

The Kia EV9

Here to reshape the way
we move.

Movement that inspires

Design

We believe in movement that inspires. Design that makes a statement. Technology that changes the game. The boundary-pushing EV9 is built to enrich your life with new experiences: the bold and rugged exterior and the more sustainable interior are all designed to open a new world of possibilities and pleasure on the road.

The Kia EV9 marks a pioneering milestone as the first model to embrace the brand's design sustainability strategy, which aims to phase out the use of leather, apply ten must-have sustainable items to new Kia models and continuously increase the use of bio-based materials.

Black Artificial Leather Upholstery

The black

Artificial Leather Seats

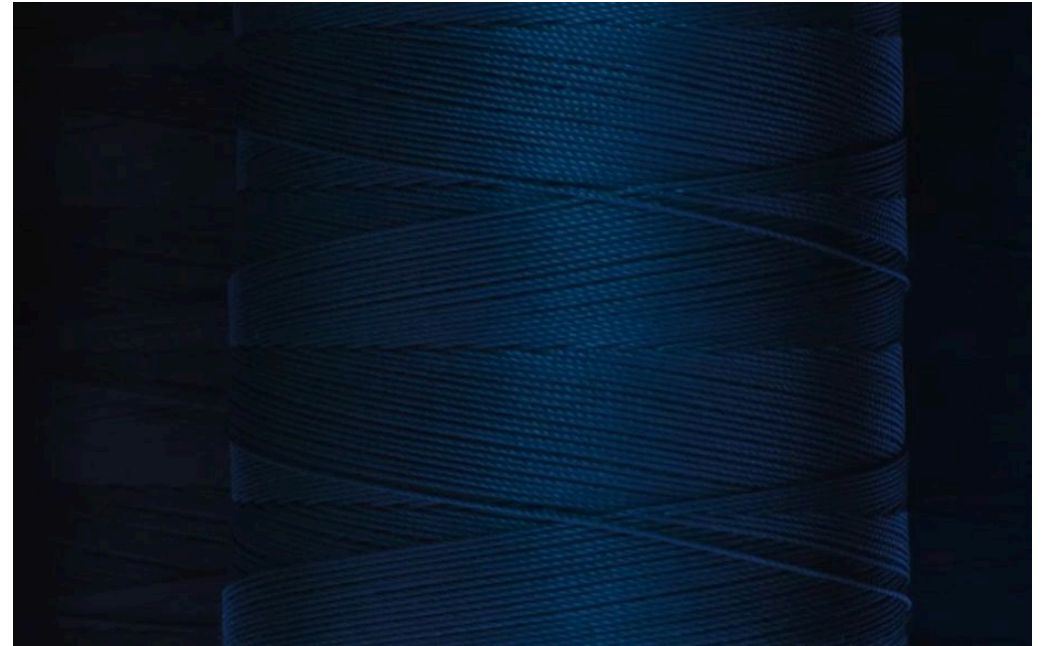

Stylish, tactile artificial leather replaces regular leather for the seating surfaces, reducing animal skin processing and creating a smaller carbon footprint (GT-Line & GT-Line S)

The Kia EV9 marks a pioneering milestone as the first model to embrace the brand's design sustainability strategy, which aims to phase out the use of leather, apply ten must-have sustainable items to new Kia models and continuously increase the use of bio-based materials.

Materials reimagined

We make sustainability a priority, with carefully and consciously chosen materials for the interior of the Kia EV9. These upcycled and plant-based materials respect nature and reduce the impact on the environment. All while bringing full comfort and style to the sleek

Recycled fishing net and PET bottles

The carpet is made using recycled fishing nets that are salvaged from the ocean and cleverly repurposed. Also, trims, seats and interior fabric are made from recycled plastic bottles and wool fibre.

Stand-out headlamps

Cube LED headlamps with the daytime running lights bring a bold, futuristic aesthetic to the eye-catching front of the GT-Line.

Signature LED tailgate

The clean tailgate body includes hidden wipers and a unique star map lamp graphic to set you apart.

Bold 21" GT-Line S alloy wheels

The lightweight 21" aluminium wheels and the wheel cover with eye-catching exterior shape.

Images shown are for illustrative purposes only and not up to UK specifications.

12.3" driver display screen

A long, light and minimalistic dash-board featuring a 12.3" cluster, 5.3" centre display and 12.3" touch infotainment display.

Build your Kia EV9

Space for everyone to enjoy

Kia's first ever 3-row EV offers ample space for everyone, with equal comfort in every seat from the first to the third row. And with a roomy boot, you can bring along whatever you need.

