TRAVERSE 2021

CHEVROLET 

Traverse Premier in
Black Currant Metallic
(extra-cost color).

TRAVERSE PUTS EVERYONE FIRST.

The 2020 Traverse has the flexibility to make every mile count, and it starts with being everything you and your family need.

Every Traverse has a unique personality and a choice of seating for seven or eight. You'll find the capability of Traction Mode Select and available twin-clutch advanced AWD. Plus a richly refined interior and stunning exterior designed to create a lasting impression.

Add in available advanced safety technologies, exceptional connectivity and convenience features, as well as available Surround Vision, and you'll see how Traverse brings everyone together.

EXTERIOR DESIGN

Traverse High Country in Mosaic Black Metallic.

HIGH STYLE MEETS HIGH COUNTRY.

The Traverse that takes sophistication to unprecedented levels, High Country includes 20" polished-aluminum wheels, chrome roof rails, a unique chrome grille and a SkyScape dual-panel sunroof.

THE BEST OF TRAVERSE.

High Country functionality is also enhanced with twin-clutch advanced all-wheel drive, trailering equipment and every convenience amenity and safety feature Traverse offers.

DRESSED TO IMPRESS.

Premium perforated leather-appointed seat trim in Loft Brown sets High Country apart from the rest. So do heated and ventilated front seats, heated second-row seats, and a power-folding third-row bench.

1. ILLUMINATING TECHNOLOGY.

Innovative LED D-Optic headlamps offer a distinctive and striking design on Premier and High Country, along with a crisp, smooth beam that looks more like daylight than a standard LED.

2. TAKE THEM FOR A SPIN.

Traverse Premier includes these 20" Argent Metallic machined-face aluminum wheels. With three 20" wheels in the Traverse lineup, there's something for just about anyone's taste.

3. THE SCIENCE BEHIND THE LIGHT.

LED taillamps, turn signals and stoplamp contribute to a fresh, high-tech look across the rear.

4. THE FACE OF PREMIER.

Premier features a stunning grille with chrome inserts and foglamps that are accented in chrome.

INTERIOR DESIGN

SETTING THE STANDARD.

Traverse aims to impress with all these standard features: Keyless Open and Start, tri-zone automatic climate control, USB ports¹ in all rows, Chevrolet Infotainment System² with a touch-screen display, a theft-deterrent system, and so much connectivity technology you might feel like you never need to leave.

THE SEAT OF POWER.

Make every drive more enjoyable. LT models and above have an 8-way power driver seat, while Premier, High Country and LT Leather models include a 6-way power front passenger seat. Memory settings for the driver seat and outside heated mirrors are included on Premier and High Country for the ultimate in customized comfort.

USE YOUR INSIDE VOICE.

With Active Noise Cancellation, a honed exterior that helps reduce wind noise and numerous other acoustic enhancements, Traverse is a quiet place for a conversation, whether you're on the phone or talking to people in the third row.

¹ Not compatible with all devices. ² Chevrolet Infotainment System functionality varies by model. Full functionality requires compatible Bluetooth and smartphone, and USB connectivity for some devices.

The image shows the front interior of a car. The dashboard and center console are finished with a dark brown leather. A large, vertical infotainment screen is mounted in the center, displaying a navigation map and several app icons. Below the screen are physical buttons for volume and other functions. The front seats are upholstered in a lighter brown leather with a perforated texture. The door panels also feature the same leather and have a sleek, modern design. The overall aesthetic is one of luxury and modern technology.

YOUR MOBILE COMMAND CENTER.

Traverse High Country Loft Brown leather-appointed interior with Jet Black accents.

FIRST-CLASS CABIN.

Premier and High Country provide perforated leather-appointed seating surfaces and heated and ventilated front seats, along with a heated steering wheel that helps shake off the chill on those cold mornings. Rear passengers haven't been forgotten, with heated seats in the second row.

YOUR GREAT ROOM IS ON THE MOVE.

Traverse offers exceptional overall passenger room so there's space for a growing family or a group of friends. That wide-open feeling continues to a third row that provides lots of leg room when passengers want to stretch out.

