THE ALL-NEW
bZ4X
IT JUST GOT REAL

IT JUST GOT REAL

You need a vehicle that can handle your world. The bZ4X can do just that. The bZ4X is Toyota's first-ever battery electric vehicle in South Africa, but this isn't an EV that's built for the future. It's made for right now. This capable, all-wheel drive SUV is just as comfortable off-road as it is on it. It isn't made to just cope with South Africa, it's here to tackle it head on.

IT JUST GOT REAL IN THE ALL-NEW bZ4X.

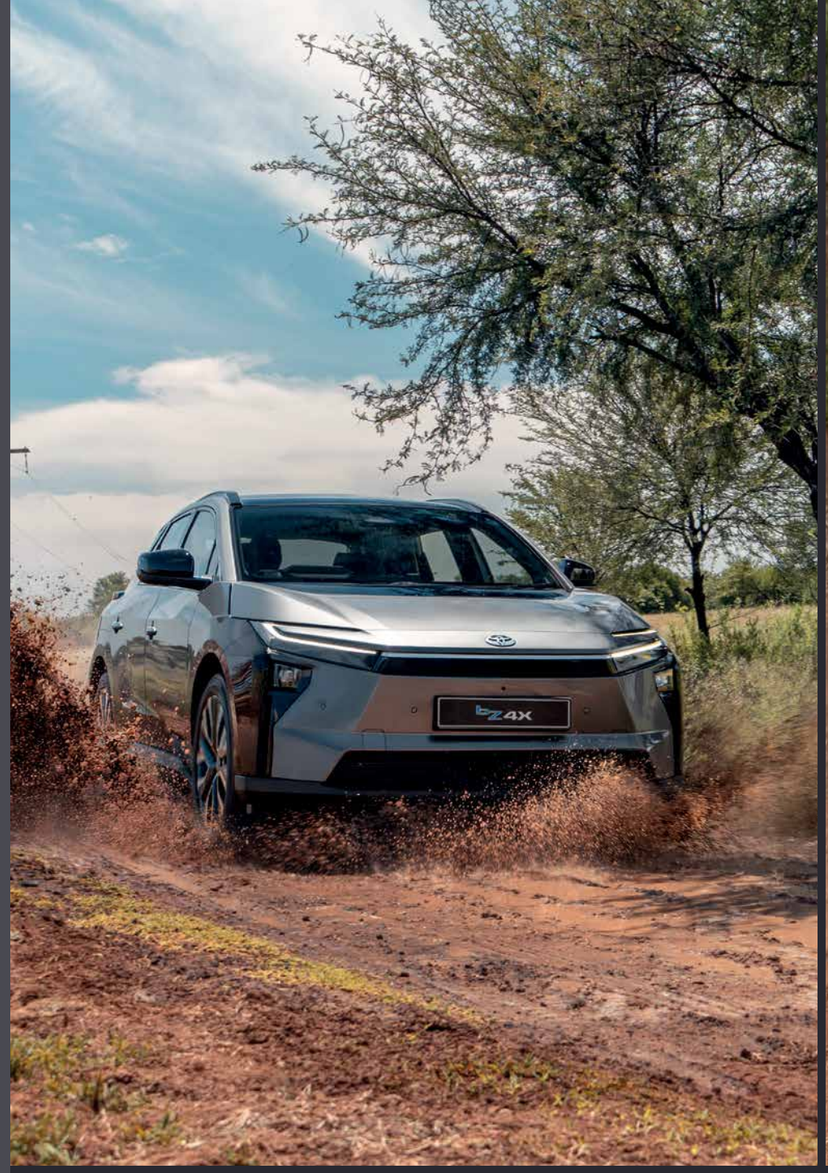
MODEL SHOWN: bZ4X

MODEL LINE-UP

CHOOSE HOW YOU GET REAL

Choose between either the bZ4X or the bZ4X Touring. Both are ready to change your perceptions of electric vehicles and elevate your driving experience.