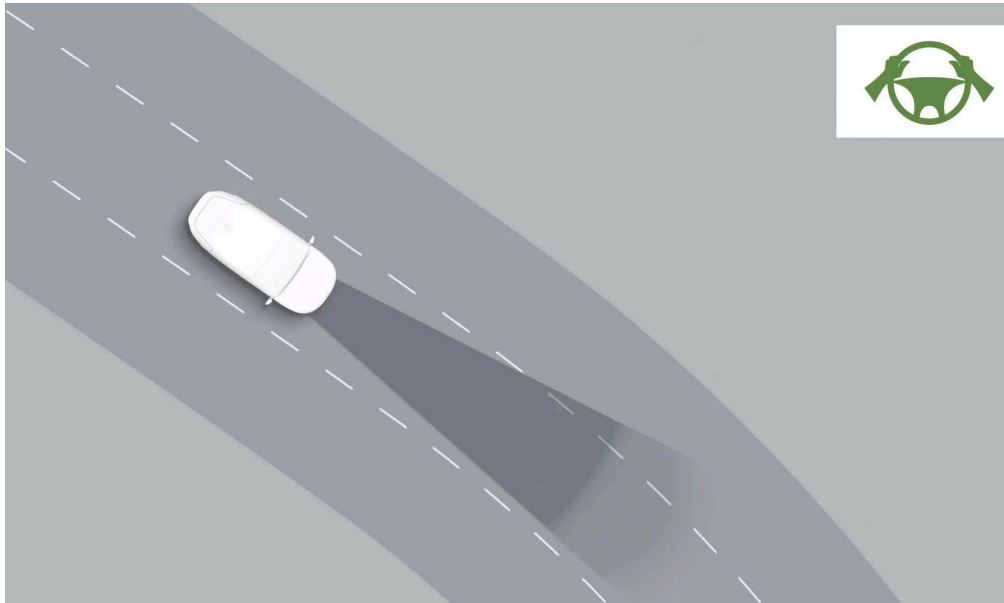

Comfort you can configure

You can choose from optional Swivel Seats in the second row (6-seater only), which can be switched around to allow occupants to interact with one another, or Relaxation Seats, available for the first and second row and providing full comfort for you and your passengers.

Safety

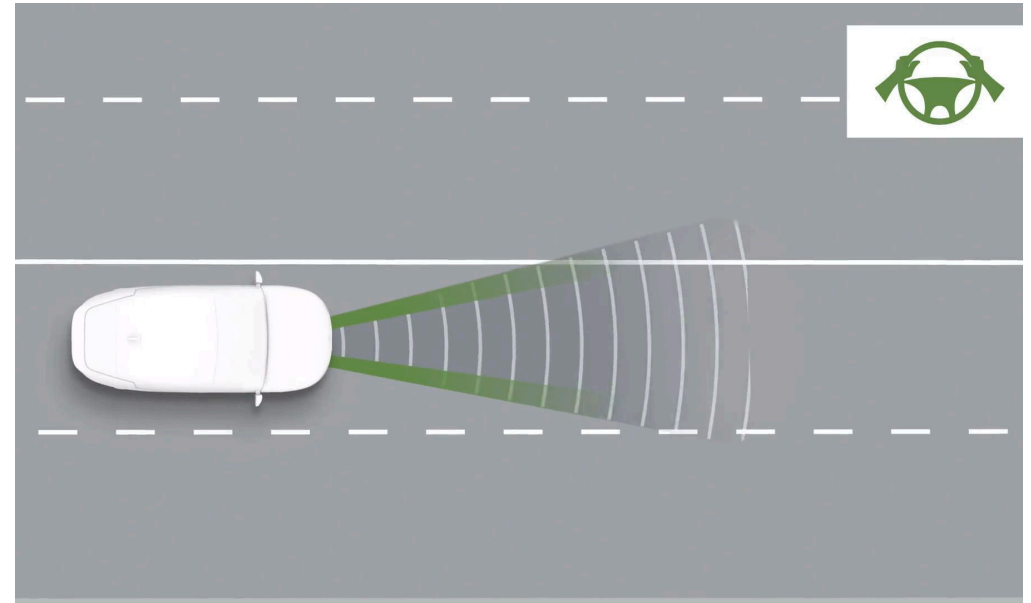

Highway assistants

Highway Driving Assist with Hands-on Detection (HDA2)

HDA2 with HoD automatically adapts your target speed to meet the limit, while keeping you at safe distance from the vehicle ahead. The upgraded heads-on detection sensors on the steering wheel detect whether you are touching it, even without movement, and adapt your speed accordingly.

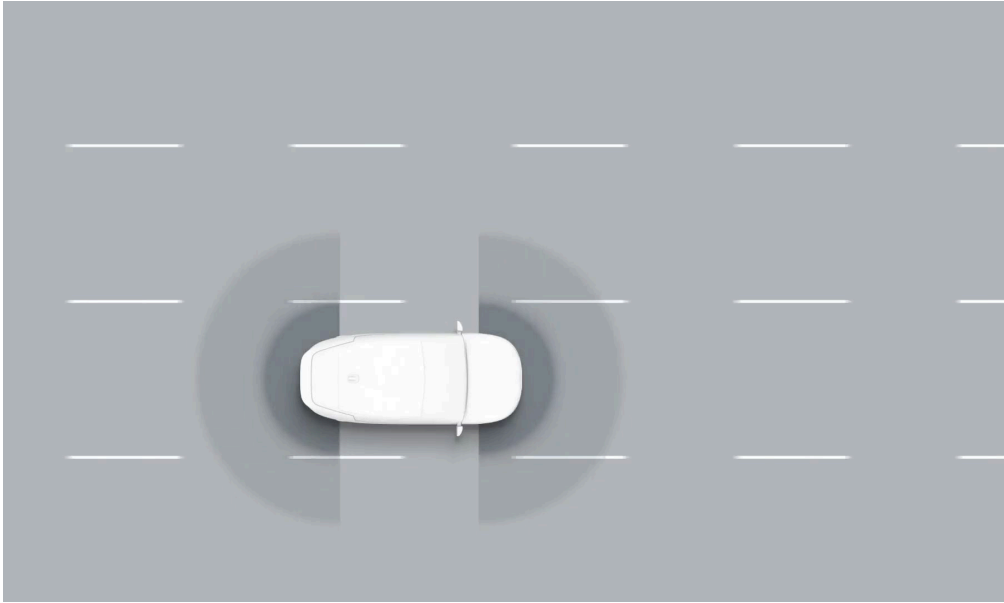

Lane Following Assist 2 (LFA2)