SEATING FOR 8. OR 7.

Seating for eight includes second- and third-row flat-folding 60/40 split-bench seats (standard on LS, LT and LT Leather). Seven-passenger seating includes second-row flat-folding captain's chairs (standard on Premier and High Country).

Traverse High Country Loft Brown leather-appointed interior with Jet Black accents.

IT'S ALL IN THE DETAILS.

Bright finishes such as Galvano chrome combine with sophisticated Piano Black accents to heighten the interior experience. The perforated leather appointments in both Premier and High Country provide the luxury you deserve, with High Country adding sueded microfiber accents on the instrument panel and doors.

DON'T FORGET YOUR LAPTOP.

Or anything else in the back seat. Rear Seat Reminder¹ activates when the rear doors are opened and closed up to 10 minutes before or anytime while your vehicle is on, so when you turn off the engine, under certain conditions, you will get a reminder to double-check for valuables left behind.

¹ Does not detect people or items. Always check rear seat before exiting.

Traverse Premier Medium Ash Gray perforated leather-appointed seating with Dark Atmosphere accents.

AS BIG AS YOUR IMAGINATION.

Traverse features a maximum cargo capacity of 2789 L¹ when you fold the second and third rows virtually flat. And even with all the seats up, Traverse offers more than enough cargo space behind the third row.

FILL IT UP.

You'll have to work hard to fill all the storage spaces in Traverse. There are dedicated spots for cell phones, umbrellas and sunglasses, plus a roomy center console and 10 cup holders.

THIRD-ROW CONVENIENCE.

We've added a whole different dimension to convenience with power-folding third-row seating on High Country. A simple touch of the buttons located in the rear cargo area folds the third row up or down, depending on how you plan to use your Traverse today.

¹ Cargo and load capacity limited by weight and distribution. Maximum cargo volume with rear seats folded down.

1

2

3

4

1. CONVENIENCE KICKED UP A NOTCH.

Open and close the hands-free gesture power liftgate by simply using a kicking motion under the rear bumper. LED lighting projects the Chevrolet bowtie so you'll know just where to kick. Standard on Premier and High Country.

2. A PLACE FOR EVERYTHING.

Traverse offers an abundance of open spaces – 24 to be exact – including a front passenger-side pocket that can easily accommodate a tablet.

3. STORAGE IN DISGUISE.

A large underfloor cargo area is easily accessible and is a great place to store valuables, since it's completely hidden from prying eyes – much like the hidden storage behind the touch-screen on LT with leather, Premier and High Country.

4. SLIDE INTO THIRD.

The enhanced Smart Slide® second-row seat lets you slide and tilt forward the passenger-side seat for quick and easy access to the spacious third row. You can even leave an unoccupied forward-facing child seat in place – it just has to be properly installed using the LATCH system.

TECHNOLOGY

1. Apple CarPlay COMPATIBILITY.

With Apple CarPlay,^{TM1} you can simply and smartly connect with some of your most used iPhone® features, including Music, Messages and Phone, right on your touch-screen display.

2. HIDE WHAT OTHERS SEEK.

An 8-inch diagonal color touch-screen, standard on LT with Leather, Premier and High Country, includes hidden, lockable storage behind the display to stow small valuables out of sight. There's also a USB port³ for charging your smartphone.

3. YOU'RE IN CONTROL.

Traction Mode Select lets you adjust performance based on road and surface conditions: Normal for everyday driving, Off-Road on AWD models when you need extra torque for the rear wheels, 4x4 (AWD)/Snow (FWD) for better control on slippery surfaces, and Tow/Haul when pulling a trailer.

¹ Vehicle user interface is a product of Apple and its terms and privacy statements apply. Requires compatible iPhone and data plan rates apply. ² Air bag inflation can cause severe injury or death to anyone too close to the bag when it deploys.

³ Not compatible with all devices. ⁴ Chevrolet Infotainment System functionality varies by model. Full functionality requires compatible Bluetooth and smartphone, and USB connectivity for some devices.

