

All-new Tucson

We have passion for progress.

The “can-do” spirit is at the heart of Hyundai’s heritage. It’s the attitude of progressing, no matter what. From humble beginnings, this vision has driven us to seek new challenges, encapsulated since our founding in the name ‘Hyundai’ – meaning ‘modern times’.

It’s the persistent curiosity for what lies ahead. Of always chasing the next. What was once a man’s desire for better is today the ethos of an entire company. As our founder said: “How does one know it’s impossible if one hasn’t tried it?”

Progress doesn’t happen by chance. We’re always pushing the borders of the possible, building tomorrow’s technology today, and powering the future with an ever-evolving range of low-emission engines, seamless in-car connectivity and more.

We’ve come a long way. And we won’t stop here. Next awaits.

Lighting the way.

Dynamic design combined with advanced technology for the drive of tomorrow, today.

Car shown: all-new Tucson Hybrid Premium in Teal. Car shown is not to UK Specification.

Take a moment and let your eyes wonder over the all-new Tucson. Bold lines and a powerful stance hint at more below the surface; sleek, progressive styling builds on the Tucson legacy and drives it forward with the all-new 4th generation Tucson. We've completely overhauled the geometry of design with brilliant wing headlights, and added parametric features to the sculpted bodywork for poise, balance and efficiency. The same dynamic approach sees the interior reimagined, technology upgraded and performance maximised, lighting the way to a bold new future of driving.

Welcome to the all-new Tucson.

What lies beneath.

Dynamic Hybrid efficiency combined with electrified powertrains light the way to the best of all worlds, with power, poise and precision.

The all-new Tucson is available with an extensive range of powertrains including the electrified 48V Mild Hybrid, Hybrid and Plug-in Hybrid* variants, as well as the latest 1.6TGDI petrol. The all-new Tucson delivers efficiency with agility for an all-round driving experience. Serene in the city, the all-new Tucson comes to life on the open road to deliver exhilarating performance with poise and control.

*Plug-in Hybrid available early 2021.

Adventures await.

A design revolution for enlightened drivers and the connected car. The future is in your hands.

Car shown: all-new Tucson Hybrid Premium in Teal. Car shown is not to UK Specification.

The all-new Tucson is all about adventures together, plans made and plans delivered. It's about design features throughout, a choice of powerful, efficient engines, technology that works for you and communication that works with you. Advanced safety systems protect you beyond the bodywork, with sensors and cameras always alert for danger, and a fully connected in-car information system - sweetly synced with your smartphone - lets you take your life with you wherever you go.

The human touch.

Moving from concept to completion, the all-new Tucson started off as a hand drawn design.

Outstanding progressive design doesn't just happen; it's crafted from the drawing board to the road. The all-new Tucson draws on the advances of the past to produce a car ready for tomorrow, lighting the way with exceptional style and driver centred technology designed to make every drive safer, more connected, and more enjoyable. With signature lighting front and rear, a redesigned front end incorporating a stand-out parametric radiator grille and the new wrap around bumper, the all-new Tucson is a design-inspired work of art. Add to this unique alloy wheels, two-tone roof*, and ultra-efficient LED lighting inside and out, the all-new Tucson is in a class of its own.

*Two-tone roof only available on Premium in Teal.

Shift by wire standard on all Hybrid trims.

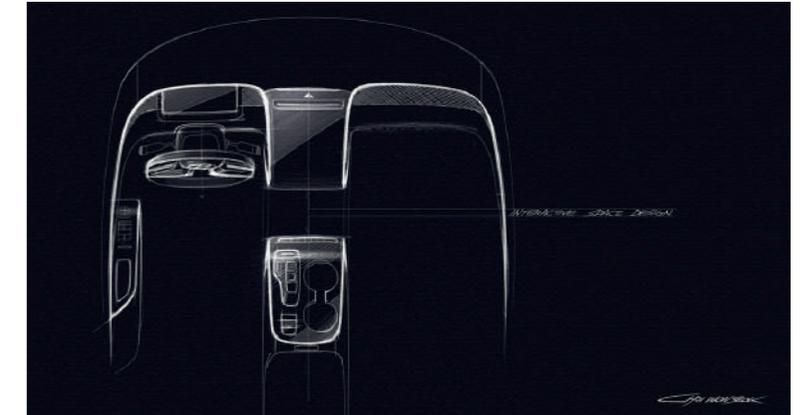

Panoramic glass sunroof standard on Ultimate trim.

USB charger connections standard on all trims.

The comfort zone.

Elegance, comfort and style to put you in the right space for driving.

Original design sketches.

