

**GET A GRIP ON WINTER.**

MINI GENUINE WINTER WHEELS AND TYRES 2019/2020.

## CONTROL THE DRIFT.

Brace yourself for the winter season ahead with a new grip on things. This winter is all about preparing for that corner and pushing your adventure forward. With our star marked MINI Genuine Winter Wheels and Tyres crafted in collaboration with leading tyre manufacturers (e.g. Bridgestone, Dunlop, Goodyear and Pirelli), there's no road not worth pursuing.

# SAFETY IN THE STARS.

## MINI GENUINE WINTER WHEELS AND TYRES WITH STAR MARKING.

Trust the stars with our MINI Genuine Winter Wheels and Tyres with star marking, developed together with premium tyre manufacturers (e.g. Bridgestone, Dunlop, Goodyear and Pirelli). With MINI Genuine Winter Tyres, you can feel confidence in every corner. Fulfilling your safety requirements without compromising your driving experience.

**1 TAILOR-MADE:**  
All MINI Genuine Wheels and Tyres have been specially developed for maximum safety and perfectly match the style of each specific MINI model.

**5 ECONOMICAL:**  
The systematic use of special materials reduces fuel consumption and lowers noise levels.

**2 SAFE:**  
Tyres with star marking feature high durability, the highest safety ratings and advanced run-flat technology.

**4 SPORTY:**  
The tyres are perfectly attuned to the suspension components and adaptive systems to ensure maximum grip and performance.

**3 TESTED:**  
Every tyre has been subjected to stringent tests with up to 50 different quality criteria (the standardised EU Tyre Label demands only three criteria).

# WE EXPECT THE UNEXPECTED.

If you want to feel safe venturing out this winter, you have to trust your tyres. They are tested against 50 different quality criteria clustered in six major fields: driving properties, safety, sports behaviour, wear, comfort, and finally, efficiency.

## DRIVING CHARACTERISTICS OF WINTER TYRES.

- Braking distance
- Traction
- Handling
- Driving stability

## SAFETY.

- Wet and slippery road surfaces
- Dry road surfaces
- Run-flat properties
- TPMS Compatibility

## SPORTY HANDLING.

- High speed
- Performance
- Handling response

## WEAR.

- Mileage
- Shape
- Safety

## COMFORT AND ACOUSTICS.

- External rolling noise
- Interior rolling noise
- Directional stability
- Insensitivity to vibrations

## FUEL EFFICIENCY/ EFFICIENT DYNAMICS.

- Rolling resistance

## OUR YEAR HAS TWO SEASONS.

All-season tyres do have their advantages: no tyre changes in spring and autumn, no need for seasonal storage, and respectable performance in winter and summer alike. Nevertheless, they are always only a compromise. If you want to be sure of getting maximum safety and performance and the best consumption from your MINI in the colder months of the year, then winter tyres are the first choice. The braking distance on both dry and wet road surfaces is significantly shorter than with all-season tyres.

## RELAX, FLAT OUT.

Run-flat technology allows for your journey to last as long as you want it to. You can keep driving your vehicle for up to 50 miles at a max. speed 50 mph, without having to worry about having a puncture. That means safety and comfort for you too. Spare wheel? No need. Simply drive on to your next MINI Service Partner. You'll also have less vehicle weight and more room for luggage and sports equipment because you don't need a spare wheel or Mobility Set – leaving you free to enjoy the winter to the max.

With run-flat technology

Without run-flat technology

# GRIP WITH EASE.

Going fast requires stopping fast too, and in unpredictable weather it's good to have as much help as possible. That's why 7°C is the signal for switching to winter tyres.

Thanks to their special rubber mixture, winter tyres provide optimum grip and short braking distances, even in the coldest weather. Change your tyres in good time, and ensure that critical situations don't turn into accidents.

Braking distance with tread depth (mm):

# EXCLUSIVELY ACCESSIBLE.

## MINI HATCH AND MINI CONVERTIBLE.

You're chilling in your Hatch or cruising in your Convertible. What else can make it just that little bit more... you? Enhance your ride with a wide variety of style options to choose from with no compromise on safety.