Apple CarPlay is a trademark of Apple Inc. iPhone is a trademark of Apple Inc., registered in the U.S. and other countries.

Be sure every occupant is properly restrained. A NOTE ON CHILD SAFETY: Always use safety belts and the correct child restraint for your child's age and size, even with air bags. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal air bag. See the Owner's Manual and the child safety seat instructions for more safety information.

ON-COMMAND CONNECTIVITY.

Available Chevrolet Infotainment System⁴ lets you handle calls effortlessly, play music and easily access contacts from your compatible smartphone simply by touching the color touchscreen or through voice commands.

FRONT CENTER SIDE-IMPACT AIR BAG.

This industry-first air bag² deploys from the right side of the driver seat and positions itself between the front seats for added cushioning and restraint to help protect the driver and passenger from colliding with one another in the event of a side-impact collision.

HD SURROUND VISION

This new feature can make parallel parking and maneuvering at low speeds into tight garage spaces easier. That's because you get twice the view when you look at just one screen. Using eight strategically placed cameras, Surround Vision creates a

virtual bird's-eye view of the areas immediately surrounding your Traverse. That image is then displayed on the touchscreen next to the image provided by the rear vision camera. Standard on LT Leather models and above.

REAR CAMERA MIRROR.

This technology projects a wide-angle view of the area behind your Traverse. The driver can easily toggle between the mirror surface and a video screen that provides a full, high-resolution view without the obstruction, so you can see more of what's behind you. Standard on LT Leather models and above.

SAFETY

SAFETY STARTS WITH YOU.

Safety features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Read the vehicle Owner's Manual for more important feature limitations and information.

TRAVERSE PUTS SAFETY FIRST. THE SAME WAY YOU DO*

Protection is good, but prevention is better. Offering up to 13 advanced safety technologies, Traverse uses cameras, ultrasonic sensors and radar to sense potential hazards to help you avoid collisions before they happen.

ADAPTIVE CRUISE CONTROL.

This standard feature on High Country maintains your selected cruise speed and following-gap distance, automatically braking when necessary, even in stop-and-go traffic.

FORWARD AUTOMATIC BRAKING.

Using the same radar sensors as Adaptive Cruise Control, Forward Automatic Braking can help mitigate collisions or even prevent them at very low speeds. The system alerts the driver if a detected vehicle slows unexpectedly. Standard on High Country.

LOW SPEED FORWARD AUTOMATIC BRAKING.

Camera-based Low Speed Forward Automatic Braking can help prevent or mitigate collisions at speeds below 80 km/h. Standard on Premier.

FORWARD COLLISION ALERT WITH FOLLOWING DISTANCE INDICATOR.

This available feature continually monitors how close your vehicle is to the vehicle in front of you. If the system determines that a front-end collision with a detected vehicle is imminent, it alerts the driver to a potential crash. It also warns the driver if their Traverse is following a detected vehicle much too closely. Standard on Premier and High Country.

LANE KEEP ASSIST WITH LANE DEPARTURE WARNING.

At speeds above 50 km/h, this available camera-based system monitors road lines and will gently turn the steering wheel if the vehicle begins changing lanes without the use of a turn signal. Standard on Premier and High Country.

LANE CHANGE ALERT WITH SIDE BLIND ZONE ALERT.

Radar sensors in the rear corners of the vehicle help detect fast-approaching vehicles in the adjacent lanes as well as vehicles in the side mirror blind zones. Amber icons in the exterior mirrors indicate a vehicle's presence. Available on LT and Standard on all models above.

REAR CROSS TRAFFIC ALERT.

Using radar sensors, this feature alerts you to crossing traffic behind your Traverse when backing up. Audible warnings, as well as visual alerts on the rear vision camera screen, are triggered if approaching vehicles are detected. Available on LT and Standard on all models above.

REAR VISION CAMERA.

This standard feature displays a view of the area immediately behind the vehicle on the touchscreen – making it easier to see what's behind you while backing up.

