

A-Class Hatchback

Price List as of 01st January 2021

Mercedes-Benz

Welcome

At Mercedes-Benz we appreciate the importance of detail. Over the following pages you'll find model prices and a breakdown of standard and optional equipment, as well as details of the attractive finance offers and benefits that are available to every Mercedes-Benz driver.

We have highlighted some of the best styling features both inside and out, some of the new technology features and some body styling options which all combine to give you a unique driving experience. To experience a full listing of what is available; please speak directly to your local Mercedes-Benz Dealer.

Of course, some things have to be experienced to be truly appreciated, such as the qualities that set a Mercedes-Benz apart, which is why we'd like to invite you for a test drive at your local Mercedes-Benz Dealership. Discover the location and the contact details of your local Mercedes-Benz Dealership at **www.mercedes-benz.ie**

Terms and Conditions.

† Includes delivery & related charges. Model is shown for illustrative purposes only. †† The Guaranteed Minimum Future Value (GMFV) is payable if you renew or retain the vehicle at the end of the agreement. Further charges may be applied by your Mercedes-Benz Dealer subject to kilometre limits/condition of the vehicle. *Lending criteria and conditions apply. Fixed APR (Annual Percentage Rate) 3.9% which is inclusive of a documentation fee of €63.49. To qualify for this Finance Offer; a minimum deposit of 10% is required. Rate quoted is correct as at 01st December 2020 and subject to change. Offer available on all new A-Class A 160 Style petrol models registered from 01st January 2021 until 31st January 2021 at authorised dealers. This is a Consumer Hire Purchase agreement provided by Bank of Ireland t/a Bank of Ireland Finance. CO2 range: 137 – 129 g/km and 6.0 – 5.6 l/100km

Hey Mercedes.

You know the feeling? You meet someone new and it seems as if you have known that person forever. That is kind of what it is like with the new A-Class. You have only been travelling together for a few days and it knows your peculiarities, your whims, what you like the most and what not at all. Almost better than you do yourself. The new A-Class and you suddenly become as one. So you can always be the way you are.

Can we talk?

Thanks to the completely new LINGUATRONIC, the new A-Class obeys your every word. But it goes much further than that: It understands you without having to learn commands first. And it talks to you. Reading out text messages, or dictating one and sending it? No problem. It checks the weather at the destination for you, changes the radio station or takes you home on the fastest route. Two words are all it takes: "Hey Mercedes". And right away the new A-Class is all ears.

Really looks good on you.

The lines of the new A-Class all follow one direction only: our design philosophy of sensual purity. Surfaces are even more puristic, details even more striking. Very neat, right?

START
ENGINE
STOP

May we be of assistance?

That's what our new connectivity services are all about. Making life easier. Wireless, keyless, completely effortless – the new A-Class connects to everything that is important to you.

Let's talk about trust.

The new A-Class caters to you more than you could ever have imagined. If you like, it can automatically brake, accelerate, even steer to make life significantly easier for you.

The new A-Class.

With Mercedes  me

Safety and assistants.

Protective instinct, cutting edge. The new A-Class can maintain the distance even at 200 km/h. And in so doing narrows the gap to luxury vehicles. You can trust its senses (it really has them) like no one else's. Even at high speeds. Thanks to Active Distance Assist DISTRONIC¹, it can keep the vehicle ahead always at a safe distance. Active Brake Assist can brake autonomously in an emergency. As a result, you feel safe and in good hands at all times. Can a car do more for you?

Connectivity.

In the new A-Class, you can charge your smartphone by placing it in the centre console. Simple, without the need for cables and based on the Qi standard. And the best thing: Thanks to near-field communication (NFC), your smartphone immediately connects to the A-Class without the need for a lot of operating steps or having to constantly enter a code.

Sending text messages or scrolling through contacts is also no problem at all. In the new A-Class, you can use your smartphone without having to pick it up. Use USB, WLAN or NFC to connect to the vehicle. Then conveniently control almost all apps and functions on the display of the multimedia system using the Touch Control buttons on the steering wheel. It's like magic and so simple.

Gain completely new insights thanks to the new A-Class. For instance, insights into the road. The system uses a special camera to show the environment as a moving or still image on the display of the multimedia system. In an innovative and informative way. It adds virtual objects or markings and thus facilitates finding your destination, for example. Totally intuitive and pretty intelligent.

Wrap-around effect.

The interior of the new A-Class literally embraces the occupants. Smooth transitions between instrument panel, centre console and door trims create the pleasant wrap-around effect. This is just as unique in this category as the selection of trim elements and indirect lighting to show everything in the best light.

Widescreen vision.

Here one glance says more than a thousand words. The interior of the new A-Class looks completely different and you will see things in a new light as a result. Not just on one, but on two high-resolution displays, 7 inch as standard or optionally extra large at 10.25 inch. In any case, the screens seem to be floating in space. They are also super easy to operate using the steering wheel, the touchpad or the touchscreen. The latter represents an additional world-first that is definitely worth another look.