Staying in your lane is now easier than ever. **LFA2** uses a front-view camera to recognise lanes and help to keep your vehicle centred in the right place. If you need help to correct your position, it assists with steering you into place.

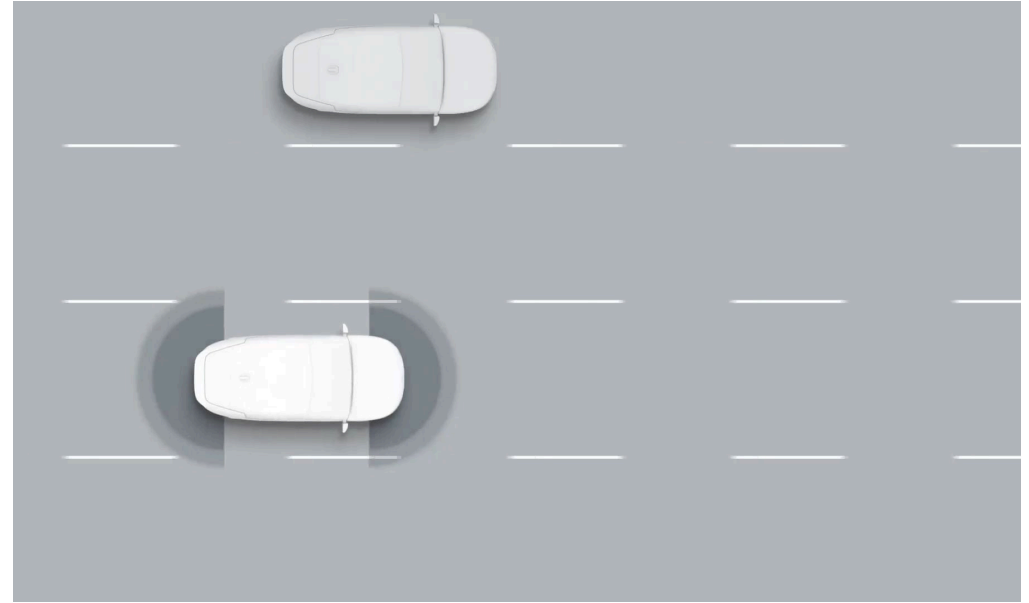

Build your Kia EV9

Anti-Collision Assistants

Blind-Spot Collision-Avoidance Assist (BCA)

Take the worry out of your blind spots. With **BCA**, you will receive alerts whenever there are vehicles approaching to overtake you, or in our blind spot. If the system detects there is any risk of collision, it will smartly assist with braking your car to avoid it and lead you back into your lane.

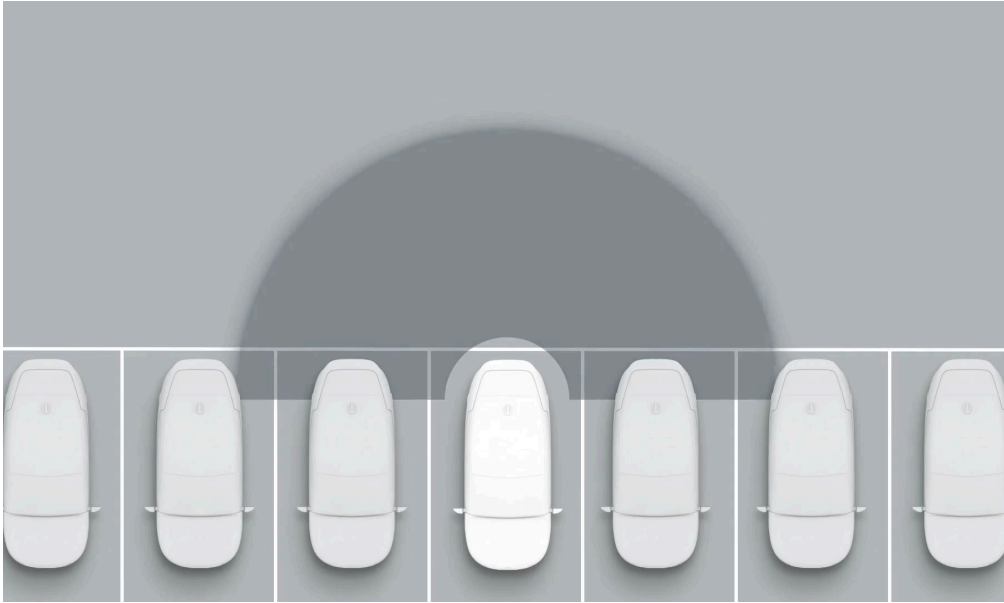

Forward Collision-avoidance Assist 2.0

Forward Collision-Avoidance Assist 2.0 gives you added peace of mind and helps you to avoid any potential collisions with pedestrians, cyclists and other cars on the road. If you are not applying the brakes hard enough to avoid a collision, your EV9 will do it automatically.