MODEL SHOWN: bZ4X Touring



MODEL SHOWN: bZ4X

PERFORMANCE JUST GOT REAL

Experience the exhilaration of real power instantaneously when your foot touches the accelerator, because there are no delays in the all-electric, all powerful, bZ4X.

The bZ4X is powered by a 73.1 kWh lithium-ion battery, providing a projected driving range of approximately 450–480 km*, with an electric motor power of 255.3kW. The bZ4X Touring is powered by an 80.5kWh lithium-ion battery with an approximate driving range of 460-488km*, with an electric motor power of 334kW.

Both models are driven by a dedicated dual-motor E-Four all-wheel-drive system, delivering power to all corners with the kind of confidence to tame any road.

Plus, with a 750kg (braked) towing capacity in both the bZ4X and the bZ4X Touring, it doesn't ask you to change how you live or drive, just take it a step further.

*Electric range figures are the maximum official test values from the Worldwide Harmonized Light Vehicles Test Procedure (WLTP) provided for comparison purposes. These can vary depending on factors: such as selected grade and transmission, accessories fitted (post-registration), driving style, weather conditions, speed, vehicle and battery age, and vehicle load. Figures are obtained after the battery is fully charged. It is best to only compare electric range figures with other cars tested to the same technical procedures. These figures may not reflect your real-life driving results.

REAL STYLE

MAKE A STATEMENT WHETHER YOU'RE CRUISING THROUGH THE CITY OR TAKING ON SOME OFF-ROAD TRAILS.

Make a statement whether you're cruising through the city or taking on some off-road trails. The new bZ4X doesn't look like anything that came before it. And that's the point. At the front, the hammerhead-inspired face makes its intentions clear. Wide, purposeful, and unapologetic.

Each corner carries that character, integrating LED headlamps, aerodynamic features and sensors into a design that's as functional as it is striking. Its stance is broad and confident; with 20-inch alloys that fill every arch.

The bZ4X Touring features a rugged, estate-like design with a longer body and a refined rear end with a robust lower bumper. The bZ4X Touring doesn't just talk the talk though, it also adds functional roof rails that can support up to 70kg.

FROM THE OFFICE PARK TO THE WILDS, THE bZ4X IS READY FOR ACTION.

MODEL SHOWN: bZ4X Touring

REAL SOPHISTICATION

Step inside one of the most sophisticated Toyotas ever made, complete with leather seats with power lumbar support in the driver's seat. The bZ4X makes its intentions clear, with the driver and occupants at the centre of everything.

Behind the leather steering wheel, the controls give you an intuitive connection, so that driving the bZ4X feels less like operating a car, and more like an extension of your instincts.

WHEN YOU TURN YOUR EYES TO THE ROOF OF THE VEHICLE, YOU'LL NOTICE A PANORAMIC ROOF. A FLICK OF THE BUTTON OPENS IT UP TO STRETCH LIGHT AND SPACE ACROSS THE CABIN TO GIVE PASSENGERS AN INCREDIBLE VIEW.

The premium JBL sound system powering 9 speakers means the soundtrack to your getaway is as thrilling as the destination itself. A high-resolution, 12.3-inch touchscreen infotainment screen, heads-up display and dual wireless charging pads all add to an elevated driving experience, even when you're roughing it.

A digital rearview mirror takes driver visibility up a notch with a rear-mounted camera to stream live video to a screen on your rear-view mirror. It provides a wider, obstruction-free field of view and superior night visibility.

MODEL SHOWN: bZ4X

IT JUST GOT REAL EASY

EVEN THOUGH THE TERRAIN YOU'RE TACKLING MAY BE TOUGH, INSIDE THE bZ4X THINGS ARE MADE INCREDIBLY EASY FOR YOU.

Android Auto, Apple CarPlay, voice recognition, over-the-air software updates, and intelligent parking assist with a panoramic view monitor all mean that when you're behind the wheel of the bZ4X, you're in complete control.

Added to that, seat heaters and ventilation, seat lumbar support and dual-zone climate control make the ride comfortable and luxurious for every passenger in the car.

