

# MIRAGE

---

"You cannot find a better car in its class for your money... I love this car! It's adorable." Zach, owner

## LOVED BY THOSE WHO LIVE WITH IT

The Mitsubishi Mirage is the small car which has been built to impress those real people living in the real world who follow their own heads, not the crowd.

True it does look good. With its sleek shape, smart alloys, privacy glass, everything colour keyed and some great shades, it's really rather cool.

True it is nimble, lightweight and aerodynamic: made to hustle about the town where it can dive in and out of diminutive gaps, and slot straight into the smallest of parking spaces.

But it is also comfortable, capable and exceedingly well appointed; superbly equipped and supremely practical. It's a no-nonsense type of car which puts safety, reliability, economy and low emissions high on its CV, and packs room to carry family and friends into the smallest possible footprint.

It is a car which wins almost universal approval from owners from all around the world. Maybe you should try one for yourself.

# THE SMALL CAR WITH VERY BIG CREDENTIALS

Over the years Mitsubishi has been quietly innovative in terms of automotive engineering: our Shoguns and Evolutions set the benchmark in four-wheel drive technology, and we are recognised as bringing entirely new engine, drivetrain and transmission developments to the passenger car market.

We are known for finding clever ways to maximise space. We were the first manufacturer to introduce the layout now universally known as an MPV; we introduced the concept of tall cars with a small footprint; and a Mitsubishi was the very first double cab pick up truly suited to European roads, establishing a whole new niche market.

And now we're leading the way in reducing CO<sub>2</sub> emissions with a range of vehicles which can be truly lean and clean without need for compromise: the Outlander PHEV is more than just the world's first SUV plug-in hybrid electric vehicle, it's the first hybrid electric vehicle to offer a truly viable package, and more than 100,000 of them on the roads of Europe are testimony to its achievement.

The Mitsubishi Mirage may be small, but it's intelligent motoring from a master. And since its raison d'être is as a car about town, it's equipped with a whole host of fuel-saving technologies, including Auto Stop & Go, a high-efficiency alternator, low-friction tyres and the latest in CVT transmissions for those who prefer an automatic.

"For us, it's a car that makes a lot of sense if you're looking for something that's affordably priced, able to comfortably take three kids on the back seat along with their luggage and deliver 65-70mpg\* to keep running costs low. Lighter, sleeker and more practical than nearly all of its rivals, the Mirage ticks all these boxes." RAC Drive

---

## IT'S A STREETWISE CAR

Specifically designed to be economical and eco-friendly, the Mirage's eager 1.2-litre 3-cylinder engine enables it to hustle along at a decent rate. Nothing extreme of course, that's really not the aim, but when pushed through its paces the acceleration leaves a good many better known rivals in its dust. And it's perfect for motorway cruising, with a top speed that puts plenty of others to shame.

Excellent all round visibility, a very tight turning circle and electric power steering combine to make easy work of manoeuvring. The brakes are responsive, the transmissions, both manual and CVT automatic, notably smooth, and the suspension, whilst geared primarily for comfort, is tidy enough to be entertaining.

Indeed, the sum of the package is a car which is both fun and frugal. Which is why, for so many owners, it ticks every single box.

# 55.4 MPG

"Genuine 60+ mpg if driven sensibly... A well made, reliable, good looking car that has been a delight to own." MJW, owner

" I have had this car for nearly 12 months now and would recommend it to anyone... Overall interior room space is excellent – easily fits 5 people in comfortably, with a fair amount of boot space too." JW, owner

## FIRST CLASS ACCOMMODATION

The greatest luxury in a small car is space, and at Mitsubishi we've always been good with space. In the Mirage, we continue the tradition; in fact it is a triumph of packaging, offering more total legroom than virtually all of its rivals. There's enough headroom from six-foot-plus passengers and the seats are comfortable and supportive: heated in the front\* and providing 60:40 split/fold flexibility in the rear.

\*Mirage 4 only

Seats fold to provide a fully flat floor.

# YOUR HIGHEST EXPECTATIONS COME AS STANDARD

Inside the Mirage is an altogether pleasant place to be: solidly screwed together with nice fabrics on the seats, real leather in all the right places, and plenty of chrome and gloss black accents for visual relief.