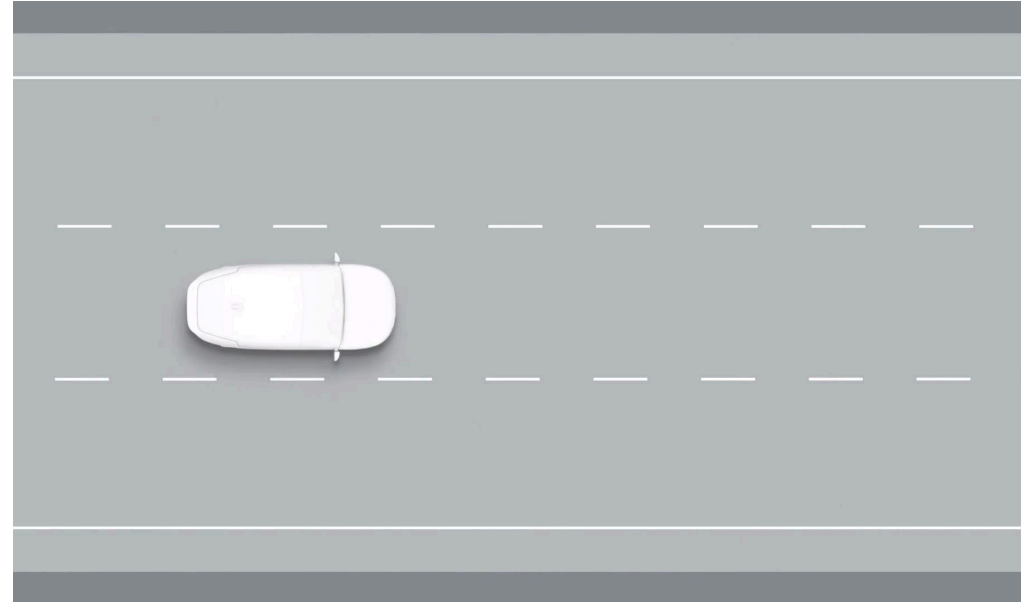

[Test Drive EV9](#)

Anti-Collision Assistants

Rear Cross-Traffic Collision-Avoidance Assist

Back out of a parking space or driveway simply and easily. With the **Rear Cross-Traffic Collision-Avoidance Assist**, you'll get an alert that warns you if cars or pedestrians are passing behind your vehicle. If there's any risk of a collision, the system will automatically brake.

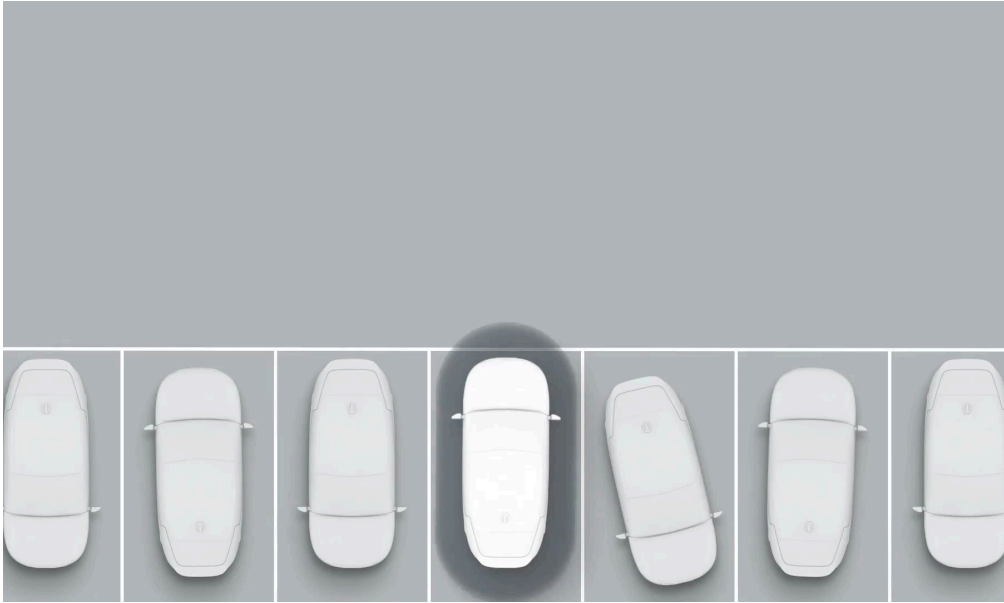

Multi-Collision Brake

The **Multi-Collision Brake** offers added protection and reassurance in the event of a crash. After the initial crash, it helps to prevent any unpredictable movements of your vehicle, thereby helping to mitigate the danger of any secondary crashes.