REAR PARK ASSIST.

This available feature helps you back up by sounding an audible alert and providing visual indication on the rear vision camera display when it detects certain stationary objects in close proximity behind the vehicle. Available on LT and Standard on all models above.

INTELLIBEAM HEADLAMPS.

When oncoming headlamps are sensed or when taillamps are detected in front of you, the available IntelliBeam® high beam assist intuitively adjusts between low and high beams. Standard on Premier and High Country.

*Safety features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Read the Owner's Manual for more important safety information. Always use safety belts and the correct child restraint for your child's age and size, even with air bags. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal air bag. See the Owner's Manual and the child safety seat instructions for more safety information. Air bag inflation can cause severe injury or death to anyone too close to the air bag when it deploys. Be sure every occupant is properly restrained with seat belts. See the Owner's Manual for more airbag information.

PERFORMANCE

310

HORSEPOWER

3.6L

V6 ENGINE

361

NM OF TORQUE

¹ GM-estimated a combined 11.9 Km/L fuel economy with 3.6L V6 engine. Based on GM testing.

Traverse Premier in
Black Currant Metallic
(extra-cost color).

3.6L V6 ENGINE.

Delivering more than 300 horsepower, this engine provides smooth, effortless performance. And our 3.6L V6 features a number of fuel-saving¹ technologies, such as Variable Valve Timing and Direct Injection, so you don't have to sacrifice efficiency in the name of power.

INTELLIGENT STOP/START TECHNOLOGY.

In certain conditions, the engine will automatically shut off when the brake is applied and the vehicle comes to a stop. When the brake is released, the engine automatically turns back on. It's a smart way to help save gas¹ in stop-and-go city driving. It's also so seamless, you might not notice it at all.

9-SPEED AUTOMATIC TRANSMISSION.

Tuned for smoother shifts and more fuel-efficient¹ cruising, the new 9-speed automatic transmission is standard on Traverse and perfectly complements the 3.6L V6.

Chevrolet reserves the right to change the specifications and colors of any models and items shown in this catalogue at any time. It is important to check with your local Chevrolet Dealer for the latest information on models available for order in your market.

Traverse Premier in
Black Currant Metallic
(extra-cost color).

TOW UP TO 2,268 KG!

With the 3.6L V6 engine and available factory-installed trailering equipment, you can tow a midsize camper, jet skis, a boat or whatever you need on your next adventure.

TRACTION MODE SELECT.

With this system, you can adjust performance based on road and surface conditions with the simple turn of the dial – whether you have front-wheel drive or available all-wheel drive. Normal is your setting for everyday driving and the best fuel efficiency; Off-Road is only for AWD models and sends more torque

to the rear wheels for improved driving on snow, grass, gravel or loose dirt; 4x4 (AWD)/Snow (FWD) helps offer better control when road conditions slippery; and Tow/Haul¹ helps keep Traverse in a lower gear, offering more torque when you're pulling a trailer.

GET AWAY FROM IT ALL. BRING IT ALL WITH YOU.

SWITCHABLE ALL-WHEEL DRIVE.

This available system enhances traction and control on slippery or snow-covered roads. Switchable AWD lets you change between FWD and AWD operation while you're on the go. In FWD mode, the system disengages AWD components for greater fuel efficiency.²

TWIN-CLUTCH ALL-WHEEL DRIVE.

High Country offers an advanced twin-clutch all-wheel-drive system that improves driver control by independently directing torque to the wheel with the best traction in poor road conditions. This helps give the driver superior control as well as a more confident feeling behind the wheel.

GET A HANDLE ON IT.

The 2020 Traverse is more than 136 Kgs lighter than the previous generation. Plus, it features variable-assist Electric Power Steering and a new 5-link independent rear suspension. All that adds up to an SUV with a tighter turning circle and light, nimble steering that helps you feel more connected to the road.

¹ Requires available trailering equipment. Before you buy a vehicle or use it for trailering, carefully review the Trailering section of the Owner's Manual. The weight of passengers, cargo and options or accessories may reduce the amount you can tow. ² GM-estimated 11.9 Km/L fuel economy with 3.6L V6 engine. Based on GM testing.