Head-up display.*

Eyes front is completely automatic with the head-up display in the new A-Class. Just one glance and you instantly know the speed, speed limits or navigation instructions. All relevant information is displayed in your field of vision. Virtually and in full colour. The position and content can be adapted and stored with the memory function. Yet something else you will no longer have to worry about in future.

Theme worlds.

With the new A-Class, a little bit more is always possible. That is why you can adapt not only the ambient lighting* to your mood, but the display styles in the instrument cluster and the central monitor as well. On a highly individual basis and intuitively, for example, with the left finger pad on the steering wheel.

* Optional equipment.

DYNAMIC SELECT.

Simply drive as you prefer. At the touch of a button, DYNAMIC SELECT offers different drive modes, which predetermine the settings for engine, transmission, suspension, and steering, for instance. With the Sport mode, you drive decidedly dynamically, and very balanced with the basic program Comfort. ECO, on the other hand, emphasises maximum efficiency and saves fuel and money.

The ECO drive mode gives you particularly comprehensive support when you want to avoid CO₂ and pollutants. The seat heating and air conditioning work with reduced output in this setting and thus also save valuable energy. With the Individual mode, you choose all the respective parameters yourself. This means that you can select a sporty setting for the powertrain and at the same time set the suspension to comfortable.

Comfort suspension with lowering.

The comfort suspension offers you a dynamic total package. It makes the road-holding ability even more solid. The suspension lowered by 15 millimetres works with specially tuned springs and dampers: with a deliberately sportier design than on the standard suspension.

Enjoy a performance promise and emotions already before you start moving. Because the vehicle visually hugs the road even more closely with the shortened spring travel.

The Style design and equipment line (standard)

A youthful and cool appearance inside and out. This includes elements such as the 16-inch light-alloy wheels as well as upholsteries and contrasting topstitching in trendy colours exclusive to this line.

The Progressive design & equipment line* from €866

The Progressive design and equipment line enhances your vehicle substantially. Added value you can see and feel. The fascination and high-end technical features of a premium compact car are heightened from every conceivable perspective.

The AMG Line* from €2,802

With the AMG Line, you make a clear statement for performance inside and out. Particularly the AMG styling with special front and rear aprons makes the vehicle's appearance resemble that of AMG models. In addition, the technical features with lowered, sportingly tuned suspension and the Direct Steer system intensify the driving experience.

Diamond radiator grille with pins and louvre painted in high-gloss black

Exterior mirror housings painted in black

Front splitter painted in high-gloss black (with AMG Line)

Heat-insulating dark-tinted glass starting from the B-pillar

Rear apron with trim painted in high-gloss black

A-Class

Mercedes-AMG A 35 4MATIC

AMG 2.0-litre 4-cylinder engine with turbocharging and generating 306 hp, 400 Nm, based on the M260 for standard model variants and differentiated by twin scroll technology, a water charge-air cooler and independently executed air intake (clean air line)

AMG exhaust system – soundscape ranging from emotional and sporty (in Sport+) or subtle (Slippery / C / S), the associated characteristics maps are controlled via an exhaust gas flap depending on engine speed and load

Silent Start – the vehicle always starts in quiet mode. The familiar sporty, loud engine start can be set by pulling one of the steering wheel shift paddles during the starting process

AMG SPEEDSHIFT DCT 7G

Specific drive system setting (according to selected AMG DYNAMIC SELECT drive program) with different characteristic curves for accelerator pedal and shifting: RACE START function ensures optimal acceleration from rest
 Partial ignition interruption during upshifts for an emotive sound
 Automatic double-declutching function when downshifting

AMG Performance 4MATIC with even faster responding electromechanical multiple-disc clutch for fully variable power distribution, excellent traction when accelerating out of curves

3-stage ESP® with individual control strategies, enables higher drift angles in SPORT HANDLING MODE for a sporty driving style before the system intervenes

5 AMG DYNAMIC SELECT drive programs (Slippery, Comfort, Sport, S+ and Individual), impressive driving experience thanks to a broad spread between sportiness and comfort, 4 predefined setups or individual configuration in which the following features can be set

Drive system (incl. accelerator pedal characteristics, shift times and points, sound and characteristics of sound functions) in the variations REDUCED, MODERATE, SPORT, DYNAMIC

AMG DYNAMICS (agility functions, e.g. all-wheel drive control, steering characteristics and ESP® additional functions) in the variations BASIC or ADVANCED

Suspension (with the optional AMG RIDE CONTROL suspension) in the variations COMFORT, SPORT, SPORT+

AMG suspension with specific spring/damper elements, tuned for high lateral acceleration and a reduced tendency to roll

AMG-specific front steering knuckles and AMG-specific subframe with rigid connection

All wheel control components have been comprehensively revised to achieve an increase in maximum lateral acceleration while at the same time maintaining simple control of the vehicle at the critical limits

Rear axle with Performance rear axle carrier plus special bearings and strut package

