

CUPRA COLLECTION

CUPRA

We are much more than a Car Brand. We were born in
a garage from the passion of a few believers who
sought to reinvent the principles the automotive world.

We don't settle for a merely driving, we seek emotions.
And when the car stops, the philosophy continues. We
present a way of understanding life. Will you join our
TRIBE?

CUPRA
COLLECTION

CUPRA COLLABORATIONS

CUPRA dares to go further. We seek out creators that love what they do, that are capable of reinventing, of imagining a more contemporary concept of their products and we propose a challenge we can share. We join forces with those that share our vision, with those brands that have chosen to innovate through their materials and design, with those that pour their passion into every item, just as we do: modern day artisans.

CUPRA ESSENTIALS

Our CUPRA tribe is special. That's why our own collection of fashion and accessories had to be special, as well. We have remastered even the most basic aspects, carefully choosing the materials and design of each article so that everything, absolutely everything, has that special touch of distinction.

MARSET X CUPRA: CHISPA

What would a CUPRA lamp look like? The answer can only be found by joining the minds of our designers and the creators of Marset lamps, capable of illuminating the world with a unique and sustainable light. And from this union CHISPA was born: the style of our CUPRA Garage applied to lighting.

Its design is reminiscent of the garage lamp but of high quality, lighter and very useful with three lighting positions. It is sophisticated and transmits a warm light with the firm purpose of accompanying. Its structure is protected by a grille that rotates around the light source, a detail that makes it original. It also comes with an accessory that allows it to be hung.

When switched on, the light itself illuminates the lamp, mitigating its colour. When turned on, the black piece evokes the copper signature color of CUPRA.
