## **TRAVERSE PUTS EVERYONE FIRST.**

The all-new 2018 Traverse has the flexibility to make every mile count, and it starts with being everything you and your family need. Every Traverse has a unique personality. There's a choice of seating for seven or eight, plus it's expected to have best-in-class maximum cargo space. You'll find the capability of Traction Mode Select and available twin-clutch advanced AWD. Plus a richly refined interior and stunning exterior designed to create a lasting impression. Add in available advanced safety technologies, exceptional connectivity and convenience features, as well as available Surround Vision, and you'll see how Traverse brings everyone together.

---

## **SURROUND VISION.**

This new feature can make parallel parking and maneuvering at low speeds into tight garage spaces easier. That's because you get twice the view when you look at just one screen. Using four strategically placed cameras, Surround Vision creates a virtual bird's-eye view of the areas immediately surrounding your Traverse. That image is then displayed on the touchscreen next to the image provided by the rear vision camera. Standard on LT Leather models and above.