AMG speed-sensitive steering, speed-sensitive electromechanical steering with special steering rack and variable ratio, very direct around the centre

Two steering characteristic curves (depending on drive program)

AMG high-performance braking system with silver brake callipers and black AMG lettering at the front (unpainted at the rear), excellent dosing and outstanding deceleration as well as fading stability

A-Class

Front splitter and trim on the louvres in the outer air intakes in high-gloss black

AMG side sill panels with inserts in high-gloss black

Beltline trim strip and window line trim strip in high-gloss black

Black chrome-plated tailpipe trim

Heat-insulating dark-tinted glass starting from B-pillar

¹ Information about the rated output according to Regulation (EC) No. 715/2007 in the currently applicable version. ² Available temporarily. ³ Electronically limited. ⁴ The stated figures were determined according to the prescribed measurement method. They constitute the "NEDC CO₂ figures" pursuant to Art. 2 No. 1 Implementing Regulation (EU) 2017/1153. Fuel consumption figures have been calculated on this basis. More information about the official fuel consumption and the official specific CO₂ emissions of new passenger cars is available in the publication entitled "Leitfaden über den Kraftstoffverbrauch, die CO₂-Emissionen und den Stromverbrauch neuer Personenkraftwagen" ["Guidelines concerning the fuel consumption, CO₂ emissions and electricity consumption of new passenger cars"], available free of charge from all retailers and from Deutsche Automobil Treuhand GmbH (www.dat.de). The figures are not based on an individual vehicle and do not constitute part of the product offer; they are provided solely for purposes of comparison between different vehicle models. The figures will vary according to the optional equipment selected. ⁵ Information only valid within the European Union. May vary from country to country. ⁶ Determined on the basis of the measured CO₂ emissions, taking into consideration the vehicle mass. Only valid for Germany. For more technical data, please visit www.mercedes-benz.com

Dimensions

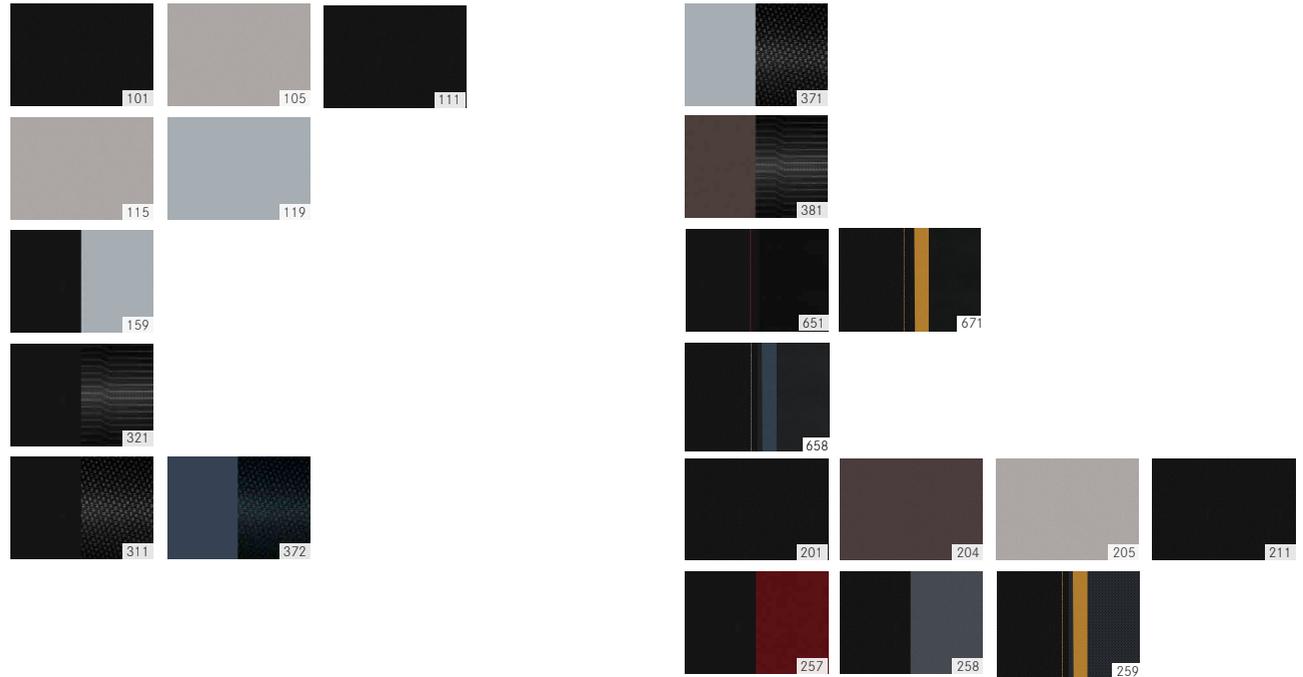

All figures in millimetres. The dimensions shown are average values. They are valid for vehicles in basic specification and in unladen condition.

Upholstery and trim