MODEL SHOWN: bZ4X

REAL ADVANCED

Driving the cutting-edge of technology doesn't feel like a foreign experience, it feels like stepping things up a notch.

All-electric means zero delays. Powered by a high-capacity, lithium-ion battery and advanced electric motors, the bZ4X and bZ4X Touring deliver smooth, instant acceleration, while regenerative braking quietly recaptures energy every time you slow down.

Once you're ready to hit the road, a 7-inch Multi-Information Display allows you to view every detail you need to know about your vehicle. Smart battery management systems optimise performance and longevity in real-world South African conditions.

PLUGGING IN IS EASY. AFTER THAT, IT'S PLAY TIME.

The battery is charged by plugging into an external power source including:

- DC fast-charging stations
- AC public charging
- AC home charging

Charging times vary depending on battery capacity and charging power.

	bZ4X	bZ4X Touring
DC Charger (0-80%)	150kW at 29 mins	150kW at 30 mins
AC Charger (Public) (0-80%)	22kW at 3h 19 mins	22kW at 3h 24 mins
AC Charger (Home) (0-80%)	2.3kW at 31h	2.3kW at 32h

*While charge times are indicated for comparison, they may vary depending on various factors: such as the model, battery option, age, type, condition and temperature of the charging unit and the battery, the starting charge, the charger's power supply, and the environmental conditions at the point of use. Charge times will be longer in colder weather and if battery temperature activates safeguarding technology.

SAFETY

REAL PROTECTION. FOR REAL LIFE.

The road may be unpredictable, but the new bZ4X isn't. Inside, a full airbag suite (including a front centre airbag) means every occupant is considered.

Toyota Safety Sense, a suite of accident-avoiding interventions, comes standard on both the bZ4X and bZ4X Touring. It watches, anticipates, and acts to protect you from the moment you leave home.

An Anti-Lock Braking System (ABS) modulates excess brake pressure to allow for continued tyre rotation under extreme braking conditions, bringing you to a stop in time and safely.

Electronic Brake-Force Distribution (EBD) distributes braking force to allow for variances in weight distribution and tyre grip under braking, increasing stability and vehicle control.

When taking on hills, you'll have Downhill Assist Control (DAC) which is a driver-assistance system that maintains a slow, stable speed on steep or slippery downhill slopes and Hill Assist Control (HAC) that prevents the vehicle from rolling back when starting on a steep incline.

Lane Keeping System (LKS) with Lane Trace Assist helps you stay within your lane by providing both warnings and steering assistance. Ensuring that every passenger in the bZ4X is as safe as possible, the vehicle is also equipped with a Pre-crash System that warns you of oncoming vehicles or pedestrians and automatically intervenes if you don't brake in time.

A Blind Spot Monitor detects cars you may not be able to see, Rear Cross Traffic Alert (RCTA) uses radar sensors to detect vehicles approaching from the sides and behind the vehicle, and alerts the driver with visual and audible warnings.

Automatic High Beam (AHB) automatically switches between high and low beams based on surrounding light conditions and the presence of other vehicles.

Plus, to keep you in charge when you're off-road, Intelligent Multi-Terrain Select (MTS) is an advanced off-road traction control system that automatically manages engine throttle, braking, and drive force to optimise performance on challenging surfaces like mud, sand, rock, or snow. Crawl Control, an advanced off-road, low-speed cruise control system, automatically manages throttle and braking on challenging terrain, allowing you to focus solely on steering.

THE bZ4X ISN'T MADE FOR THE FUTURE, IT'S MADE FOR RIGHT NOW, BUT WITH ALL ITS ADVANCED TECH AND SAFETY FEATURES, IT WILL FEEL LIKE A WHOLE NEW WORLD.

