

# HIACE

## Ses'fikile

MODEL SHOWN: Ses'fikile 2.7l petrol 16-seater

# THE BEAT OUR CITY MOVES TO

There is a rhythm to our city, alive and composed by the people moving to its colourful energy. The Hiace is here to make sure we keep up with the tempo of the ever-present musical hustle and bustle. Purpose-built around the backbone of Toyota's hallmarks; Quality, Durability and Reliability – to become South Africa's most desired taxi.

It has the exclusivity and comfort that people queue up for.

Whether it's the 14- or the 16-seater, here is a minibus that has the power to drive you in comfort, style and safety. The Hiace is here to turn up the volume and keep our people moving to the groove that is South Africa.

## MODEL LINE-UP:

- Ses'fikile 2.7l petrol 16-seater
- Ses'fikile 2.5l diesel 16-seater
- Hiace 2.5l diesel GL Bus 14-seater

MODEL SHOWN: Hiace 2.5l GL Bus 14-seater

MODEL SHOWN: Ses'fikile 2.5l diesel 16-seater

# WITH YOU FOR THE LONG RUN

The 16-seater Ses'fikile has the option of a 2.7l four-cylinder VVT-i petrol engine (Variable Valve Timing – intelligent) or a 2.5l D-4D intercooled common rail turbo-diesel engine, both boasting low fuel consumption and reduced emissions, providing a satisfying and economical drive experience.

The 14-seater bus offers a 2.5l engine with diesel-common rail fuel injection and 5-speed manual transmission to effortlessly keep people moving and arriving at their destinations from sunrise to sunset.

## HOMeward BOUND SAFE AND SOUND

Our taxis play an essential role in getting many South Africans to their different destinations.

Along with all the mandatory taxi recapitalisation safety specifications, the Hiace ensures that drivers and passengers are afforded the maximum protection with roof and window emergency exits, driver and front passenger airbags, central locking and safety belts for every passenger.

Also standard is the fitment of:

The Anti-lock Braking System (ABS) and Brake Assist (BA) technology help you navigate life's unpredictable moments with maximum safety. Hill-Assist Control (HAC) makes sure uphill take-offs are one less thing to worry about, and Vehicle-Stability Control (VSC) helps with cornering and prevents side skids, keeping you pointing in the right direction at all times.

Traction Control (TRC) is an active safety system that helps improve driving stability on slippery roads. TRC keeps the wheels from spinning when starting or accelerating by controlling braking and engine output.

\* Available on 2.5D GL Bus 14-seater.  
\*\* Available on Ses'fikile models.

Toyota vehicles are known for their Quality, Durability and Reliability. Keeping your Toyota Genuine means no compromises in terms of safety, performance and resale value. The range of Genuine Products and Approved Services will ensure complete peace of mind throughout the ownership journey and beyond. For more information on how to Keep Your Toyota Genuine visit [www.toyota.co.za/owners/genuine-parts](http://www.toyota.co.za/owners/genuine-parts)

### TOYOTA GENUINE PRODUCTS

For guaranteed fit and function, **Genuine Parts** are essential in maintaining the safety and reliability of your vehicle. They also comply with all safety, regulatory and environmental requirements, making it the obvious choice. The same exacting precision applies to **Toyota Accessories**, developed by engineers with extensive knowledge on vehicle integration - you can enhance the appeal and functionality of your Hiace without compromising its safety features or warranty. Warranties are about peace of mind, and the **Genuine Unlimited Warranty** is designed to provide superior cover (up to 10 years, unlimited mileage) and a seamless claims process thanks to full integration with Toyota systems. The **Genuine Extended Service Plan** also enjoys exclusive approval by Toyota SA and provides flexible extension options up to 10 years or 300 000 km to suit your period of ownership. Paying today's rates for tomorrow's maintenance is a sensible way to protect the resale value of your Hiace by means of a full service history.

### TOYOTA APPROVED SERVICES

Specialised vehicle maintenance requires first-class facilities, advanced equipment and expert knowledge. **Toyota Quality Service and Value Service** not only promise accurate diagnosis and repair, but also a philosophy of building trust through a genuine concern for the needs of our customers. To complement the extensive network of Toyota dealers, we have a vast number of **Accredited Body and Paint Repairers**, selected on stringent criteria to ensure outstanding workmanship and customer service. You can maintain your vehicle's pristine condition without compromising its warranty thanks to the exclusive use of Genuine Parts by our Accredited Repairers. Offering 24-hour access to a full complement of assistance and recovery benefits, **Toyota Roadside Assistance** provides the peace of mind that competent support is only a phone call away.

