STAY IN TOUCH WITH YOUR WORLD, WHEREVER YOU GO.

Chevrolet MyLink is a system that enhances your driving experience with simple connectivity, smartphone integration and capacitive touch controls on a beautiful 7-inch high-resolution touch screen. This intuitive system allows for the seamless pairing of your smartphone with the Cruze, granting you access to your personal playlists, contacts and other media favorites. The Cruze also integrates with SIRI, allowing you to access a host of easy to use navigation.

5-STAR PROTECTION FROM FRONT TO BACK.

The most impressive and important feature of the 2017 Chevrolet Cruze is without a doubt the impeccable 5-Star safety rating. A combination of rigid engineering, advanced technology and intuitive design have given the Cruze the highest possible international safety rating. An antilock braking system (ABS) brings you to a stop from any speed without loss of control, while an available rearview camera lets you see what's behind during parking. The Side Blind Zone Assist feature alerts you with an amber display light in the side mirrors when it detects a vehicle in the side blind zone.