MODEL SHOWN: bZ4X

TOYOTA ENVIRONMENTAL CHALLENGE 2050

AT TOYOTA, CREATING TECHNOLOGICALLY ADVANCED VEHICLES ISN'T OUR ONLY PRIORITY; WE'RE COMMITTED TO LOWERING OUR ENVIRONMENTAL IMPACT THROUGHOUT OUR ENTIRE PRODUCTION PROCESS. HOW? BY SETTING OURSELVES SIX CHALLENGES THAT WILL SEE US REACH A TRULY WORLD-CHANGING GOAL - A POSITIVE ENVIRONMENTAL IMPACT BY 2050.

The message is clear – Toyota Motor Corporation (TMC) wholeheartedly supports the Paris Agreement and accepts the challenge to achieve carbon neutrality by 2050. The Paris Agreement is a legally-binding international treaty on climate change and is aimed at reducing the emission of gases that contribute to global warming. While this treaty was only adopted in 2015, Toyota has been innovating and investing in technology to reduce emissions and achieve carbon neutrality for well over 30 years. Toyota has also led the way with more electrified vehicles on the road than any other automaker.

CARBON NEUTRAL

THE TOYOTA bZ4X HAS BEEN MANUFACTURED TO MINIMISE ITS CARBON FOOTPRINT.

Guided by the goals of the Toyota Environmental Challenge 2050, as little impact as possible is made on the environment during each step of the process. From design to manufacturing, to end-of-life recycling programmes, our planet always comes first. This is because the ultimate long-term goal for Toyota is to make all our vehicles as environmentally friendly as possible. With this in mind, the entire bZ4X range has been designed to have very low CO_2 emissions.

ZERO CO_2

CHALLENGE 1

NEW VEHICLE ZERO CO_2 EMISSIONS CHALLENGE

By owning a Toyota you would be contributing to the reduction of vehicle CO_2 emissions by 90% in 2050 as opposed to 2010. You will help us promote the development of next-generation vehicles and further accelerate the spread of these vehicles.

ZERO CO_2

CHALLENGE 2

LIFE CYCLE ZERO CO_2 EMISSIONS CHALLENGE

You are lending a helping hand to Toyota's efforts to reduce to zero not only CO_2 emissions produced in travelling and manufacturing, but all CO_2 emissions including the process of materials production, disposal and recycling of vehicles.

ZERO CO_2

CHALLENGE 3

PLANT ZERO CO_2 EMISSIONS CHALLENGE

You uphold the two main pillars of our strategy to achieve zero CO_2 emissions at our plants which are:

1. Developing and introducing low-CO_2 technologies with ongoing kaizen.
2. Adopting renewable energy sources and utilising hydrogen energy.

CHALLENGE 4

CHALLENGE OF MINIMISING AND OPTIMISING WATER USAGE

In automobile manufacturing, we use water in painting, forging and other processes. Therefore, even a small reduction of its impact on the water environment is important. We have two measures to achieve this - comprehensive reduction of the amount of water used and comprehensive purification of the water and returning it to the earth.

CHALLENGE 5

CHALLENGE OF ESTABLISHING A RECYCLING-BASED SOCIETY AND SYSTEMS

You have contributed to our 40 years on the challenge of resource recycling. Going forward, by rolling out to the world the technology and systems evolved in Japan, we will all continueworking on the challenge of establishing a recycling-based society.

CHALLENGE 6

CHALLENGE OF ESTABLISHING A FUTURE SOCIETY IN HARMONY WITH NATURE

Here at Toyota we have engaged in planting trees at our plants and environmental conservation activities in our surrounding areas. To establish a society where humans and nature coexist in harmony, we are promoting several activities to connect regions, the world and the future.