SELECT VEHICLE FEATURES

TRAVERSE LS

3.6L V6 engine with stop/start technology
9-Speed automatic transmission
Dual-outlet exhaust with round tips
Traction Mode Select
StabiliTrak® Electronic Stability Control with Traction Control
Frontal and side-impact air bags ¹ for driver and front passenger, includes Passenger Sensing System; driver inboard seat-mounted side-impact air bag; and head-curtain side-impact air bags for all rows in outboard seating positions
Tire Pressure Monitoring System with Tire Fill Alert ²
LATCH (Lower Anchors and Tethers for Children) system for child safety seats
Rear vision camera
LED daytime running lamps
High-intensity discharge (HID) headlamps
Outside heated power-adjustable manual-folding black mirrors
Black bodyside moldings and rocker moldings
Body-color door handles
18" Bright Silver-painted aluminum wheels
Chevrolet Infotainment System ³ Radio with 7-inch diagonal Color Touchscreen, AM/FM stereo, Bluetooth® audio streaming, ⁴ and Apple CarPlay™ ⁵ compatibility
Bluetooth wireless technology ⁴ for select phones with steering wheel-mounted controls
Six USB ports ⁶
Driver Information Center with 3.5-inch diagonal monochromatic display
Compass with digital display
Keyless Open and Start
Steering wheel-mounted controls for audio, phone and cruise
Power windows with driver and front passenger express-down
Tri-zone automatic climate control with individual climate settings for driver, front passenger and rear seats
Interior lighting with theater dimming, cargo light, reading lights for front seats, second-row reading lamps and door- and tailgate-activated switches
8-Passenger seating with Premium Cloth seating surfaces
10 Cup holders
Rear Seat Reminder
Compact spare tire
Solar absorbing glass
Trailer equipment: Heavy-duty cooling system and trailer hitch

TRAVERSE LT CLOTH (1LT)

In addition to or replacing LS features, LT Cloth includes:

Power windows with driver express-up/-down and front passenger express-down
Outside heated power-adjustable manual-folding body-color mirrors with turn signal indicators
Foglamps
Roof rails
8-Way power driver seat with power lumbar control
3-Spoke leather-wrapped steering wheel

TRAVERSE LT LEATHER (3LT)

In addition to or replacing LT Cloth features, LT Leather includes:

Surround Vision with bird's-eye view (includes rear vision camera)
Side Blind Zone Alert with Rear Cross Traffic Alert
Rear Park Assist with audible warning
SkyScape® power tilt-sliding sunroof and fixed rear skylight with sunscreen
Rear power liftgate with programmable height adjustment
Remote vehicle starter system
Chevrolet Infotainment System ⁴ Radio with Navigation and 8-inch diagonal Color Touchscreen with motorized power up/down and hidden storage
BOSE® Premium 10-speaker sound system with Richbass® woofer in center console
Enhanced Driver Information Center with 4.2-inch diagonal multi-color display
Inside rearview auto-dimming Rear Camera Mirror with full camera display
Leather-appointed seating surfaces
6-Way power front passenger seat with power lumbar control
Heated driver and front passenger seats
230-Volt power outlet on rear of center console
Universal Home Remote programmable transmitter

TRAVERSE PREMIER

In addition to or replacing LT Leather features, Premier includes:

Dual-outlet exhaust with rectangular tips
LED D-Optic bi-function projector-beam headlamps
Outside heated power-adjustable manual-folding body-color mirrors with turn signal indicators and auto-dimming feature
Body-color moldings with chrome inserts
Chrome door handles
7-Passenger seating with second-row captain's chairs
20" Argent Metallic machined-face aluminum wheels
Hands-free power rear liftgate with Chevrolet emblem projection
IntelliBeam automatic high beam assist
Memory for power driver seat, outside mirror and steering column settings
Power tilt and telescopic steering column
Heated steering wheel
Perforated leather-appointed seating with ventilated driver and front passenger seats
Heated second-row captain's chairs
Wireless charging for devices ⁷
Front Pedestrian Braking
Lane Keep Assist with Lane Departure Warning