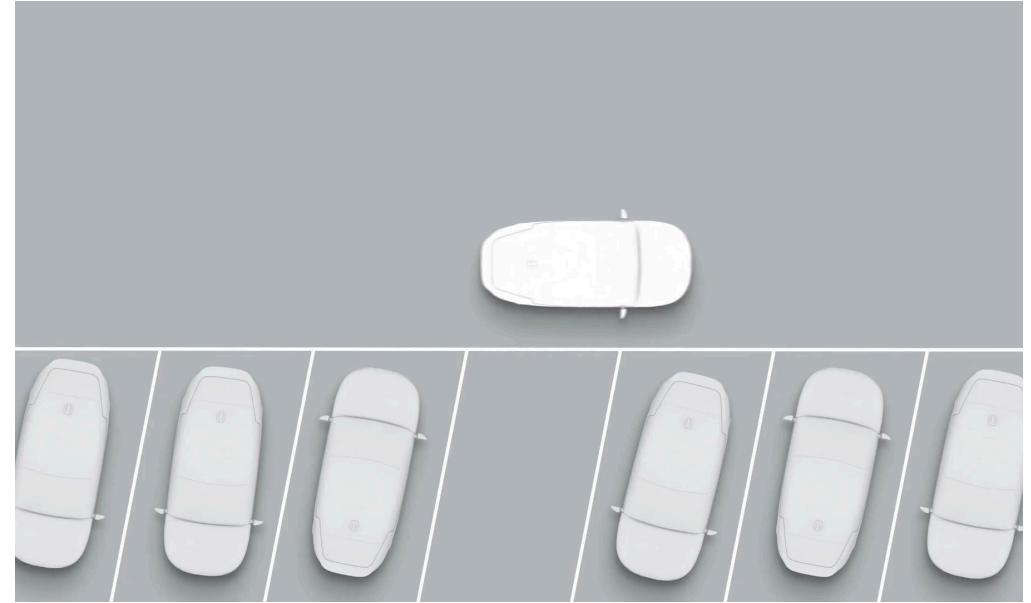

[View Offers](#)

Parking Assistants

Parking Collision-Avoidance Assist, Forward/Side/Reverse

Parking or exiting a space will be no hassle at all, with the **Parking Collision-Avoidance Assist, Forward/Side/Reverse** function, which warns you of pedestrians or objects close to the vehicle.

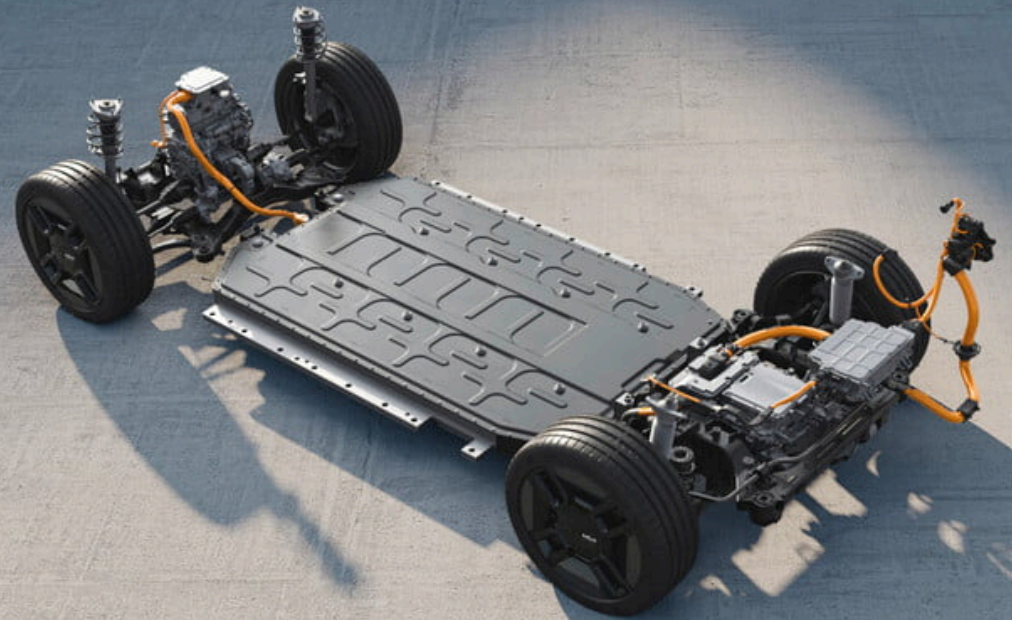

RSPA 2 (Remote Smart Parking Assist 2)

You'll never need to worry about navigating your vehicle in and out of tight spots again. The **Remote Smart Parking Assist 2** function does the hard work for you - automatically steering you into place and even performing diagonal parking - all at the tap your smart key.

E-GMP

Game-changing E-GMP (Electric Global Modular Platform) & fourth-generation battery technology

Kia has taken full advantage of the EV9's long wheelbase and the completely flat electric vehicle architecture afforded by its industry-transforming Electric Global Modular Platform (E-GMP). This delivers a cabin with generous space for all occupants to connect and relax with lounge-style comfort in all three rows of seats. It also ensures athletic performance, complimented by exemplary range from a 99.8kWh battery in both Rear Wheel Drive (RWD) and All Wheel Drive (AWD) variants.

All images are for illustration purposes only and may not be to full UK specification.

Fourth-generation battery cells

Powered by a fourth-generation battery cells, you can go as far as the road takes you. Superb all-electric range is achieved through the 99.8 kWh battery pack fitted in both the Rear Wheel Drive (RWD) and All Wheel Drive (AWD) variants.