You know when something's just right, and with the all-new Tucson we've designed the interior so you can have it just how you want it. Climate control air conditioning with Multi Air Mode means you're never too hot or too cold, ambient mood lighting* sets the tone for comfort and awareness, and flexible seating gives you adaptable space for big loads or small packages. With fine finishing and close attention to detail, the all-new Tucson is designed to deliver the perfect drive.

*Ambient mood lighting only available on Premium and Ultimate trims.

Constant connectivity.

With illuminating in-car connectivity, we're lighting the way for next level In Car Entertainment.

The all-new Tucson offers connectivity that is second to none. Front and centre, the 10.25" Supervision Cluster and 10.25" touchscreen Audio Visual Navigation units give all round visibility to on-board systems at your fingertips, and mobile connectivity allows multiple handsets to be connected via Bluetooth – taking your online lifestyle onto the road. When your hands are full, Smart Voice Interaction gives you integrated vehicle control, and wireless smartphone charging** means you're cable free. When it comes to sound, we give you hi fidelity all round with a KRELL* sound system connected to 8 custom speakers. The all-new Tucson also features the latest version of the state-of-the-art BlueLink connected car services including Last Mile Navigation and a new User Profile feature. Users can locate their vehicle or view vehicle attributes like fuel level, via the BlueLink app.

*KRELL premium audio standard on Premium and Ultimate trims.

Three-zone climate control standard on Ultimate trim.

**Wireless phone charging pad standard on Premium and Ultimate trims.

10.25" touchscreen audio visual navigation standard across all trim levels.

Safety - Our number one priority.

With upgraded SmartSense safety systems for all-round protection, safety is more than a priority.

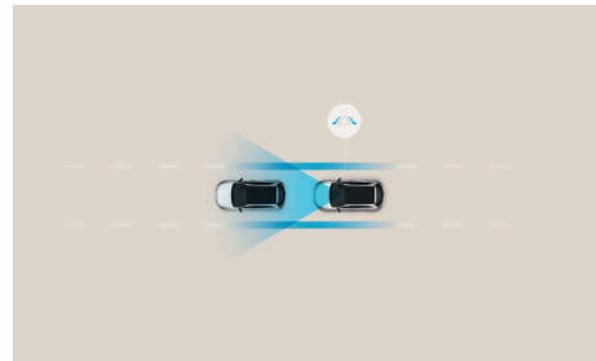

Driver Attention Warning (DAW): When a pattern of fatigue or distraction is identified, the system gets your attention with an alert and pop-up message suggesting a break.

Intelligent Speed Limit Assist (ISLA): Information from the front cameras and navigation system identifies road speed limits and displays them in real time in the digital cluster.

Blind-Spot Collision Warning (BCW): Radars detect traffic in the vehicle blind spot, warning drivers with an audible alarm when the indicator is used so you can be aware of the traffic around you even when you can't see it.

Lane Follow Assist (LFA): LFA helps prevent accidental lane departure and keeps your vehicle safely centered within the lane. Using a forward camera to recognise the intended lane, LFA will automatically provide corrective steering input to help maintain the centre path. This not only detects road lines but also the road edge.

Forward Collision Avoidance (FCA): On detecting the risk of a collision with a forward vehicle, pedestrian or cyclist, the driver is alerted to the danger, and if necessary, brakes are automatically applied to help prevent a frontal collision.

Smart Cruise Control (SCC): Automatically takes road features into account and adjusts your speed to maintain a safe distance from the vehicle in front.

With the all-new Tucson, safety systems start outside the vehicle with sensors and cameras providing advanced warning of hazards before you reach them. With a complete safety package*, the all-new Tucson's Collision Avoidance systems warn of hazards in front, in the blind spot and from the rear sides to protect you and your passengers. The new Safe Exit Warning (SEW) function alerts occupants if there is oncoming traffic when they attempt to step out of the car. This feature is being introduced to a mainstream compact SUV for the first time.

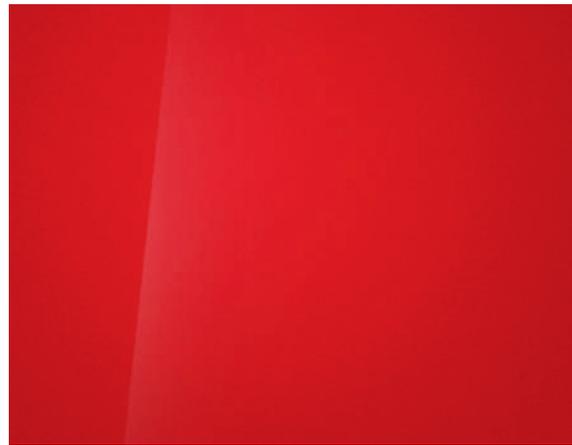

*Please check all-new Tucson specifications for more information on the safety features available on each trim.