TRAVERSE HIGH COUNTRY

In addition to or replacing Premier features, High Country includes:

All-wheel-drive system with automatic locking rear differential with twin clutch
Forward Collision Alert and Following Distance Indicator
20" Polished-aluminum wheels
Adaptive Cruise Control with Forward Automatic Braking
Power-folding third-row 60/40 split-bench seat

¹ A NOTE ON CHILD SAFETY: Always use safety belts and the correct child restraint for your child's age and size, even with air bags. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal air bag. See the Owner's Manual and the child safety seat instructions for more safety information. ² Excludes spare tire. ³ Chevrolet Infotainment System functionality varies by model. Full functionality requires compatible Bluetooth and smartphone, and USB connectivity for some devices. ⁴ Vehicle user interface is a product of Apple and its terms and privacy statements apply. Requires compatible iPhone and data plan rates apply. ⁵ Not compatible with all devices. ⁶ Does not detect people or items. Always check rear seat before exiting. ⁷ The system wirelessly charges one PMA- or Qi-compatible mobile device. Some devices require an adaptor or back cover.

TRANSPARENT PRICING

24/7 FOUR-YEAR REGIONAL ROADSIDE ASSISTANCE

When you buy a Chevrolet, you don't just take home a new car. You also enjoy the peace of mind that makes driving your Chevrolet a pleasant experience.

MIDDLE EAST VEHICLE TESTING

Every Chevrolet is tested in the region, so we know it can withstand the climate. Then, before launch, we check and double-check every inch of the vehicle for optimal performance. Chevrolet specifically develops many of its features – including its air conditioning, engine cooling systems and paint – to perform in tough conditions. The result is a car you can depend on.

COURTESY VEHICLE PROGRAM

Chevrolet strives for your convenience. In the unlikely event of a warranty repair involving extended repair times, you may be offered a suitable courtesy vehicle for your convenience.

CHEVROLET PARTS

Chevrolet's region-wide dealer network is supported by a well-stocked parts distribution center, ensuring constant availability of parts to keep your vehicle on the road. Chevrolet parts are priced to ensure low cost of maintenance and at the same time guarantee that you get genuine parts at competitive prices.

CHEVROLET CERTIFIED PRE-OWNED VEHICLES

All of our Certified Pre-Owned vehicles come with the confidence of:

- A 110+ point quality inspection
- A minimum 12-month warranty
- 24-hour roadside assistance
- A 7-day exchange option

Terms and conditions apply. Please contact your local Chevrolet dealer for more information.

COST OF MAINTENANCE

MINIMAL MAINTENANCE. MAXIMUM ENJOYMENT.

The Traverse delivers affordability well beyond the showroom floor – it's been designed and engineered with minimal maintenance features that keep you on the road for less.

The cam drive, cam phasing and valvetrain components require no scheduled maintenance.

The sophisticated cam-chain tensioner, high-quality cam phasing components and hydraulic lash adjusters are designed to ensure optimal valvetrain performance with no adjustment for the life of the engine.

Advanced control electronics and a wide range of sensors allow fail-safe systems, including ignition operation in the event of timing sensor failures.

Control software protects the engine from permanent damage in the event of complete coolant loss, allowing the engine to operate at reduced power for a prescribed distance sufficient for the driver to find service.

SCHEDULED MAINTENANCE

To complement Traverse's intelligent and protective engineering, regular scheduled maintenance will keep it running further and longer. To keep your vehicle in perfect condition, work should be carried out at regular intervals, according to the recommendations in your owner's manual.

MENU PRICING

As time and kilometers pass, certain wear-and-tear items will need replacing. Whether it's wiper blades, shock absorbers, or brake pads, it's all covered in Menu Pricing and our competitive prices will help you keep your Traverse on the road with minimal cost. Check with your dealer for details or log on to chevroletarabia.com