More room to enjoy

Thanks to the design of the long, flat E-GMP, the EV9 offers ample space for everyone to settle back and enjoy the ride. The three rows of generous seating, including optional Swivel or Relaxation Seats in the second row, allow everyone on board to relax, connect and move in comfort.

Better performance

The tires are optimized to reduce noise, vibration, and handling, making the cabin beautifully calm and quiet. Thanks to the E-GMP's flat design, you'll benefit from all the comfort and practicality of a three-row vehicle.

Media Coverage

Media Coverage

A spaceship with seven seats?

Massive new Range Rover rival

Has Kia's seven-seater won the space race?

Fully Charged Show: "The EV9 is staggeringly impressive, actually. As with all electric Kias we've seen recently, it's just a brilliantly-thought-out, complete, polished product. It looks fantastic, I think the best-looking Kia ever. It's extremely comfortable. It's beautifully finished, above all else, just absurd, astonishing amounts of space."

Top Gear: "It looks terrific, it goes quite far on a charge, and to most people that'll probably be enough. What we have here then, is a pretty unpretentious family hauler, a workhorse, in an Iron Man suit."

Electrifying.com: "The EV9 is serene. it's effortless, and comfortable, that's what you want (from a family car). Would you choose a Kia over a similar car from Land Rover, or Mercedes? Because I definitely would. It's a fantastic, well-equipped, seven-seat, premium car."

Auto Express

What Car?

Carbuyer

Four-star review: "Quiet, comfortable and decent enough to drive, the Kia EV9 lays it on thick with plenty of tech and acres of space inside."

[Read >](#)

Four-star review: "The Kia EV9 is the only fully electric SUV that can seat seven adults in comfort. For that reason alone, it has undeniable appeal to some buyers, and it also benefits from a healthy range between charges."

[Read >](#)

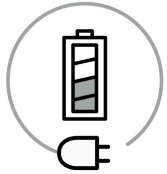

4.5-star review: "The Kia EV9 successfully moves the brand into direct competition with some of the world's most respected manufacturers, such as Audi, BMW, Mercedes and Volvo. It should prove to be a great family car and, for now, it's the seven-seat EV to beat."

EV Battery Life

EV Battery life

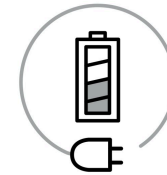

Kia EV battery packs have been engineered to last the lifetime of the car.

EV Public Charging

EV Public charging

The UK's public charging network is growing.

EV Charging Time

EV Charging time

Charging times for Kia EVs are getting faster.

[Test Drive EV9](#)

