mitsubishi Motors also offer superior insurance cover at a competitive price which is specifically designed for Mitsubishi vehicles and uses only genuine parts and approved repair centres.

<sup>1</sup>The NEDC fuel consumption and CO<sub>2</sub> figures quoted are correlated from the new Worldwide Harmonised Light Vehicle Test Procedure (WLTP) results for this model.

WLTP fuel consumption and CO<sub>2</sub> figures will replace NEDC with effect from 1st January 2019 (the correlated NEDC CO<sub>2</sub> figure will be used for UK vehicle taxation purposes until April 2020).

WLTP results are intended to be more representative of real-life driving; in practice these will still vary with load, road conditions, driving style and other factors.

During the NEDC/WLTP transition period, fuel consumption and CO<sub>2</sub> comparisons should only be made with other vehicles tested to the same technical standard.

<sup>2</sup>Cargo capacities include 13-litre under-floor storage compartment (with tyre inflation kit). Minimum figure - 5 seats to luggage cover. Maximum figure - 2 seats to roof.