# TOYOTA GENUINE MEANS

✓ UNCOMPROMISED SAFETY    ✓ GUARANTEED QUALITY    ✓ PEACE OF MIND

# TOYOTA ENVIRONMENTAL CHALLENGE 2050

At Toyota, creating technologically advanced vehicles isn't our only priority; we're committed to lowering our environmental impact throughout our entire production process. How? By setting ourselves six challenges that will see us reach a truly world-changing goal: a positive environmental impact by 2050.

ZERO CO<sub>2</sub>

## CHALLENGE 1

### NEW VEHICLE ZERO CO<sub>2</sub> EMISSIONS CHALLENGE

By owning a Toyota you would be contributing to the reduction of vehicle CO<sub>2</sub> emissions by 90% in 2050 as opposed to 2010. You will help us promote the development of next-generation vehicles and further accelerate the spread of these vehicles.

ZERO CO<sub>2</sub>

## CHALLENGE 3

### PLANT ZERO CO<sub>2</sub> EMISSIONS CHALLENGE

You uphold the two main pillars of our strategy to achieve zero CO<sub>2</sub> emissions at our plants which are:

1. Developing and introducing low-CO<sub>2</sub> technologies with ongoing kaizen.
2. Adopting renewable energy sources and utilizing hydrogen energy.

## CHALLENGE 5

### CHALLENGE OF ESTABLISHING A RECYCLING-BASED SOCIETY AND SYSTEMS

You have contributed to our 40 years on the challenge of resource recycling. Going forward, by rolling out to the world the technology and systems evolved in Japan, we will all continue working on the challenge of establishing a recycling-based society.

TOYOTA IS SERIOUS ABOUT COMBATING THE PROBLEMS ASSOCIATED WITH WASTE TYRES IN THE COUNTRY AND HAS THEREFORE TAKEN UP ITS PRODUCER RESPONSIBILITY AS DEFINED BY THE WASTE MANAGEMENT ACT OF 2008. WASTE TYRE REGISTRATION NUMBER: TPREG0031GAU

The message is clear – Toyota Motor Corporation (TMC) wholeheartedly supports the Paris Agreement and accepts the challenge to achieve carbon neutrality by 2050. The Paris Agreement is a legally-binding international treaty on climate change and is aimed at reducing the emission of gases that contribute to global warming. While this treaty was only adopted in 2015, Toyota has been innovating and investing in technology to reduce emissions and achieve carbon neutrality for well over 30 years. Toyota has also led the way with more electrified vehicles on the road than any other automaker.

TOWARDS  
CARBON  
NEUTRAL

THE TOYOTA HIACE RANGE HAS BEEN MANUFACTURED TO MINIMISE ITS CARBON FOOTPRINT.

Guided by the goals of the Toyota Environmental Challenge 2050, as little impact as possible is made on the environment during each step of the process. From design to manufacturing, to end-of-life recycling programmes, our planet always comes first. This is because the ultimate long-term goal for Toyota is to make all our vehicles as environmentally friendly as possible. With this in mind, the entire Hiace range has been designed to have very low CO<sub>2</sub> emissions.

ZERO CO<sub>2</sub>

## CHALLENGE 2

### LIFE CYCLE ZERO CO<sub>2</sub> EMISSIONS CHALLENGE

You are lending a helping hand to Toyota's efforts to reduce to zero not only CO<sub>2</sub> emissions produced in travelling and manufacturing, but all CO<sub>2</sub> emissions including the process of materials production, disposal and recycling of vehicles.

## CHALLENGE 4

### CHALLENGE OF MINIMISING AND OPTIMISING WATER USAGE

In automobile manufacturing, we use water in painting, forging and other processes. Therefore, even a small reduction of its impact on the water environments is important. We have two measures to achieve this, comprehensive reduction of the amount of water used and comprehensive purification of the water and returning it to the earth.

## CHALLENGE 6

### CHALLENGE OF ESTABLISHING A FUTURE SOCIETY IN HARMONY WITH NATURE

Here at Toyota we have engaged in planting trees at our plants and environmental conservation activities in our surrounding areas. To establish a society where humans and nature coexist in harmony, we are promoting several activities to connect regions, the world and the future.
