# The Audi Q3

## The SUV, streamlined.

Few cars combine the qualities of an SUV and a city car in quite the same way as the Audi Q3. Within the flowing design, featuring strong lines and a wraparound tailgate, you'll find a cabin full of luxurious touches. It means the Audi Q3 isn't only beautiful to look at, it's also a pleasure to drive.

# The Exterior

## A powerful profile.

Thanks to its distinctive silhouette, the Audi Q3 has all the presence you'd expect of an Audi SUV, incorporating eye-catching design features like the 3D grille and optional LED headlights. With larger air inlets, a striking new bumper design and the option of a panoramic sunroof, it's more attractive than ever.

# Performance

**Dynamic on every drive.**

In the Audi Q3, there's a wide choice of petrol and diesel engines available - including the 1.4 TFSI with cylinder-on-demand, which deactivates cylinders when not needed to improve fuel economy. Audi Drive Select comes as standard, enabling you to tailor the car to suit you. Where options like quattro all-wheel drive give you enhanced grip, increasing control on every journey you make.

# The Interior

**Luxury, by Audi.**

Step into the Audi Q3's 5-seat interior and you'll discover refined touches throughout, like chrome trims and optional leather upholstery. So that your drive is as comfortable as can be, we've also incorporated front Sport seats and electric lumbar support as standard. As well as being able to relax in the spacious cabin, you'll also have a generous amount of room for luggage, with 420 litres of space in the rear.

# Technology

**Finely crafted. Finely tuned.**

We've developed a range of technologies that will make this car your own. There's technology to explore new routes, like the SD card-based Satellite Navigation system as standard, and technology to explore your favourite music, too, like the optional BOSE® Surround Sound System. And so that you can stay connected when you're on the move, optional Audi Connect provides you with a link to your surroundings.

# Vorsprung durch Technik

## **Not just a slogan. A philosophy.**

Progress. It's behind everything we do at Audi. It's why, in the Audi Q3, we've incorporated new technologies to help you on the road and engines to deliver impressive performance and fuel economy.

The Audi Q3 is the embodiment of our forward-thinking approach.

quattro

### **Driving confidence, whatever the weather.**

Loose gravel. Icy patches. A tight bend in the rain. Conditions on the road are always changing, so quattro changes too. Optionally available, it analyses your grip – automatically distributing power between all four wheels to where it's needed most. It's made for the most challenging conditions of all – the ones you encounter every day. Whatever the road holds, you can be confident that quattro will react.

## Sharp. Focused. Unmistakable.

Our striking LED lights come as standard on S line Edition and Black Edition trims. Not only do they have an unmistakable style, they emit a light that's remarkably similar to daylight – resulting in more natural illumination that puts minimal strain on your eyes.

Energy consumption is lower, as LEDs use just a fraction of the power of conventional halogen bulbs. And as they also last longer than our standard lights, the attraction goes far beyond their looks.

# Driver Assistance

### All the help you need.

Imagine an extra pair of eyes, watching for traffic as you pull away, or looking over your shoulder as you reverse. Our driver assistance systems monitor the road around you, making your journeys both easier and safer. Some may come as standard, while others shown on the next page are available as options.

Vehicle driver assistance and safety systems are not a substitute for attentive driving. Drivers retain full responsibility for providing the necessary inputs for safe control of the vehicle. System descriptions within this brochure are provided for information purposes only. System limitations and operational requirements apply. See manual for details. Some technologies only work within a certain speed range, please see the manual or download the pricelist from [www.audi.co.uk/pricelist](http://www.audi.co.uk/pricelist) for more information.

## Technology to help you on the road.

Below is a selection of the optional technologies available. Many have been packaged together and can be found in our optional Driver Assistance Packs. Some, however, can be ordered individually. For more information, please download the pricelist from [www.audi.co.uk/pricelist](http://www.audi.co.uk/pricelist)

### Parking aids.

#### **Audi Parking System Advanced with rear reversing camera.**

Aids parking by acoustically and visually indicating distances to obstacles with guiding lines. Measured by sensors and a rear reversing camera.

#### **Audi Parking System Advanced with rear reversing camera and Park Assist.**

Also searches for and aids parking by indicating distances to obstacles, measured by ultrasonic sensors and a rear reversing camera. System automatically calculates and performs both parallel and perpendicular parking, as well as manoeuvring out of spaces – the driver only needs to accelerate and apply the brakes.

### Driver aids.

#### **Audi Active Lane Assist.**

An advanced Audi safety system which helps to keep you in lane using gentle steering intervention when lane boundary markings are detected. There's also an option that vibrates the steering wheel to alert you that you've drifted out of your lane.

#### **Audi Side Assist.**

This assistance system for multi-lane roads helps alert you to other vehicles in your blind spot when changing lanes. Using radar sensors discreetly hidden in the rear bumper, other vehicles are detected and the driver alerted with a visual warning signal in the door mirror.

#### **Speed limit display.**

Camera-based detection and display of speed limits, including temporary speed limit displays. Speed limit signs are recognised by the camera and this enables the current speed limit to be read conveniently in the Driver's Information System (DIS). Should the camera not detect a sign, the speed limit from the navigation system data (if fitted) will be shown.

## Diamond cut finish alloy wheel

Diamond cut is a special finish on aluminium wheels. It is also sometimes referred to as 'polished' or 'partly polished'. Special aftercare should be taken when driving in extreme wintry road conditions.

For manufacturing reasons, these wheel surfaces do not have sufficient corrosion protection for such use and they can be permanently damaged by road salt or similar.

## CO2 and fuel consumption figures

\*Fuel consumption and CO2 emissions figures are obtained under standardised test conditions (Directive 93/116/EEC) using a representative model. This allows direct comparison between different models from different manufacturers, but may not represent the actual fuel consumption achieved in 'real world' driving conditions. Optional wheels may also affect emissions and fuel consumption figures. More information is available at [www.dft.gov.uk/vca](http://www.dft.gov.uk/vca)