But it's the specification which really demands notice: this is a small car with all the kit you could desire. There's privacy glass and air conditioning, Bluetooth with music streaming, keyless entry and electrically operated door mirrors and windows all round. Treat yourself to the Mirage 4 and you also get a DAB radio, a navigation system with smartphone link, cruise control and even heated front seats. Mmm, luxury!

## MULTIFUNCTION GPS NAVIGATION (SMARTPHONE-LINK) (MGN)

The MGN system is accessible via 6.5" WVGA (800 x 480) LCD and DVD deck mounted in the centre console. Through large ergonomic touch screen buttons, MGN offers a wide variety of smartphone connectivity solutions and navigation map data for countries throughout Europe.

## SAFETY FIRST AND FOREMOST

It doesn't matter whether you travel ten miles a week or ten times that number, safety is top of everyone's list of priorities; it's also a sphere in which the Mirage excels.

Active safety measures across the range include a body designed to see and be seen, with daytime running lights and clear visibility; a stability and traction control system to help prevent drift around bends and aid linear acceleration, and a particularly clever Anti-lock Braking System.

Should the unthinkable actually occur occupants are protected with front, side and curtain airbags, whilst a massively strong monocoque structure made from ultrahigh tensile steel absorbs and disperses crash energy from all directions. In fact, it's like sitting in a steel safety cage.

### SO MUCH MORE THAN ABS

The Mirage's Anti-lock Braking System (ABS) includes some very clever features. Electronic Brakeforce Distribution (EBD) automatically adjusts the braking effort to individual wheels to accommodate the location of weight. The Brake Override System automatically prioritises the brakes over the accelerator if they are accidentally activated at the same time; Brake Assist provides power assistance to boost braking in an emergency situation, and an Emergency Stop Signal System automatically flashes the hazard warning lights at double speed to warn the vehicles around it. And finally, no more battling with hill starts: Hill Start Assist holds the braking force for two seconds until the accelerator is applied.

### ABS + EBD

## TRULY ONE OF LIFE'S LITTLE PLEASURES

The Mirage offers economical motoring in an exceptional package, never skimping on the important things like safety or handling or comfort.

Of course it's a flyweight – that helps with economy, agility and braking ability; but it feels well made, easy to drive and comfortable, with a cushioning ride and those extra-special little touches normally associated with far, far more expensive cars: touches like automatic lights and rain sensitive wipers; cruise control and parking sensors\*.

The Mirage boasts space, low running costs, a phenomenal specification, and the peace of mind which comes with the Mitsubishi name, a name which has long been synonymous with reliability.

In all, this is a small compact car which is a truly accomplished heavyweight when it comes to meeting the real needs of the modern motorist.

\*Mirage 4 only.

"I've owned this car for a year now and you get exactly what you pay for; good build, reliability, practicality." RS, owner

"I have had many small cars, but none that compares to the Mirage 1.2... I have rated this car excellent because it deserves it." MS, owner

# MITSUBISHI AFTERSALES CARE

With a new Mitsubishi, you not only get a safe and reliable vehicle that is a real pleasure to drive, you also become part of the Mitsubishi family. And as our nearest and dearest, we want you to feel protected should you ever encounter a problem – that's why we have me&my, which encompasses a wide range of benefits:

- A comprehensive **five-year, 62,500-mile warranty** (please ask your Authorised Mitsubishi Dealer for full details)
- The **Mitsubishi Assistance Package (MAP)**, which provides the reassurance of roadside or home breakdown assistance for the first three years following registration. It includes vehicle recovery following a breakdown or accident, help if your vehicle is stolen or vandalised, and even if you should accidentally fill up with the wrong fuel. 24/7 cover extends to over 30 countries throughout Europe. So wherever you are and whatever you're doing, if the unexpected does happen help is always at hand
- In the unfortunate event of an accident we have **Mitsubishi First** – our customer support service for all Mitsubishi drivers. No matter which insurer you use, Mitsubishi First smooths your progress through an insurance claim, handling everything on your behalf – and all at absolutely no cost to you

**And once you're part of the family... it's service with a smile.**

A **Mitsubishi Service Plan**, purchased at the same time as your vehicle, covers the first three scheduled services for a modest sum. It can be included in your vehicle's finance and transferred to a new owner if you sell.

Mitsubishi Motors also offer superior insurance cover at a competitive price which is specifically designed for Mitsubishi vehicles and uses only genuine parts and approved repair centres.