Kia Charge

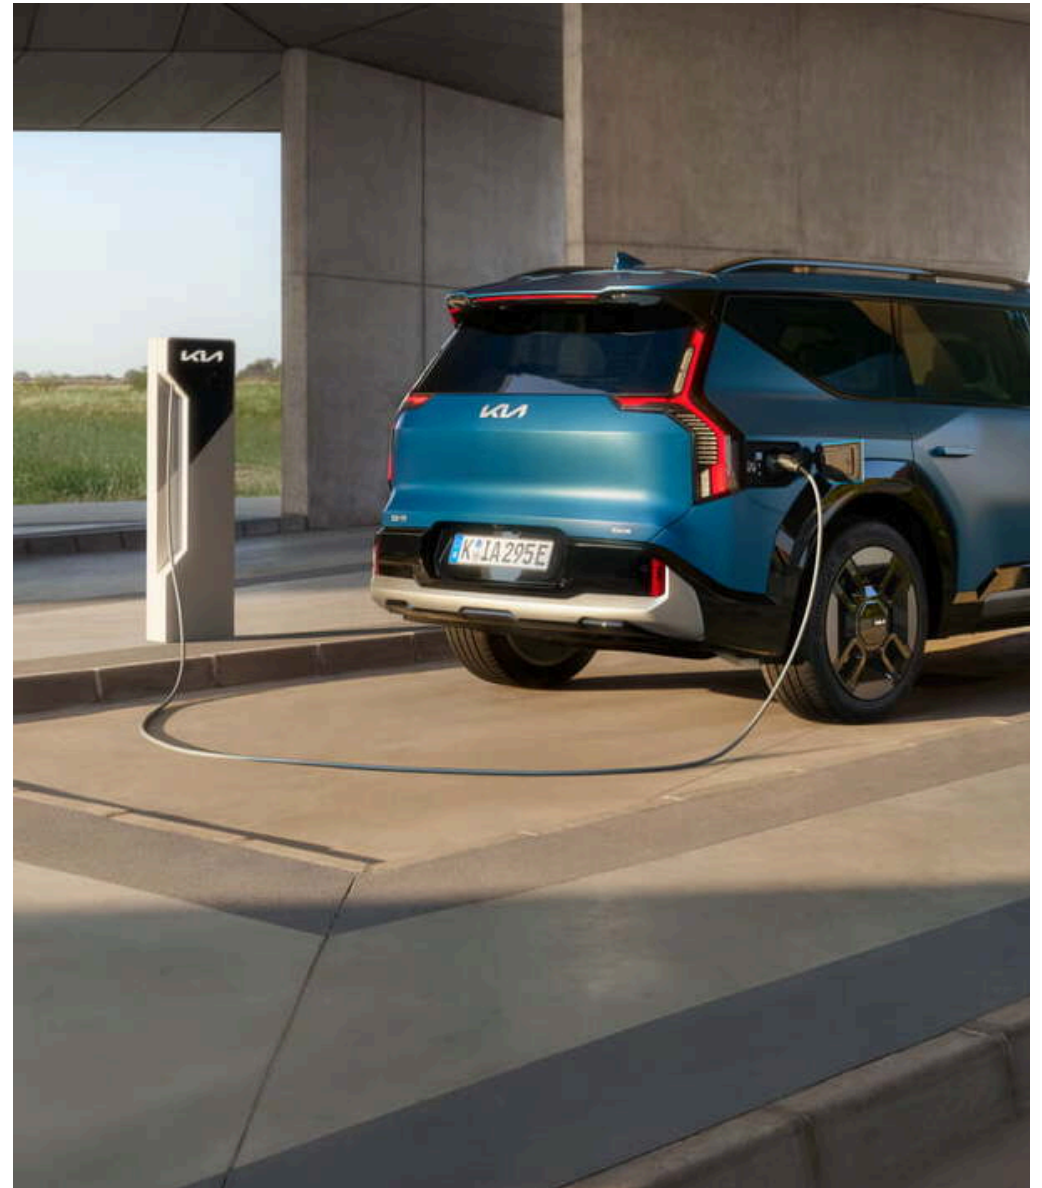

The high-voltage, large-capacity battery provides up to 349 miles*, and with the ultra-fast charging, you can recover up to 154 miles in 15 minutes*.

*Charging times may be extended depending upon ambient temperature. In order to achieve the maximum charging speed, EV6 must use an 800 volt electric vehicle charger that delivers at least 210kW of electricity. Actual charging speed & charging time may be influenced by the battery temperature and exterior weather conditions.

The range was determined according to the standardized EU measurement procedure (WLTP) based on 99.8kWh battery pack, rear wheel drive, and 19" wheels (pictured vehicle features 21" wheels). The individual driving style and other factors, such as speed, outside temperature, topography and the use of electricity-consuming devices/units, have an influence on the real life range and can possibly reduce it.

Test Drive EV9

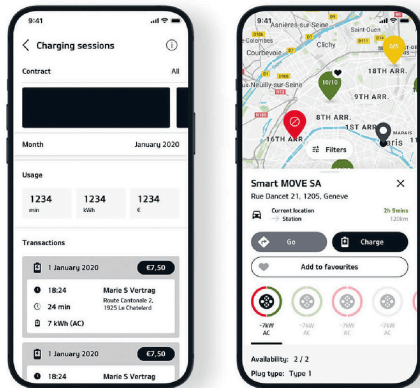

Public charging made easy...

Anxious about using multiple apps and accounts for charging across different public networks?

Worry not, Kia Charge gives you access to the vast majority of UK public charging networks including bp pulse, Pod Point, Source London, Instavolt, Shell New Motion, Osprey, Char-gy, IONITY and more. In addition, it works in 28 other European countries in exactly the same way as it does in the UK so you can travel long distance without any worries*.

The only app you need

You can start charging using either the app or dedicated card. And you don't have to make any payment on site: Everything is handled as part of a monthly, itemised billing process.

Reliable, up-to-date information

You have all information at your fingertips. You can apply a range of filters to find the right station, with up-to-the-minute information about availability and pricing.

Transparent pricing with monthly payment

There are two base tariffs to choose from. 'Easy' is a no-commitment tariff for light users of public charging while 'Plus' is for those who tend to charge away from home more often.

Best value with a range of bolt-on subscriptions including IONITY

You can add up to two bolt-on subscriptions - for bp pulse and/or IONITY - to benefit from the best value possible when charging within these networks.

For more information, visit kiacharge.com or download the mobile application.

*Charging outside of the UK is subject to the visited country's Easy tariff, regardless of your UK subscription. Kia Charge and [KiaCharge.com/gb](https://kiacharge.com/gb) are offered by Digital Charging Solutions.

Connectivity

Connectivity Features

Triple Panorama Display

Seamlessly connect with the world, and each other, via the Triple Panorama Display. The stand-out screens are big enough for both you and your passengers to see all the essentials, with unique, advanced graphics to emphasise information clearly.

Kia Digital Key

Add even more convenience to your journeys with the Kia Digital Key, which allows you to access and start the car via your smartphone. Store the key in your digital wallet and share with multiple drivers for easy access to the car.

Meridian Premium Sound System

Enjoy the rich sound quality of the Meridian Premium Sound System, which delivers a crisp, clear audio experience for everything from your favourite playlist to your choice of podcast. The Intelli Q feature corrects volume and sound quality as you change speed, making sure your sound is always pitch perfect.

Connectivity Features

USB Type C Charging

The EV9 makes connectivity a priority for everyone on board, which is why there are plenty of charging ports available. You'll find handy, fast-charging USB-C ports conveniently located from the first to the third row.

Wireless Phone Charger

Staying connected to everything you need is a given in the Kia EV9. Charge your phone conveniently on the wireless charger while you're on the go. The rubber pad will prevent the phone sliding out of your view, and the cooling fan decreases heat during charging.

