## BUILDING SAFETY, STARTS WITH THE FRAME\*

Drive with confidence knowing that the Suburban has a fully boxed frame and reinforced safety cage with strategically placed crush zones to help maintain the integrity of the passenger compartment in the event of a collision.

Suburban offers up to seven standard air bags including an available class-exclusive front center airbag (standard on Suburban models with front bucket seats), designed to activate between the driver and front passenger to offer added protection in side-impact collisions.

## THE WORLD RIGHT AT YOUR FINGERTIPS.

Suburban is all about convenience. Which is why, as long as the key fob is in your pocket or purse, or anywhere inside the Suburban, you can start the engine with the push of a button.

The available Chevrolet Infotainment System lets you arrange icons and features on the crisp color touchscreen. Touch and swipe on the screen just like you do on your smartphone or tablet to access a host of features like 3D navigation, internet radio as well as all your favorite music content when your smartphone is connected via Bluetooth.

SATIN STEEL METALLIC

## FIND NEW ROADS™

\*Safety features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Read the Owner's Manual for more important safety information. Always use safety belts and the correct child restraint for your child's age and size, even with air bags. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal air bag. See the Owner's Manual and the child safety seat instructions for more safety information. Air bag inflation can cause severe injury or death to anyone too close to the air bag when it deploys. Be sure every occupant is properly restrained with seat belts. See the Owner's Manual for more air bag information.