TOYOTA IS SERIOUS ABOUT COMBATING THE PROBLEMS ASSOCIATED WITH WASTE TYRES IN THE COUNTRY AND HAS THEREFORE TAKEN UP ITS PRODUCER RESPONSIBILITY AS DEFINED BY THE WASTE MANAGEMENT ACT OF 2008. WASTE TYRE REGISTRATION NUMBER: TPREG0031GAU

GET CONNECTED WITH MyTOYOTA

IN-CAR WI-FI, ROADSIDE ASSISTANCE AND MUCH MORE

All Toyota vehicles can now be connected to the MyToyota App on your mobile phone, giving you more control of your driving experience and opening up a whole new world of personalised offerings and customisable features, so that you can enjoy:

- **IN-CAR WI-FI***
  Connect to Wi-Fi
- **GPS LOCATOR**
  Always know your vehicle's GPS location
- **LOGBOOK**
  Have access to a digital logbook
- **DRIVER NOTIFICATIONS**
  Important reminders like licence renewal
- **BATTERY HEALTH CHECK**
  Check your battery health
- **SERVICE BOOKING**
  Manage your services
- **ROADSIDE ASSISTANCE**
  Get real-time roadside assistance
- **DRIVER RATING**
  Receive a driver rating
- **FLEET MANAGEMENT**
  Monitor your fleet
- **LICENCE RENEWAL**
  Renew from the App

AND MORE - The above features are not all; there are loads of other features available to further enhance driver and guest safety, convenience and comfort; and plenty more to come to make your drive experience better and better with every kilometre.

DOWNLOAD THE APP AND GET CONNECTED TODAY

KEEP YOUR TOYOTA GENUINE

Toyota vehicles are known for their Quality, Durability and Reliability. Keeping your Toyota Genuine means no compromises in terms of safety, performance and resale value. The range of Genuine Products and Approved Services will ensure complete peace of mind throughout the ownership journey and beyond. For more information on how to Keep Your Toyota Genuine visit www.toyota.co.za/owners/genuine-parts

TOYOTA GENUINE PRODUCTS

For guaranteed fit and function, **Genuine Parts** are essential in maintaining the safety and reliability of your vehicle. They also comply with all safety, regulatory and environmental requirements, making it the obvious choice. The same exacting precision applies to **Toyota Accessories**, developed by engineers with extensive knowledge on vehicle integration - you can enhance the appeal and functionality of your bZ4X without compromising its safety features or warranty. Warranties are about peace of mind, and the **Genuine Unlimited Warranty** is designed to provide superior cover (up to 10 years, unlimited mileage) and a seamless claims process thanks to full integration with Toyota systems. The **Genuine Extended Service Plan** also enjoys exclusive approval by Toyota SA and provides flexible extension options up to 10 years or 300 000 km to suit your period of ownership. Paying today's rates for tomorrow's maintenance is a sensible way to protect the resale value of your bZ4X by means of a full service history.

TOYOTA APPROVED SERVICES

Specialised vehicle maintenance requires first-class facilities, advanced equipment and expert knowledge. **Toyota Quality Service and Value Service** not only promise accurate diagnosis and repair, but also a philosophy of building trust through a genuine concern for the needs of our customers. To complement the extensive network of Toyota dealers, we have a vast number of **Accredited Body and Paint Repairers**, selected on stringent criteria to ensure outstanding workmanship and customer service. You can maintain your vehicle's pristine condition without compromising its warranty thanks to the exclusive use of Genuine Parts by our Accredited Repairers. Offering 24-hour access to a full complement of assistance and recovery benefits, **Toyota Roadside Assistance** provides the peace of mind that competent support is only a phone call away.

TOYOTA GENUINE MEANS

✓ UNCOMPROMISED SAFETY ✓ GUARANTEED QUALITY ✓ PEACE OF MIND

Toyota Financial Services

TOYOTA FINANCIAL SERVICES

There is no 'one-size-fits-all' when it comes to vehicle finance and insurance, there is only you. With fast, flexible and convenient services we will structure the perfect bZ4X deal for you.

At Toyota Financial Services, we believe that purchasing your Toyota should be as enjoyable as driving it. Toyota Financial Services is the fast, flexible and convenient means of financing your bZ4X.

We have created a range of finance products that suit both private and business customers, easily accessible through your local Toyota dealer. We take the hassle out of arranging finance.

Toyota Financial Services (South Africa) Ltd is an authorised Financial Services (FSP No. 7454) and Registered Credit Provider (NCRCP62).
