CHOOSE YOUR PERFORMANCE.

COOPER

A 1.5-l 3-cylinder petrol engine (136 hp/100 kW) offers a handy blend of power and fuel economy. It hosts a safety bar, tailgate handle and radiator grille fins in high-gloss black and exhaust tailpipes in Chrome.

COOPER S

To really take things up a gear, climb aboard the MINI Convertible Cooper S. Under the bonnet it boasts a 2.0-l MINI TwinPower Turbo 4-cylinder engine that generates 192 hp/141 kW. The air intakes in the front bumper and the air scoop in the bonnet, rear apron with diffuser and central twin exhaust tailpipe all hint at the power waiting to be unleashed on the road.

JOHN COOPER WORKS

With a 2.0-l 4-cylinder petrol engine (231 hp/170 kW), the John Cooper Works packs the biggest punch. The standard John Cooper Works aerodynamic kit includes front and rear bumpers with sporty John Cooper Works styling and part-painted side sills which underline the John Cooper Works heritage.