Kia Connect

Connect your phone with your Kia EV9 using the Kia Connect App and take advantage of all the additional convenience and practical support. On-board services keep you updated on real-time traffic data, nearby charging stations, and plenty of other useful information. Off-board services are just as handy, with remote battery control and Last Mile Navigation, to name just a few.

Kia App

Kia Connect... Your free seven-year connected services.

Kia Connect opens your Kia to the world of connected services. Once activated, it enables a number of essential digital features in your car. You can also install the Kia app on your smartphone and pair it with your Kia to control certain functions remotely and consult a wealth of information about your car.

In-car services

Your free seven-year Kia Connect, once activated, uses your vehicle's embedded SIM card to connect it to the world of live data.

Real-time traffic information

Your navigation system uses live traffic information to recommend the best route and dynamically predict the most accurate arrival time.

Speed cameras and danger zones

Be alerted to speed and traffic light cameras, and to areas where accidents are particularly common.

Weather information

With up to three days' weather forecast available, you can check weather conditions at your destination.

Points of interest

Are you looking for a place to eat, a local business or the nearest ATM? All this information and more is easily accessible via your Kia's live, connected directory.

Parking

Kia Connect helps you find available parking locations. It shows on- and off-street parking locations, including prices and likely availability.

Fuel station information

The system shows you the nearest petrol stations and prices to plan a refuelling stop.

Charging station information (electric and plug-in hybrid vehicles only) Your car gives you the location of charging stations, with useful information such as availability and charging speeds available.

Apple CarPlay™ is a smart, safe way to use your iPhone while driving. It takes all the things you might want to do, and puts them into your display, so you can get directions, make a call and listen to music all while staying focused on the road.

Android Auto™ is designed to keep you perfectly connected to your phone while minimizing distractions so you stay safe on the road. The simple, intuitive interface lets you access features like Google Maps, apps, music and voice control, and automatically organizes info into simple cards that appear just when they're needed.

Mobile application services

Once Kia Connect is activated in your Kia, it gives you access to a wide range of useful functionalities through the Kia App (available on Apple™ and Android™).

Find my car and first/last mile navigation

You can check the location of your car from your smartphone. Your app can also use augmented reality to guide you to your car. When driving and parking before reaching your exact destination, your app can give you guidance to walk the last bit of the way using augmented reality or Google Maps.

Vehicle status

The Kia app gives you an overview of your Kia's status including fuel/battery level, doors, windows, bonnet or tailgate. It lets you know if any of the vehicle's functions isn't working properly. You can also use the app to consult information about your past trips or to obtain a summary of key stats for your past month's driving.

Notifications and remote door control

You get warned if your vehicle's anti-theft alarm is triggered or if you left your doors unlocked. What's more, you can lock and unlock doors from your phone, wherever you are.

User-profile-linked vehicle settings

Select your preferred vehicle settings from your phone for a tailored experience once you get behind the wheel.

Valet mode

Activate the valet mode in your car and you can track its location and speed on the app. Ideal when you lend your vehicle to an airport's valet parking service.

Kia services are available free of charge for a period of 7 years commencing on the day the vehicle is sold to the first owner of the vehicle and may be subject to change during that period. You need a smartphone with iOS™ or Android™ operating system and your own data plan to operate the Kia mobile apps. Your Kia needs to be in a location with Vodafone signal to connect to these services.

For new vehicles sold from May 2021, Kia offers, per vehicle, two free-of-charge updates of the maps in the vehicle's navigation system and of the Head Unit software using the so-called "over-the-air" method ("OTA Updates"). Once the two free-of-charge OTA Updates have been consumed, you will be able to get updates of the maps in the vehicle's navigation system and of the Head Unit software only (i) by accessing the following web page <https://update.kia.com/EU/E1/Main> or (ii) at a dealership.

Accessories

Intriguing ideas. Inspired choices.

Accessories

Let the Kia EV9 stimulate your imagination. Choose from our comprehensive range of high-quality accessories, all of which blend perfectly with its inspirational character. Whether you feel like adding an extra hint of distinction, or a touch of practicality, you can be assured that all our accessories are manufactured to the same meticulous standards as the EV9 itself.

Tow bar, detachable. Whenever you have substantial cargo in tow, this top-quality corrosion-resistant steel tow bar is ideal for efficient transportation. The tow ball can be detached simply, securely and discreetly. Please consult your dealer regarding the maximum towing load capacity for your vehicle.

Side steps. More style, more comfort: these robust matt aluminium steps bring a new iconic boldness to your exterior styling. And ensure easier access to the cabin. Featuring anti-slip rubber inlays they can carry up to 200 kg (set of 2).

Textile floor mats, velour (ECONYL®) Front row only. The ECONYL® velour floor mats are manufactured from a material which has been recovered from maritime fishing nets. These high-quality mats are just as comfortable and resilient as conventional velour mats. They are tailor-made to fit the footwells perfectly and are held in place by the standard fixing points and anti-slip backing (set of 2).

Boot liner with extension - for 6 & 7-seater vehicles. However wet, muddy or grimy things get, this custom-made liner made from 90% bio-based sources will protect your boot area. It is durable, anti-slip and waterproof with raised edges.

Sport grip pedal kit. Treat your pedals to a sportier look. These metal sports pedals boast a sure-grip finish.
